ISLAM IN BANGLADESH

BRILL This study, done within the comprehensive Weberian framework, focuses on religion and social change in Bangladesh through an imaginative use of qualitative as well as quantitative methods of modern social research. It first provides a sociological interpretation of the origin and development of Islam in Bengal using historical and literary works on Bengal. The main contribution is based on two sample surveys conducted by Mrs. Banu in 20 villages of Bangladesh and in three areas in the metropolitan Dhaka city. Using these survey data, she gives a sociological analysis of Islamic religious beliefs and practices in contemporary Bangladesh, and more importantly, she studies the impact of the Islamic religious beliefs on the socio-economic development and political culture in present-day Bangladesh. She also shows how Islam compares with modern education in social 'transforming capacity'. This careful and rigorous work is a notable contribution to sociology of religion and helps to deepen our understanding of the interactions between religious and social changes common to many parts of the Third World.

GLOBAL STATUS REPORT ON ROAD SAFETY 2015

World Health Organization "The Global status report on road safety 2015, reflecting information from 180 countries, indicates that worldwide the total number of road traffic deaths has plateaued at 1.25 million per year, with the highest road traffic fatality rates in low-income countries. In the last three years, 17 countries have aligned at least one of their laws with best practice on seat-belts, drink-driving, speed, motorcycle helmets or child restraints. While there has been progress towards improving road safety legislation and in making vehicles safer, the report shows that the pace of change is too slow. Urgent action is needed to achieve the ambitious target for road safety reflected in the newly adopted 2030 Agenda for Sustainable Development: halving the global number of deaths and injuries from road traffic crashes by 2020. Made possible through funding from Bloomberg Philanthropies, this report is the third in the series, and provides a snapshot of the road safety situation globally, highlighting the gaps and the measures needed to best drive progress."--Publisher's description.

This volume presents an overview of the madrasas in countries such as China, Indonesia, Malaysia, India and Pakistan."--Publisher description.

FAITHFUL EDUCATION

MADRASSAHS IN SOUTH ASIA

Rutgers University Press In the wake of the terrorist attacks on September 11, 2011, discussions on ties between Islamic religious education institutions, namely madrassahs, and transnational terrorist groups have featured prominently in the Western media. In the frenzied coverage of events, however, vital questions have been overlooked: What do we know about the madrassahs? Should Western policymakers be alarmed by the recent increase in the number of these institutions in Muslim countries? Is there any connection between them and the "global jihad"? Ali Riaz responds to these questions through an in-depth examination of the madraassahs in Pakistan, Bangladesh, and India. In *Faithful Education*, he examines these institutions and their roles in relation to current international politics.

HISTORY OF CIVILIZATIONS OF CENTRAL ASIA: DEVELOPMENT IN CONTRAST : FROM THE SIXTEENTH TO THE MID-NINETEENTH CENTURY

UNESCO The period treated in this volume is highlighted by the slow retreat of nomadism and the progressive increase of sedentary polities owing to a fundamental change in military technology: Furthermore, this period certainly saw a growing contrast in the pace of economic and cultural progress between Central Asia and Europe. The internal growth of the European economies and the influx of silver from the New World gave Atlantic Europe an increasingly important position in world trade and caused a major shift in inland Asian trade. Thus, 1850 marks the end of the total sway of pre-modern culture as the extension of colonial dominance was accompanied by the influx of modern ideas.

GLOBAL INDIAN DIASPORAS

EXPLORING TRAJECTORIES OF MIGRATION AND THEORY

Amsterdam University Press *Global Indian Diasporas* discusses the relationship between South Asian emigrants and their homeland, the reproduction of Indian culture abroad, and the role of the Indian state in reconnecting emigrants to India. Focusing on the limits of the diaspora concept, rather than its possibilities, this volume presents new historical and anthropological research on South Asian emigrants worldwide. From a comparative perspective, examples of South Asian emigrants in Suriname, Mauritius, East Africa, Canada, and the United Kingdom are deployed in order to show that in each of these regions there are South Asian emigrants who do not fit into the Indian diaspora concept—raising questions about the effectiveness of the diaspora as an academic and sociological index, and presenting new and controversial insights in diaspora issues.

KASHMIR IN CONFLICT

INDIA, PAKISTAN AND THE UNENDING WAR

"Why has the valley of Kashmir, famed for its beauty and tranquillity, become a major flashpoint, threatening the stability of a region of great strategic importance and challenging the integrity of the Indian state? This book examines the Kashmir conflict in its historical context, from the period when the valley was an independent kingdom right up to the struggles of the present day. Located on the borders of China, Central Asia and the Sub-Continent, the insurgency in the valley has also created serious tensions between India and Pakistan. Drawing upon research in India and Pakistan, as well as historical sources, this book traces the origins of the state in the 19th century and the controversial "sale" by the British of the predominantly Muslim valley to a Hindu Maharaja in 1846. Through an exploration of the implications for Kashmir of independence in 1947, it gives a critical account of why, for Kashmir, self-determination may seem a more attractive option than affiliation to a larger multi-racial whole."--Bloomsbury Publishing.

SUFI MARTYRS OF LOVE

THE CHISHTI ORDER IN SOUTH ASIA AND BEYOND

Springer Sufism is a religion which emphasizes direct knowledge of the divine within each person, and meditation, music, song, and dance are seen as crucial spiritual strides toward attaining unity with God. Sufi paths of mysticism and devotion, motivated by Islamic ideals, are still chosen by men and women in countries from Morocco to China, and there are nearly one hundred orders around the world, eighty of which are present and thriving in the United States. The Chishti Sufi order has been the most widespread and popular of all Sufi traditions since the twelfth-century. Sufi Martyrs of Love offers a critical perspective on Western attitudes towards Islam and Sufism, clarifying its contemporary importance, both in the West and in traditional Sufi homelands. Finally, it provides access to the voices of Sufi authorities, through the translation of texts being offered in English for the first time.

WHY HISTORY?

Routledge Why History is an introduction to the issue of history and ethics. Designed to provoke discussion, the book asks whether a good knowledge and understanding of the past is a good thing to have and if so, why. In the context of postmodern times, Why History suggests that the goal of 'learning lessons from the past' is actually learning lessons from stories written by historians and others. If the past as history has no foundation, can anything ethical be gained from history? Why History presents liberating challenges to history and ethics, proposing that we have reached an emancipatory moment which is well beyond the 'end of history'.

RISK ASSESSMENT OF VIBRIO PARAHAEMOLYTICUS IN SEAFOOD

INTERPRETATIVE SUMMARY AND TECHNICAL REPORT

Vibrio parahaemolyticus are common causes of diarrhoeal disease worldwide. These marine micro-organisms, native in estuarine waters globally, concentrate in the gut of filter-feeding molluscan shellfish, such as oysters, clams and mussels. Raw and undercooked seafood, including finfish, represent the principal vehicle of transmission to humans. This volume considers the applicability of an assessment of the public health impact of raw oyster consumption, developed in one country, to assess the public health risk associated with the consumption of raw oysters harvested in other countries where different growing and harvesting scenarios might exist. The approach is also applied to bloody clams and finfish to establish if such a risk assessment can also be adapted to other types of shellfish and finfish. This work is therefore divided in three parts focusing on (i) risk assessment of Vibrio parahaemolyticus in raw oysters, (ii) risk assessment of Vibrio parahaemolyticus in bloody clam and (iii) risk assessment of Vibrio parahaemolyticus in finfish. As well as providing insights on the risks associated with consumption of these commodities, the work also addresses how to make maximum use of existing and/or limited resources. This volume and others in the Microbiological Risk Assessment Series contain information that is useful to both risk assessors and risk managers, including international scientific committees, the Codex Alimentarius Commission, governments and food regulatory agencies, scientists, food producers and industries and other people or institutions with an interest in the area of microbiological hazards in foods, their impact on human health and food trade and their control.

THE WAHHABI MISSION AND SAUDI ARABIA

Bloomsbury Publishing This book reveals the theories that inspire al-Qaeda. There is no other accessible book on the subject. This is the sect that threatens the stability of Saudi Arabia and the Middle East. Wahhabism has been generating controversy since it first emerged in Arabia in the 18th century. In the wake of September 11th instant theories have emerged that try to root Osama Bin Laden's attacks on Wahhabism. Muslim critics have dismissed this conservative interpretation of Islam that is the official creed of Saudi Arabia as an unorthodox innovation that manipulated a suggestible people to gain political influence. David Commins' book questions this assumption. He examines the debate on the nature of Wahhabism, and offers original findings on its ascendance in Saudi Arabia and spread throughout other parts of the Muslim world such as Afghanistan and Pakistan. He also assesses the challenge that radical militants within Saudi Arabia pose to the region, and draws conclusions which will concern all those who follow events in the Kingdom. "The Wahhabi Mission and Saudi Arabia" is essential reading for anyone interested in the Middle East and Islamic radicalism today.
