### WRENCHING AND RACING WITH CARROLL SHELBY IN THE 1960S

---

[Motorbooks](#) In the late 1950s, a young John Morton was transfixed with sports car racing. His dreams of competition eventually led him to enroll, in 1962, in the Shelby School of High Performance Driving. In a bold moment after the last class, Morton asked Carroll Shelby if he might come to work for the newly formed Shelby American. The answer was "Yes, here's a broom." Thus ended Morton's college career and began his long racing career. Over the next three years, Morton would be a firsthand witness to the evolution of one of the most iconic sports car builders and racing teams of the 1960s. Inside Shelby American is his personal account of a company overflowing with talent, from designer Pete Brock to fabricator extraordinaire Phil Remington to drivers like Dan Gurney, Ken Miles, Bob Bondurant, and Phil Hill. The cars were equally captivating: AC Cobra, Mustang GT350, Ford GT, Daytona Coupe. In this book, Morton's story is intertwined with the memories of other Shelby staffers of the period, revealing through historic photography and an untold perspective the rousing story of America's most legendary racer and car builder.

### **MY TIMES WITH CARROLL SHELBY**

---

Veloce Publishing Ltd Carroll Shelby, legendary driving ace, race team owner, and designer of Shelby Cobra, Daytona, and Mustang GT350 classics is revered by automotive enthusiasts, yet little has been written about the last quarter century of Carroll Shelby's life. During that time Chris Theodore, VP at Chrysler and Ford, developed a close personal friendship with Carroll. The Last Shelby Cobra chronicles the development of the many vehicles they worked on together (Viper, Ford GT, Shelby Cobra Concept, Shelby GR1, Shelby GT500 and others). It is an insider's story about how Shelby came back to the Ford family, and the intrigue behind the five-year journey to get a Shelby badge on a Ford Production Vehicle. The author provides fresh insight and new stories into Shelby's larger-than-life personality, energy, interests and the many unpublished projects Carroll was involved with, up to his passing. Finally, the book describes their unfinished project, the Super Snake II Cobra, and the serendipitous circumstances that allowed to the author to acquire 'Daisy,' the last Shelby Cobra. To his many fans, Carroll Shelby was truly 'the most interesting man in the world.'

### **THE AUTHORIZED BIOGRAPHY**

---

[Motorbooks](#) The definitive record of the twentieth century's preeminent car builder and racer is now available in an updated paperback edition. It was motoring author Rinsey Mills' passion for AC cars and motorsports history that led to his first meeting with Carroll Shelby. His suggestion that they should collaborate in order to create an accurate record of Shelby's life and achievements at first was rebuffed but later taken up with enthusiasm. This authorized biography is the result. Carroll Shelby: The Authorized Biography was a long time in the making, as Mills left no stone unturned in his quest to produce the complete study of Shelby's remarkable life. He carried out extensive research and conducted numerous interviews, fully capturing the narrative of Carroll Shelby within and outside of the automotive racing world: his childhood in Texas, wartime tenure with the Army Air Force, and postwar entrepreneurship; his earliest race wins in 1952 and his legendary 1959 victory at the 24 Hours of Le Mans; his monumental release of the first Cobra and the formation of Shelby American in 1962; his historical partnership with Ford that would last for decades; all the way through to Shelby's personal hobbies, travels, and present-day legacy. Fascinating photographs from Shelby's personal collection complete a book whose original hardcover edition was published mere weeks before his passing, making Carroll Shelby: The Authorized Biography a magnificent and lasting tribute to one of the greatest automotive figures of the twentieth century.

[Bruce Carlson, LLC](#) The world is constantly changing and we never know how tomorrow will be different from today. There are many things we can prepare for in life and some we can't. It's the ones we can't that make us understand how fragile we are as humans. Who would have thought, in our time of technology superiority and medical wonderment, we would shut down our world to deal with a virus from COVID-19? Why did we shut down our world? What were we afraid of? Getting a little sick? Getting a lot sick? Dying? AHA! DYING! IS IT DYING? ARE WE AFRAID OF DYING? SERIOUSLY? If our lives are so valuable to us, then why do we allow ourselves to be killed so easily? We can live one of two ways: We can lock ourselves in or let ourselves out. We may be able to protect ourselves more from dying if we lock ourselves in but if we let ourselves out, welcome to your world! In case you don't recognize it, yours is the world where crime runs rampant, murder is an everyday thing, and there's a pretty good chance you, a loved one, or a friend of yours is going to be hurt by another human being (who is someone's child) and you will live with the pain of having been hurt by them for the rest of your life . . . and the persons responsible for your pain will never get punished! We need to stop our future from ending by going down the path it is. We need to stop building ourselves wrong! This book can help us start stopping! There are nearly 7.5 billion people on earth. It is estimated there are over 4,000 religions and it is believed people speak about 6,500 languages. Yet there is no religion anywhere in the civilized world saying a person cannot kill us or our children. There is no government saying the right person will be held responsible for stealing from us or our family. There is no law of any land saying that a person is not allowed to make a mockery of, tease, bother, insult, lie about, embarrass, or in any way destroy another human being! Each of us has the right - unrestricted - to do anything evil, hateful, harmful, and without justification to any other person on our planet without recourse! How is that? Because parents do something wrong if their children do something wrong! And that means if their children EVER do something wrong: ANY time, ANY place!! 1+1 should not equal 3 . . . unless the 3 is a good 3! Blame and Punish helps us understand what, and why, we need to begin believing . . . and fixing! For 300,000 years we've been doing this wrong! It's time to make sure we can live our lives without them ending prematurely so let's Blame and Punish right!

[McFarland](#) Professional motorsports found their way to Las Vegas in the mid-1950s at a bankrupt horse track swarmed by gamblers--and soon became enmeshed with the government and organized crime. By 1965, the Vegas racing game moved to Stardust International Raceway, constructed with real grandstands, sanitary facilities and air-conditioned timing towers. Stardust would host the biggest racing names of the era--Mario Andretti, Parnelli Jones, John Surtees, Bobby Unser, Dan Gurney and Don Garlits among them. Established by a notorious racketeer, the track stood at the confluence of shadowy elements--secret wiretaps, casino skimming, Howard Hughes, and the beginnings of Watergate. The author traces the Stardust's colorful history through the auto racing monthlies, national newspapers and the files of the FBI.
