Land as a Human Right

A History of Land Law and Practice in Tanzania

African Books Collective Wherever there is a person's right, there is a corresponding duty imposed upon that person to respect the rights of others. This co-existence of rights and duties may be explained better by the principle of reciprocity of rights and duties. Such is the basis of Land as a Human Right: A History of Land Law and Practice in Tanzania. The esteemed author documents Tanzanian land law along its line of historical development (pre- and post-independence) whereby the thorny issues about 'rights' and 'duties' of the landed, landless and the intermediaries are elucidated. This volume is not limited to events in Tanzania, but includes jurisprudence of land law of other countries in order to tap some interpretative devices of our own by way of analogies. Various case types- reported and unreported, local and foreign- provide a tangible content to what would otherwise be pure theory. He also makes references to local newspapers as a way of tapping the public responses about land-related matters. His survey of such cases in and outside Tanzania led automatically to judgments touching on women's right to matrimonial property and inheritance; individual and collective rights to land; and the right to land of the indigenous peoples. It is the author's view that land law has remained poorly documented in Tanzania. There is plenty of literature about Land Law, yet these sources are not easily available or even accessible to every interested person. Equally, some of the available literature is so old that it may not always depict land law and/or practice as we tend to understand it today. This volume is a comprehensive text on land law in which all the necessary land law principles are highlighted with great precision. Advocate Rwegasira does this with a human rights approach, believing that it is through this approach that a person's right to land, whether individual or collective can best be explained, especially in this era when conflict over land is unabatedly becoming central in family, communal and societal relations. The language of human rights is for all of us to speak. It follows, therefore, that practitioners both of the bar and the bench will also find it useful for quick reference, much as will do policy makers, law reformers and the general public in and outside Tanzania.

Religion and Civil Human Rights in Empirical Perspective

Springer This volume offers an empirical perspective on the so-called first generation of human rights. It explores the legitimization of these human rights by individual people, both because of their religion and because of their vision of what constitutes human dignity. The book addresses such issues as the foundation of human rights, the necessity of a broader conversation about human rights, aspects of freedom of religion, and the role of religion in Belarus, Britain, Chile, Germany, Italy, Nigeria, Norway and Tanzania. Taking an international comparative perspective, the volume answers the question as to what extent adolescents in different countries support civil human rights and what influences their attitudes towards these rights. As the diversity of the contributions in this volume shows, the relationship between religion and civil human rights is complex and multifaceted. Studying this complicated relationship calls for a variety of theoretical perspectives and rigorous empirical testing in different national contexts. This book's empirical approach provides an important complementary perspective for legal, political and public debates.

Yusuf African Yearbook, 1995

Martinus Nijhoff Publishers The "African Yearbook of International Law" provides an intellectual forum for the systematic analysis and scientific dissection of issues of international law as they apply to Africa, as well as Africa's contribution to the progressive development of international law. It contributes to the promotion, acceptance of and respect for the principles of international law, as well as to the encouragement of the teaching, study, dissemination and wider appreciations of international law in Africa. A clear articulation of Africa's views on the various aspects of international law based on the present realities of the continent as well as on Africa's civilization, culture, philosophy and history will undoubtedly contribute to a better understanding among nations. The "African Yearbook of International Law" plays an important role in examining the tensions underlying the State in Africa, and by shedding more light on the causes of the fragility of African State institutions so as to facilitate the identification of appropriate remedies. The tension and interrelationships among issues such as territorial integrity, self determination, ethnic diversity and nation-building are constantly addressed. Development, human rights and democratization in Africa are also the subject of continuous attention and examination. The Special Theme of this volume is Human Rights and Development in Africa'.

Customary International Humanitarian Law

Cambridge University Press Customary International Humanitarian Law, Volume I: Rules is a comprehensive analysis of the customary rules of international humanitarian law applicable in international and non-international armed conflicts. In the absence of ratifications of important treaties in this area, this is clearly a publication of major importance, carried out at the express request of the international community. In so doing, this study identifies the common core of international humanitarian law binding on all parties to all armed conflicts.

International Survey of Family Law 2006

Jordan Pub Limited The International Survey of Family Law is the International Society of Family Law's annual review of developments in family law across the world. The 2006 edition covers developments in 27 countries written by leading academics and family law experts. Each article is accompanied by a French language abstract. The 2006 Review begins with a round-up of the major developments in the international arena, and is followed by contributions from a diverse selection of countries where there have been important developments in family law, including: Angola and the new law on children's and juvenile justice; Canada and the ongoing debate about same-sex marriage; Costa Rica and the family court system; France and the new Filiation Law; Ghana and domestic violence legislation; Slovenia and the legal regulation of adoption; and the South Pacific and cohabitation.

Gender Justice and Legal Pluralities

Latin American and African Perspectives

Routledge Gender Justice and Legal Pluralities: Latin American and African Perspectives examines the relationship between legal pluralities and the prospects for greater gender justice in developing countries. Rather than asking whether legal pluralities are 'good' or 'bad' for women, the starting point of this volume is that legal pluralities are a social fact. Adopting a more anthropological approach to the issues of gender justice and women's rights, it analyzes how gendered rights claims are made and responded to within a range of different cultural, social, economic and political contexts. By examining the different ways in which legal norms, instruments and discourses are being used to challenge or reinforce gendered forms of exclusion, contributing authors generate new knowledge about the dynamics at play between the contemporary contexts of legal pluralities and the struggles for gender justice. Any consideration of this relationship must, it is concluded, be located within a broader, historically informed analysis of regimes of governance.

Compendium of documents on National Human Rights Institutions in eastern and southern Africa Edited by Charles M Fombad 2019

Pretoria University Law Press Compendium of documents on National Human Rights Institutions in eastern and southern Africa Edited by Charles M Fombad 2019 ISBN: 978-1-920538-95-8 Pages: 898 Print version: Available Electronic version: Free PDF available About the publication Africa's increasing recognition and protection of human rights have been accompanied by a surge in the number of NHRIs established with broad mandates to promote and protect human rights. The mandates and powers of the NHRIs vary from country to country, as does their ability to deliver on these mandates. Indeed, the rapid increase in the number of NHRIs in Africa has come with a variety of substantive and operational challenges. In the face of such challenges, those who work in NHRIs need to understand the broader regional and global context in which the institutions operate and the changing nature of human rights issues. This compendium provides an overview of NHRIs in eastern and southern Africa. It is guided to a large extent by the internationally agreed-upon Principles Relating to the Status of National Institutions, referred to as the Paris Principles. These Principles are broadly accepted as the benchmark against which the legitimacy and credibility of NHRIs can be assessed. Endorsed by the United Nations General Assembly in 1993, the Paris Principles provide NHRIs with guidelines as to their competence and responsibilities, their composition and guarantees of independence and pluralism, and their methods of operation; additional principles relate to the status of commissions with quasi-judicial competence. The generous financial support of the Konrad Adenauer Stiftung, Rule of Law for Sub-Saharan Africa, Nairobi, Kenya office, is gratefully acknowledged.
