### CASES ON STRATEGY FORMULATION AND IMPLEMENTATION

---

*Springer* This book illustrates the various facets of internationalization in managerial practice, starting with a strategic outline of the many options firms have when formulating internationalization strategies. Designed as a textbook for Bachelor, Master and MBA classrooms, the core of the book consists of six case studies on firms from diverse industries, such as sporting goods, aviation, grocery discount, motorcycle, computer and IT, and fast-food. The cases present a variety of ways of entering and operating in foreign markets, such as export, franchising, joint ventures, strategic alliances, greenfield-investments, acquisitions and mergers. In addition to market entry strategies, the cases provide readers, educators and students with insights into target market strategies, timing strategies, allocation strategies and coordination strategies of well-known companies.

## PRIVATIZATION EXPERIENCES IN THE EUROPEAN UNION

---

MIT Press *Experts evaluate the varied outcomes of privatization experiences in Austria, Denmark, Finland, France, Germany, Ireland, Italy, the Netherlands, Spain, and the UK. The trend toward privatization, which began with privatization experiments in the UK under Margaret Thatcher and the deregulation of the telecommunications sector in the United States, has attracted the attention of policymakers over the past two decades. Privatization is broadly supported by most academic economists, but the results of actual privatization efforts seem mixed. In the UK, for example, telecom rates fell sharply after privatization, but privatized rail service was widely perceived to have declined dramatically in quality. In this CESifo volume, international experts examine the experiences of 10 EU countries, evaluating the real outcomes of privatization policies in Austria, Denmark, Finland, France, Germany, Ireland, Italy, the Netherlands, Spain, and the UK. The effects of privatization--which includes not only changes in ownership of public activities and entities but also liberalization of markets and deregulation--are difficult to distinguish from the effects of other economywide influences. The studies in this volume meet this methodological challenge by using a well-defined set of criteria, including reducing consumer prices, increasing quantity, and improving quality, by which to make their assessments. Background chapters provide a conceptual framework for considering the issues. Contributors Pablo Arocena, Sean D. Barrett, Ansgar Belke, Michel Berne, Henrik Christoffersen, Andrea Goldstein, Günter Knieps, David Newbery, Martin Paldam, David Parker, Gérard Pogorel, Friedrich Schneider, Eric van Damme, Ingo Vogelsang, Johan Willner*

**TOURISM IN THE NEW EUROPE**

---

[Routledge](#) The book represents a state of the art review of key research on small firms in tourism in relation to European integration. It is, therefore, an essential resource for those engaged in research relating to tourism SMEs in transitional economies throughout the world. In addition, it is an essential purchase for the increasing number of students studying modules on small businesses as part of their final year undergraduate and postgraduate degree programmes. One of the key features of this book is its clear focus on breaking new ground by reporting recent research and theorising on small firms in tourism. In many cases, the analysis provided by contributors will carefully relate small business behaviour to issues of wider concern to tourism academics and policy-makers. It is also distinctive for its overt emphasis on contrasting European experiences. These characteristics contrast with the existing literature on small firms in tourism and hospitality, particularly in Europe. Previous literature achieved their aims by providing valuable syntheses of existing literature. Now that such 'taking of stock' has been undertaken, there is a demand for more overtly research-based texts that are nevertheless accessible to a wide audience. This book does exactly that.

[Elsevier](#) A new section of short reviews called 'Frontiers' was introduced within the Elsevier journal *Earth and Planetary Science Letters (EPSL)* in 2002 under the Editorship of Alex Halliday from ETH Zurich, Switzerland. These high profile Frontiers articles are written by leading experts and published as the opening pages to regular issues of EPSL. The reason for this development is that the Editors of EPSL believe there is an important niche to be filled with fast communications that bring the scientific community up-to-speed on interesting new areas of science. Frontiers articles are therefore specifically intended for the non-specialist earth and planetary science readership. In order to reach a broader readership, those without subscriptions to the journal, Frontiers articles will now also be published in a new book series, the EPSL Frontiers series. Volume 1 will contain all 2002 and 2003 Frontiers articles. Future volumes will contain one year of articles each.

**E-CYCLING: LINKING TRADE AND ENVIRONMENTAL LAW IN THE EC AND THE U.S.**

---

[BRILL](#) Dr. Kalimo's legal and policy analysis explores the phenomenon recycling throughout the entire product life cycle, from the extraction of raw materials, to the production and marketing of goods, to the use of those goods and to the management of the resulting wastes. In this light, he shows how trade law interacts and can function within the demands and needs of the evolving environmental legal paradigm. Overall, the work provides more than one hundred examples of just how and when modern environmental and free trade law converge in the practical context of recycling of electronics such as mobile phones and personal computers in the internal markets of the EC and the U.S.

## PLASMINOGEN: STRUCTURE, ACTIVATION, AND REGULATION

---

---

### STRUCTURE, ACTIVATION, AND REGULATION

---

Springer Science & Business Media in this research field and the many exciting discoveries suggest that the research efforts in the next decade will reveal the mechanisms by which the components of the plasminogen system interact and regulate both plasmin activation and function at a cellular level. Plasminogen: Structure, activation, and regulation is divided into two sections. The first section deals with the structure and regulation of plasminogen. The chapters in this section range from discussion of the structure of plasminogen and the regulation of the plasminogen gene to discussion of the structure and regulation of plasminogen activators and plasminogen activator inhibitors. Also examined is the relatively new data concerning the generation of anti-angiogenic molecules from plasminogen. The second section deals with the physiological and pathophysiological roles of plasminogen as well as the consequences of plasminogen gene knockout. Discussions in this section include examination of the role of plasminogen in hematopoietic malignancies, tumor cell progression, angiogenesis, mammary gland involution, wound healing, and bone reabsorption. xi xii Preface In closing, I would like to thank my administrative assistant, Ms. Vi Sommerfeld, for her invaluable assistance and time-less efforts with the organization and editing of the book. Lastly, I would like to acknowledge the efforts of the authors of the individual chapters, who are authorities in this field, for agreeing to take time from busy schedules to provide these chapters in a timely fashion. ### DIE EX ANTE BEURTEILUNG VON POSITIONIERUNGSSTRATEGIEN UND STRATEGIEN DER INTEGRIERTEN KOMMUNIKATION AM BEISPIEL DER KTM 990 DUKE

---

diplom.de Inhaltsangabe: Zusammenfassung: Die KTM-Sportmotorcycle AG ist ein Motorradhersteller mit Sitz in Mattighofen/Österreich. KTM baut rennsporttaugliche Motorräder und hat sich durch zahlreiche Weltmeistertitel und Rallye Siege als weltweit erfolgreichste Motorradmarke im Offroad-Sport etabliert. Um das Ziel, innerhalb der nächsten fünf Jahre größter Motorradhersteller in Europa zu werden, zu erreichen, reicht allerdings ein Ausbau der weltweiten Marktführerschaft im racingorientierten Offroad-Segment nicht aus. Daher ist eine Ausdehnung der Produktpalette in Richtung sportives Straßensegment geplant. Die Markteinführung der KTM 990 Duke im Modelljahr 2005 ist deshalb von besonderer strategischer Bedeutung für die KTM-Sportmotorcycle AG, weil es sich um das erste reinrassige Zweizylinder-Straßenmotorrad der Marke KTM handelt. In weiterer Folge kommt eine V2-Supermoto auf den Markt. Im Modelljahr 2007 folgt das Superbike KTM 990 RC8. Die KTM 990 Duke bildet also die Basis für die nachhaltige Etablierung der Marke im sportorientierten Straßensegment. Da der Motorradmarkt weitgehend gesättigt und der Konkurrenzdruck sehr stark ist, ist eine aktive Gestaltung der Stellung der KTM 990 Duke auf dem Markt mittels eines ausgereiften Positionierungs- und Kommunikationskonzeptes unerlässlich. Die Positionierung wird nicht zu Unrecht als die hohe Schule des Marketing bezeichnet. Unter Positionierung versteht man die Abgrenzung des eigenen Angebots gegenüber Mitbewerberangeboten. Sie ist darauf ausgerichtet, dass ein Produkt ein eigenständiges und unverwechselbares Profil gewinnt, das für die Konsumenten attraktiv ist und in der Folge dazu führt, dass sie das Produkt den Konkurrenzprodukten vorziehen. Die Umsetzung der Positionierung erfolgt im Rahmen der Kommunikationsstrategie. Nach Auffassung der Marketingwissenschaft und praxis ist im Kommunikationsbereich der Ansatz der integrierten Kommunikation maßgeblich. Unter integrierter Kommunikation versteht man die formale, inhaltliche und zeitliche Abstimmung der Kommunikationsmaßnahmen. Dadurch wird dem Kunden ein konsistentes Bild der Marke vermittelt und darüber hinaus können Synergieeffekte erzielt und Kostensenkungspotentiale realisiert werden. Sowohl die Positionierung als auch die integrierte Kommunikation sind aufgrund ihrer strategischen Ausrichtung und der erheblichen Investitionen mit denen die Umsetzung einer Positionierung einhergeht von großer Bedeutung für das Marketing. Die Neupositionierung [...]
