### 3D COACH

### CAPTURING THE HEART BEHIND THE JERSEY

Revell With more than 60 million athletes involved in sports in America, it is estimated that one coach will impact more people in one year than the average person does in a lifetime. Today's coach could be one of the greatest authoritative figures in the life of today's adolescent. So the question isn't whether coaches leave a legacy, but rather, what will that legacy be? Current trending research shows that only 15% of coaches are intentional about coaching beyond the skills and strategies of the game (1st Dimension). A 3-Dimensional Coach understands and harnesses the power of the coaching platform to coach the mind (2nd Dimension) and transform the heart (3rd Dimension). They can be the catalysts for internal transformation that guides both the coach and the athlete on a spiritual journey to finding purpose in our performance-based culture. Now that's a legacy! In 3D Coach, National Coaches Training Director Jeff Duke shares his own journey through the three dimensions of coaching and how it has impacted his life and those around him. He also shares the personal stories of coaches from all levels who have implemented the 3D concept into their own programs and who have pointed to Jesus Christ, the Master Coach, as the ultimate example of how to lead athletes to true significance.

### MEDIA ACTIVISM IN THE DIGITAL AGE

Taylor & Francis Media Activism in the Digital Age captures an exciting moment in the evolution of media activism studies and offers an invaluable guide to this vibrant and evolving field of research. Victor Pickard and Guobin Yang have assembled essays by leading scholars and activists to provide case studies of feminist, technological, and political

interventions during different historical periods and at local, national, and global levels. Looking at the underlying theories, histories, politics, ideologies, tactics, strategies, and aesthetics, the book takes an expansive view of media activism. It explores how varieties of activism are mediated through communication technologies, how activists deploy strategies for changing the structures of media systems, and how governments and corporations seek to police media activism. From memes to zines, hacktivism to artivism, this volume considers activist practices involving both older kinds of media and newer digital, social, and network-based forms. Media Activism in the Digital Age provides a useful cross-section of this growing field for both students and researchers.

#### UNDERSTANDING YHWH

---

#### THE NAME OF GOD IN BIBLICAL, RABBINIC, AND MEDIEVAL JEWISH THOUGHT

---

[Springer Nature](#) This book unlocks the Jewish theology of YHWH in three central stages of Jewish thought: the Hebrew bible, rabbinic literature, and medieval philosophy and mysticism. Providing a single conceptual key adapted from the philosophical debate on proper names, the book paints a dynamic picture of YHWH's meanings over a spectrum of periods and genres, portraying an evolving interaction between two theological motivations: the wish to speak about God and the wish to speak to Him. Through this investigation, the book shows how Jews interpreted God's name in attempt to map the human-God relation, and to determine the measure of possibility for believers to realize a divine presence in their midst, through language.

#### POPE FRANCIS AND HIS STRUGGLE TO CONVERT THE CATHOLIC CHURCH

---

[Henry Holt and Company](#) Following his critically acclaimed *The Great Reformer*, Austen Ivereigh's colorful, clear-eyed portrait of Pope Francis takes us inside the Vatican's urgent debate over the future of the church in *Wounded Shepherd*. This deeply contextual biography centers on the tensions generated by the pope's attempt to turn the Church away from power and tradition and outwards to engage humanity with God's mercy. Through battles with corrupt bankers and worldly cardinals, in turbulent meetings and on global trips, history's first Latin-American pope has attempted to reshape the Church to evangelize the contemporary age. At the same time, he has stirred other leaders' deep-seated fear that the Church is capitulating to modernity—leaders who have challenged his bid to create a more welcoming, attentive institution. Facing rebellions over his allowing sacraments for the divorced and his attempt to create a more "ecological" Catholicism, as well as a firestorm of criticism for the Church's record on sexual abuse, Francis emerges as a leader of remarkable vision and skill with a relentless spiritual focus—a leader who is at peace in the turmoil surrounding him. With entertaining anecdotes, insider accounts, and expert analysis, Ivereigh's journey through the key episodes of Francis's reform in Rome and the wider Church brings into sharp focus the frustrations and fury, as well as the joys and successes, of one of the most remarkable pontificates of the contemporary age.

#### THE DEVELOPMENT OF ARMoured FORCES, THEIR TACTICS AND OPERATIONAL POTENTIAL

---

[Arms & Armour](#) This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

#### SWIMMING THE CHRISTIAN ATLANTIC

---

[BRILL Scholarship](#) on the formation of the Atlantic world through contributions from Europe, Africa and the Americas has grown in recent decades. The results offer new understandings of the transformations in ethnic and religious identity faced by peoples from all the surrounding continents. Long used by scholars of Jewish studies, records from the Spanish and Portuguese Inquisitions have become an important source for historians of Africans and Amerindians in the Iberian colonial orbit. Using these and other materials, this book explores race, religion and politics among three newly and incompletely Christianized groups in the seventeenth century: Judeoconversos, Afroiberians and Amerindians. This fresh cross-cultural analysis brings these differing trajectories into dialogue.

#### THE RENAISSANCE UTOPIA

---

#### DIALOGUE, TRAVEL AND THE IDEAL SOCIETY

---

[Ashgate Publishing, Ltd.](#) A study of European utopias in context from the early years of Henry VIII's reign to the Restoration, this book is the first comprehensive attempt since J. C. Davis' *Utopia and the Ideal Society* (1981) to understand the societies projected by utopian literature from Thomas More's *Utopia* (1516) to the political idealism and millenarianism of the mid-seventeenth century. Where Davis concentrated on understanding utopias historically, *Renaissance Utopia* also seeks to make sense of utopia as a literary form, offering both a new typology of utopia and a new history of European humanist utopianism. This book examines how the utopia was transformed from an intellectual exercise in philosophical interrogation to a serious means of imagining practical social reform. In doing so it argues that the relationship between Renaissance utopia and Renaissance dialogue is crucial; the utopian mode of discourse continued to make use of aspects of dialogue even when the dialogue form itself was in decline. Exploring the ways in which utopian texts assimilated dialogue, *Renaissance Utopia* complements recent work by historians and literary scholars on early modern communities by providing a thorough investigation of the issues informing a way of modelling a very particular community and literary mode - the utopia.
