REPORT OF THE AMERICAN BAR ASSOCIATION SPECIAL COMMITTEE ON AUTOMOBILE ACCIDENT REPARATIONS

BALTIMORE'S HEALTH GUIDE FOR CAR ACCIDENT VICTIMS

If you have been recently injured in a car accident, you are probably confused and worried about what to do next. I bet you are asking yourself questions like the following: "Will my car be repaired?" "Will my medical bills be paid?" "Will I ever get better?" "Will I be paid for the time I'm missing from work?" "What do I do if the other person doesn't have car insurance?" "What will the insurance company offer me for my injuries?" If you or someone you care about has any of these concerns, please keep reading this special Victims Health Guide. My name is Blake Kalkstein, D.C, and I've been helping injured people get fast relief from auto accident injuries in Baltimore. Whiplash injury is a very real type of problem that costs communities billions in health care and disability dollars. Studies have recently shown that about 10-20% of the population suffers from neck pain, and car accidents/traumas are a big cause of this type of pain. But you've probably wondered how something so minor as a fender-bender to your bumper could be such a pain in neck..... Maybe your doctor told you, "give it a couple of weeks"..."you'll be fine." But you're not fine. Your neck hurts when you work at the computer, when the dog pulls too hard on the leash... maybe sleep has become more difficult with a lot of tossing and turning, or you've become dizzy...or always tired when you used to be full of energy and pep. Maybe you've noticed how your neck moves differently since the accident. Looking over the shoulder perhaps isn't as easy as before. Does all of this sound familiar? It's quite surprising when you look at whiplash research and its global impact-the entire body is affected. You probably didn't think that headaches or fatigue were part of the whiplash bargain, but they are. Your Bumper Doesn't Tell the Whole Story... You can't look at a dent in the bumper and conclude that the neck wasn't injured. For instance, they're called 5 mph bumpers for a reason-designed to not be damaged in very low speed collisions. This is good for the bumper, but not necessarily for your neck! What researchers have discovered is that when collisions are of enough force, this causes the vehicle to crumple and absorb energy. Low speed collisions will often not cause the crumple zones to be engaged. If you have a rigid fixed bumper (seen on many older cars and trucks), that does not crumple-this can make the whiplash injury even more severe. For the above reasons, you might be even more injured in an accident below 20 mph than one above that speed. There are of course limits to this effect. Collisions at very high speeds (above 40 mph) will often cause the occupants to suffer severe injuries, even though the crumple zones are absorbing some of the energy. You may have heard someone profess skepticism for your whiplash injury. Maybe they thought you were gaming the system or out to make a fast buck. Where does this perception come from? Probably the insurance companies, who may have a profit-motive for denying the reality of whiplash injuries. Some physicians are simply ignorant about whiplash trauma, perform cursory spinal examinations, or offer treatments that have little or no scientific evidence to back them up. But is there really such a thing as "Whiplash?" The science says, "YES!" Whiplash-a soft tissue injury to the neck-is also called neck sprain or neck strain. It is characterized by a collection of symptoms that occur following damage to the neck, usually because of sudden extension and flexion. The disorder commonly occurs as the result of an automobile accident and may include injury to the joints of the spine, disks, and ligaments, cervical muscles, and nerve roots. Symptoms such as neck pain may be present right after the injury or may be delayed for several days... especially days 3, 4 and 5 after the accident.

AUTO ACCIDENT PERSONAL INJURY INSURANCE CLAIM

AuthorHouse Auto Accident Personal Injury Insurance Claim reveals the inside secrets of claim negotiating and shows you how to settle your case for top dollar. This book will guide you through the insurance claim wilderness and provide you with the answer to that critical question: How much is my "pain and suffering" worth? The mystery of how to place a value on your "pain and suffering" has been solved with the introduction of BASE: The Baldyga Auto Accident Settlement Evaluation Formula. It will help you to prove your losses, and to know how to present them during your negotiations. You'll learn the all-important 4 "Values" that BASE provides for you: The PREMIUM Value, The MEAN Value, The CORE Value and The LOW Value. The BASE Formula is a simple, yet revolutionary evaluation tool. Knowing how to guide an accident claim to a victorious payoff is not an exclusive ability, possessed by a select few. Don't be seduced into thinking you can't do it yourself. That simply isn't true! This book will show you how. If you've been in an accident and you're uninformed, you have little or no concept of the ultimate value of your possible recovery. Because of this, you're less able to make appropriate demands. As the claims negotiation process moves towards a close, you're settlement demands are very often too low or too high. You're ignorant of the accepted principles, which justify your demands. When you attempt to negotiate a settlement with these handicaps, you run a strong chance of being victimized. The amount of compensation you should be paid isn't found in a crystal ball. Rather, a number of simple factors such as the type of accident, related injuries, out-of-pocket expenses, medical costs and lost wages all go into determining how much a claim is worth. What amount an insurance company is willing to pay actually falls into a fairly narrow spectrum. To read this book is to become informed on bodily injury claim settlement facts and details. You'll discover how to implement BASE so you can determine the monetary value of the "pain and suffering" you've endured because of your injury. You'll know what to ask for and how to negotiate it. You'll learn how to supply the adjuster with all the documentation and proof needed to establish your claim. You'll gain the knowledge needed to accomplish this when you read Auto Accident Personal Injury Insurance Claim. And you'll walk away from the negotiation table with a smile on your face.

YOU'RE NOT A DUMMY...

WASHINGTON'S HEALTH GUIDE FOR CAR ACCIDENT VICTIMS

CreateSpace If you have been recently injured in a car accident, you are probably confused and worried about what to do next. I bet you are asking yourself questions like the following: "Will my car be repaired?" "Will my medical bills be paid?" "Will I ever get better?" "Will I be paid for the time I'm missing from work?" "What do I do if the other person doesn't have car insurance?" "What will the insurance company offer me for my injuries?" If you or someone you care about has any of these concerns, please keep reading this special Car Accident Victim's Guide. My name is David M. Warwick, D.C, and I've been helping injured people get fast relief from auto accident injuries in Lacey / Olympia for almost 20 years. Whiplash injury is a "very real" problem that costs communities billions in health care and disability dollars. Studies have recently shown that about 10-20% of the population suffers from neck pain, and car accidents/traumas are a big cause of this type of pain. But you've probably wondered how something as minor as a fender-bender to your bumper could be such a pain in neck..... Maybe your doctor told you "give it a couple of weeks.." "you'll be fine." AUTOMOBILE INSURANCE AND COMPENSATION STUDY

HEARING, NINETY-FIRST CONGRESS, SECOND SESSION ... OCTOBER 7, 1970

THE GOOD TIMES

Diversion Publishing Corp. A "superb [and] often hilarious" memoir of a life in journalism, from the Pulitzer Prize-winning author of *Growing Up* (The New York Times Book Review). "Baker here recalls his years at the Baltimore Sun, where, on 'starvation wages,' he

worked on the police beat, as a rewrite man, feature writer and White House correspondent. Sent to London in 1953 to report on the coronation, he spent the happiest year of his life there as an innocent abroad. Moving to the New York Times and becoming a 'two-fisted drinker,' he covered the Senate and the national political campaigns of 1956 and 1960, and, just as he was becoming bored with routine reporting and the obligation to keep judgments out of his stories, was offered the opportunity to write his own op-ed page column, 'The Observer.' With its lively stories about journalists, Washington politicians and topical scandals, the book will delight Baker's devotees—and significantly expand their already vast number." —Publishers Weekly "Aspiring writers will chuckle over Baker's first, horrible day on police beat, his panicked interview with Evelyn Waugh, and his arrival at Queen Elizabeth's coronation in top hat, tails, and brown-bag lunch."—Library Journal "A wonderful book." —Kirkus Reviews

ADDRESSES OF THE MISSISSIPPI PHILOSOPHICAL ASSOCIATION

BRILL *Addresses of the Mississippi Philosophical Association* is a collection of presidential and invited addresses from the members of the Mississippi Philosophical Association (MPA). Papers date from the inception of the association in the mid-1940s and continue through 1999. The common thread in these addresses is the authors' service to or leadership in the MPA. The content and methods in the chapters are diverse, including addresses on ethics, political philosophy, history of philosophy, epistemology, aesthetics, philosophy of language, philosophy of religion, philosophy of science, and philosophical theology. Some unique features of this book are a history of the MPA, biographical sketches and photographs of each contributor, and the inclusion of the unpublished 1988 Dunbar Lectures from Millsaps College and the unpublished 1992 Akin Lecture from Mississippi College. These essays and lectures reveal the vitality of philosophy in the colleges and universities of Mississippi. As part of the special series, *Histories and Addresses of Philosophical Societies* in the larger Value Inquiry Book Series, this book documents - in a unique historical format - the value and vitality of a state philosophical organization. "There has been no attempt to mold these addresses into a unity; rather, the addresses offer a glimpse of the pluralistic philosophical reflection among the philosophical faculties of the private colleges and public universities in the state of Mississippi. To the surprise of some people, philosophy is alive, well, diverse, and flourishing in Mississippi!" (from the Preface).

FREE MOTHER TO GOOD HOME

A HANDBOOK & SURVIVAL GUIDE FOR GOOD PARENTS, STEPPARENTS & GRANDPARENTS WHO FIND THEMSELVES UNDERAPPRECIATED, UNDER-LOVED, AND OVERWHELMED

BalboaPress Have you heard the words, "I never dared to treat my parents the way kids do today"? If you are a baby boomer or the parent of a tween, teen, or adult child, not only have you heard those words, you may have uttered them yourself. If, in this new age of child-parent relations, you've ever felt like a helpless puppy or kitten inside a box marked "Free to Good Home,"—if, in spite of all your love and the care with which you embraced parenting, your child has grown into an entitled and thoughtless power broker in your relationship—read on. Author Kay Taylor has studied sociology, parenting, blended families and personal growth for years; in this bold, groundbreaking book she explores the changes in our culture that she believes have given birth to what she describes as the E-generation—a generation of teens and young adults that feel so empowered and entitled that they often clash with their parents, creating a palpable power struggle within the family. This often leaves good parents alone, depressed, and completely befuddled as to what they did wrong. *Free Mother to Good Home* comes from the heart and experiences of an everyday parent in the trenches. Taylor offers a mother's perspective, as well as a remedy for parental blues, helping parents know what they can do to get their houses and their lives back in order.

CONGRESSIONAL RECORD**PROCEEDINGS AND DEBATES OF THE ... CONGRESS****SAFETY REVIEW****HEARINGS, REPORTS AND PRINTS OF THE HOUSE COMMITTEE ON INTERSTATE AND FOREIGN COMMERCE****9TH CIRCUIT UPDATE****WHO PAYS FOR CAR ACCIDENTS?****THE FAULT VERSUS NO-FAULT INSURANCE DEBATE**

Georgetown University Press In this new volume, two lawyers debate which kind of automobile insurance is the best, no-fault or tort liability. This book presents in one place all the legal, political, historical, and financial arguments about the two types of auto insurance. Under the fault system currently used by thirty-seven states, tort law provides that the party at fault in the accident pays the full damages of accident victims. Jerry J. Phillips favors this system, arguing that it allows for fair compensation to the injured and deters drivers from dangerous behavior on the road. Stephen Chippendale counters this claim with the argument that tort-law based insurance combines high cost and low benefits, and that those who truly profit from it are the lawyers representing injured clients, while their claims clog up the court system. A better solution, he proposes, would be "Auto Choice," a plan under which consumers would choose whether or not they wished to be eligible for damages from pain and suffering. With civility and respect, these two legal scholars present thoughtful and thorough arguments on both sides of the debate, giving readers a balanced view of an issue that affects nearly every American. It will be of particular value to those in the fields of law, policy, and insurance.

OVERCOMING THE TRAUMA OF YOUR MOTOR VEHICLE ACCIDENT**A COGNITIVE-BEHAVIORAL TREATMENT PROGRAM WORKBOOK**

Oxford University Press Includes the information necessary for a client to learn the appropriate skills to overcome their MVA-related Post-traumatic Stress Disorder. This workbook shows clients how to alleviate their suffering through a variety of skills, and also gives the opportunity to deal with other issues, such as anger, numbness, estrangement, and more.

WHY BAD STUFF HAPPENS TO GOOD PEOPLE

THE FINAL ANSWER

Xlibris Corporation WHY BAD STUFF HAPPENS TO GOOD PEOPLE: is a book loaded with intrigue, suspense, mind disturbing questions, and eventually the answer given somewhere in the book, not disclosed. Many questions both Christians and secularists ask concerning this topic is similar concerning the guilt and innocence of children, which are answered here with no apology. You may be shocked but you may also be the judge! This read is compared to twelve other writers on the subject with diverse and bizarre answers to the question WHY, which are challenged here and in my opinion offering no answer to this hunting question of WHY. "The Final Answer" is in this book found nowhere else in any literature.
