What happens that day is the catalyst for momentous events strung across eight more moments in time; love and deception, near-misses and misunderstandings, all centred around the terrible thing that happens to a young girl and the repercussions it will have on the lives of her family, even those not yet born.. Toni Jordan's NINE DAYS is a beautiful, heartbreaking novel, a masterful piece of writing filled to bursting with warm, funny, spiky, lovable characters. It is the story of a tragedy, and the ripples that spread outwards from it through the generations, for better or worse. It is a book you will want to pass on, if you can bear to let it go.
