SOCIAL WORK IN EUROPE

RACE AND ETHNIC RELATIONS

Routledge It is an acknowledged if not accepted fact that all European societies are being fundamentally transformed, and indeed perceptively unsettled, by increased migrations across nations and by the asserted presence of established minorities within their borders. The scale and speed at which these transformations have taken place have brought in their wake considerable social impacts and no small measure of fear and anxiety. Encounters with such diversity are part and parcel of the social work task, and learning how to negotiate them should be a de facto aspect of the training and continuous professional development of social workers and other social professions. However, the moral and political dimensions of the role, scope and nature of the social work task in responding appropriately to these changed and changing realities are rather more contested. This volume addresses many dimensions of the response to issues of race and ethnicity in social work practice in Europe. It extends the debates on inter-cultural and race equality practice in social work through a stimulating and innovative collection of contributions. This book was originally published as a special issue of the European Journal of Social Work.

FRAMING THE SIXTIES

THE USE AND ABUSE OF A DECADE FROM RONALD REAGAN TO GEORGE W. BUSH

"Over the past quarter century, American liberals and conservatives alike have invoked memories of the 1960s to define their respective ideological positions and to influence voters. Liberals recall the positive associations of what might be called the "good Sixties" - the "Camelot" years of JFK, the early civil rights movement, and the dreams of the Great Society - while conservatives conjure images of the "bad Sixties" - a time of urban riots, antiwar protests, and countercultural revolt." "In Framing the Sixties, Bernard von Bothmer examines this battle over the collective memory of the decade primarily through the lens of presidential politics. He shows how four presidents - Ronald Reagan, George H. W. Bush, Bill Clinton, and George W. Bush - each sought to advance his political agenda by consciously shaping public understanding of the meaning of "the Sixties." He compares not only the way that each depicted the decade as a whole, but also their commentary on a set of specific topics: the presidency of John F. Kennedy, Lyndon Johnson's "Great Society" initiatives, the civil rights movement, and the Vietnam War." "In addition to analyzing the pronouncements of the presidents themselves, von Bothmer draws on interviews he conducted with more than one

hundred and twenty cabinet members, speechwriters, advisers, strategists, historians, journalists, and activists from across the political spectrum - from Julian Bond, Daniel Ellsberg, Todd Gitlin, and Arthur Schlesinger to James Baker, Robert Bork, Phyllis Schlafly, and Paul Weyrich."--BOOK JACKET.
