Manhood How to Be a Better Man-or Just Live with One [Zinc Ink](#) From NFL player turned film and TV star Terry Crews comes a wise and warmhearted memoir chronicling his lifelong quest to become a good man, loving husband, and responsible father. What does it mean to be a man? Terry Crews, TV's iconic "Old Spice Guy" and co-star of the hit Golden Globe Award-winning series Brooklyn Nine-Nine, has spent decades seeking the answer to that question. In Manhood, he shares what he's learned, telling the amazing story of his rise to fame and offering straight-talking advice for men and the women who love them. A self-described "super-driven superstar alpha male," Terry Crews embodies the manly ideal for millions worldwide. But as he looks back on his difficult childhood and shares hard-learned lessons from the many humbling experiences he endured to get where he is today, he shows how his own conception of manhood is constantly evolving. Crews offers up a lively, clear-eyed account of the ups and downs of his twenty-five-year marriage, revealing the relationship secrets that have kept it going—and the one dark secret that nearly tore it apart. Along the way, he shares his evolving appreciation for looking good, staying fit, and getting it done for the people you love. Being a man is about more than keeping your core strong. It's about keeping your core values stronger. With insightful observations on spirituality, work, and family, Terry Crews shows men how to face their inner demons, seek forgiveness from those they've wronged, and tear down the walls that prevent them from forging meaningful relationships with others. From the NFL gridiron to the Hollywood backlot, Terry Crews has survived it all with his sense of humor—and his marriage—intact. In Manhood he shows men

and holding back men—and all of society—and what we can do to promote a new masculinity that allows men of all ages to thrive. In *Better Boys, Better Men*, cultural critic and New York Times contributor Andrew Reiner argues that men today are working on an outdated model of masculinity, which prevents them in moments of distress and vulnerability from marshalling the courage, strength, and resiliency—the very characteristics we regularly champion in men—they need to thrive in a world vastly different from the ones their fathers and grandfathers grew up in. According to Reiner, this outdated model of manhood can have devastating effects on the entire culture and, especially boys and men, from falling behind in the classroom and rising male unemployment rates to increased levels of depression and disturbing upticks in violence on a mass scale. Reiner interviews boys and men of all ages, educators, counselors, therapists, and physicians throughout the United States to better understand what factors are preventing the country's boys and men from developing the emotional resiliency they need. He also introduces readers to the boys and men at the vanguard of a new masculinity that empowers them to find and express the full range of their humanity. Urgent and necessary, *Better Boys, Better Men* will change the way we talk about boys and men in America today.

A First-Rate Madness Uncovering the Links Between Leadership and Mental Illness [Penguin](#) *The New York Times* bestseller “A glistening psychological history, faceted largely by the biographies of eight famous leaders . . .” —*The Boston Globe* “A provocative thesis . . . Ghaemi’s book deserves high marks for original thinking.” —*The Washington Post* “Provocative, fascinating.” —*Salon.com* Historians have long puzzled over the apparent mental instability of great and terrible leaders alike: Napoleon, Lincoln, Churchill, Hitler, and others. In *A First-Rate Madness*, Nassir Ghaemi, director of the Mood Disorders Program at Tufts Medical Center, offers a myth-shattering exploration of the powerful connections between mental illness and leadership and sets forth a controversial, compelling thesis: The very qualities that mark those with mood disorders also make for the best leaders in times of crisis. From the importance of Lincoln's "depressive realism" to the lackluster leadership of exceedingly sane men as Neville Chamberlain, *A First-Rate Madness* overturns many of our most cherished perceptions about greatness and the mind.

The Truth About Men What Men and Women Need to Know [Atria Books](#) *The New York Times* bestselling author of *The Wait* and “spiritual teacher for our times” (Oprah Winfrey) frankly and

openly explores why men behave the way they do and what everyone—men and women alike—need to know about it. We hear it all the time. Men cheat. Men love power. Men love sex. Men are greedy. Men are dogs. But is this really the truth about men? In this groundbreaking book, DeVon Franklin dishes the real truth by making the compelling case that men aren't dogs but all men share the same struggle. He provides the manual for how men can change, both on a personal and a societal level by providing practical solutions for helping men learn how to resist temptation, how to practice self-control, and how to love. But *The Truth About Men* isn't just for men. DeVon tells female readers everything they need to know about men. He offers women a real-time understanding of how men's struggles affect them, insights that can help them navigate their relationships with men and information on how to heal from the damage that some misbehaving men may have inflicted. This book is a raw, informative, and accessible look at an issue that threatens to tear our society apart yet it offers a positive way forward for men and women alike.

The Beautiful Struggle A Memoir [One World](#) An exceptional father-son story from the National Book Award-winning author of *Between the World and Me* about the reality that tests us, the myths that sustain us, and the love that saves us. Paul Coates was an enigmatic god to his sons: a Vietnam vet who rolled with the Black Panthers, an old-school disciplinarian and new-age believer in free love, an autodidact who launched a publishing company in his basement dedicated to telling the true history of African civilization. Most of all, he was a wily tactician whose mission was to carry his sons across the shoals of inner-city adolescence—and through the collapsing civilization of Baltimore in the Age of Crack—and into the safe arms of Howard University, where he worked so his children could attend for free. Among his brood of seven, his main challenges were Ta-Nehisi, spacey and sensitive and almost comically miscalibrated for his environment, and Big Bill, charismatic and all-too-ready for the challenges of the streets. *The Beautiful Struggle* follows their divergent paths through this turbulent period, and their father's steadfast efforts—assisted by mothers, teachers, and a body of myths, histories, and rituals conjured from the past to meet the needs of a troubled present—to keep them whole in a world that seemed bent on their destruction. With a remarkable ability to reimagine both the lost world of his father's generation and the terrors and wonders of his own youth, Coates offers readers a small and beautiful epic about boys trying to become men in black America and beyond. Praise for *The Beautiful Struggle* “I grew up in a Maryland that lay years, miles and worlds away from the one whose summers and sorrows Ta-Nehisi Coates evokes in this memoir with such tenderness and science; and the greatest proof of the power of this work is the way that, reading it, I felt that time, distance and barriers of race and class meant nothing. That in telling his story he was telling my own story, for me.”—Michael Chabon, bestselling author of *The Yiddish Policemen's Union* and *The Amazing Adventures of Kavalier & Clay* “Ta-Nehisi Coates is the young James Joyce of the hip hop

generation.”—Walter Mosley **Boxing, Masculinity and Identity The 'I' of the Tiger** [Routledge](#) **Boxing** is infused with ideas about masculinity, power, race and social class, and as such is an ideal lens through which social scientists can examine key modern themes. In addition, its inherent contradictions of extreme violence and beauty and of discipline and excess have long been a source of inspiration for writers and film makers. Essential reading for anyone interested in the sociology of sport and cultural representations of gender, **Boxing, Masculinity and Identity** brings together ethnographic research with material from film, literature and journalism. Through this combination of theoretical insight and cultural awareness, Woodward explores the social constructs around boxing and our experience and understanding of central issues including: masculinity mind, body and the construction of identity spectacle and performance: tensions between the public and private person boxing on film: the role of cultural representations in building identities methodologies: issues of authenticity and ‘truth’ in social science. **Commemorative Events Memory, Identities, Conflict** [Routledge](#) **Commemorative Events** emphasise remembering. They are held on the anniversaries of significant past events, either annually or after significant time periods. Commemorative events provide fascinating insight into how societies see themselves, their heritage and their identity. These events however carry high propensity for controversy as memory and identity are highly subjective and other stakeholders hold different views of what should be commemorated and why. This is the first book to provide an in - depth critical examination of commemorative events, particularly what they mean to societies and how they are used by governments as well as impacts on other stakeholders. The book fully explores these issues by reviewing all the major types of commemorative events including, nationhood or independence, wars, battles, famous people and cultural milestones from varying geographical regions and stakeholder perspectives. By doing so the book furthers understanding of these types of events in society as well as furthering knowledge of social and political uses and impacts of events. This thought provoking volume will be valuable reading for students, researchers and academics interested in events. **Catastrophe An Investigation Into the Origins of the Modern World** [Ballantine Books](#) A groundbreaking "holistic" approach to the origins of the modern world looks to a worldwide climatic event that blocked out much of the sunlight for eighteen months wreaking havoc on civilization, causing famine, the fall of empires, mass migrations, and other monumental events. **Original. Humorist and noted social commentator Lex Jurgen breaks down 99 rules for manhood that may just save the future of mankind. From the sacred to the profane, a beginner's handbook if you will for millions of men raised on participation trophies, unmerited esteem, and non-science based specialty diets. There is hope for the wayward Millennial Male living in your basement. Just not a lot. This Christmas, why not get the 16-35 year old man in your life something that will make your own life much better. That selfless giving bit is vastly overrated. Your son, brother, boyfriend, husband, nephew, and his untucked short sleeve plaid button down shirt wearing semi-employed friends need this now. They'll thank you later. **Bush, City, Cyberspace The Development of Australian Children's Literature into the 21st Century** [Elsevier](#) Aimed at academic, professional and general readers, Bush, city, cyberspace provides a snapshot of the state of Australian children's and adolescent literature in the early twenty-first century, and an insight into its history. In doing so, it promotes a sense of where Australian literature for young people may be going and captures a literary and critical mood with which readers in Australia and beyond will identify. The title of the work is intended to capture the fact that the field has changed dramatically in the century and a half that 'Australian children's literature' has existed, from the bush myths and heroism that inform the past and the present, through the recognition that the vast majority of authors and readers live in cities, to the third wave of 'cyberliterature' that incorporates multimedia, hypertext, weblinks and e-books - none of which lessens the enduring enthusiasm of practitioners and readers for books. Bush, city, cyberspace is not meant to be an encyclopedic volume. Rather, well-known, recent and/or award-winning works have been emphasised, with the addition of others where these help to illuminate particular points. The book is similar in coverage and approach to **Australian Children's Literature: An Exploration of Genre and Theme**, written by the same three authors and published by the Centre for Information Studies in 1995. In the intervening period, much has changed in the field, notable examples including the blurring of the dividing line between 'quality' and 'popular' literature; the blending of genres; the rise of a truly indigenous literature; the demise, to a significant extent, of 'Outbackery' in fiction; the acceptance of multiculturalism as the norm; and the advent of the literature of cyberspace, with new methods, and the sheer speed, of communication between writer and reader. All these trends, and others, are reflected in this work. **Recollections of Death A Medical Investigation** [Harpercollins](#) **American Badass** [Zulu 7 Media, LLC](#) **American Badass** is the true story of a modern day Spartan. Curry's provocative book **The Man-Not** is a justification for Black Male Studies. He posits that we should conceptualize the Black male as a victim, oppressed by his sex. **The Man-Not**, therefore, is a corrective of sorts, offering a concept of Black males that could challenge the existing accounts of Black men and boys desiring the power of white men who oppress them that has been proliferated throughout academic research across disciplines. Curry argues that Black men struggle with death and suicide, as well as abuse and rape, and their genred existence deserves study and theorization. This book offers intellectual, historical, sociological, and psychological evidence that the analysis of patriarchy offered by mainstream feminism (including Black feminism) does not yet fully understand the role that homoeroticism, sexual violence, and vulnerability play in the deaths and lives of Black males. Curry challenges how we think of and perceive the conditions that actually affect all Black males. **Interpreting Research in Sport and Exercise Science** [William C Brown Pub](#) Provides the reader with skills to interpret scientific articles and recognize appropriate formats for research studies. The park has many special features, including dramatic wave cut platforms and sea caves, some of the whitest beach sands in Australia, and very high densities of native predators such as the Powerful Owl and the Diamond Python. This book outlines the biology and ecology of Booderee National Park. Booderee packs an extraordinary level of biodiversity into a small area (roughly 6500 hectares), with more than 260 species of terrestrial vertebrates and over 625 species of plants. It is home to species of significant conservation concern, such as the globally endangered Eastern Bristlebird for which the park is one of its last and most important strongholds. The diversity of vegetation is also astounding: in some parts of the park, it is possible to walk from ankle-high sedgelands, through woodlands and forest and into subtropical rainforest in less than

150 metres. The book highlights how Booderee National Park is a functional natural ecosystem and, in turn, how management practices aim to improve environmental conditions and promote biodiversity conservation. Richly illustrated with colour images from award-winning photographer Esther Beaton, it will delight visitors to the park as well as anyone with an interest in natural history. **Men on Fire Restoring the Forces That Forge Noble Manhood** [Baker Books](#) Men are in crisis. From every direction, they are presented with a deformed masculinity. One that sees women as conquests rather than partners. One that values success at work over success at home. One that hinders true and open friendships with other men who hold them up and hold them accountable. One that presents them as either the bumbling, disconnected dad in sitcoms or the predator in movies and video games (and the news). Men were made for more than this. It's time to rekindle the fire living inside of them and awaken them to the value of valiant, righteous manhood. Through inspiring stories and hard-hitting biblical truths, Stephen Mansfield uncovers the seven fires that ought to burn in a man's soul--the fires of destiny, heritage, friendship, love, battle, legacy, and God. This raw guide to the restoration of a noble, honorable manhood will challenge men of every generation to live well, invest in others, and leave a powerful legacy. "Being a man isn't about the illusions mass media presents to us as the way we all should live our lives. Stephen Mansfield is going to make this clear . . . and he's going to call you to be the man you are meant to be."--from the foreword by Scott Hamilton, four-time national and world champion and Olympic gold medalist "A brilliant and absolutely essential book! Mansfield's prose cuts through the cultural darkness like a lighthouse shining across a storm-tossed sea."--Brad Thor, #1 New York Times bestselling author "My friend Dr. Stephen Mansfield's new book, *Men on Fire*, takes us back to the kind of timeless knowledge, wisdom, and truth that have served as a guide for countless generations of men throughout history. It will inspire you to awaken that age-old drive and restore that inner voice that says, 'I can do this. Thank God for another chance.'"--Darrell Green, member of the Pro Football Hall of Fame and the NFL 100 All-Time Team "There is a war on masculinity today, one that is leaving males with neither the knowledge nor the drive to become men. Seductive sirens of secular socialism lure them into settling to be either thugs or wimps. *Men on Fire* is both the roadmap and the antidote. For all of our sakes, place this book in the hands of the men you most care about."--Rabbi Daniel Lapin, author, TV host, and president of the American Alliance of Jews and Christians **The Macho Paradox Why Some Men Hurt Women and How All Men Can Help** [Sourcebooks, Inc.](#) "A candid look at the cultural factors that lend themselves to tolerance of abuse and violence against women."—Booklist Revised and updated to include current studies, politics, and discussions, *The Macho Paradox* is the first book to show how violence against women is a male issue as well as a female one — and how we can come together to stop it. Written by pioneering anti-violence educator Jackson Katz, *The Macho Paradox* incorporates the voices and experiences of women

and men who have confronted the problem from all angles, the discussions surrounding current events in politics and pop-culture, and where the violence is ignored or encouraged in our upbringing. Katz also offers cogent explanations for why so many men harass and hurt women, and he shows what can be done to stop the violence. By working together as allies, Katz shows how all genders can end the abuse and mistreatment of women. **Additional Praise for The Macho Paradox:** "If only men would read Katz's book, it could serve as a potent form of male consciousness-raising."—Publishers Weekly "These pages will empower both men and women to end the scourge of male violence and abuse. Katz knows how to cut to the core of the issues, demonstrating undeniably that stopping the degradation of women should be every man's priority."—Lundy Bancroft, author of *Why Does He Do That?: Inside the Minds of Angry and Controlling Men* **The Stickup Kids Race, Drugs, Violence, and the American Dream** [Univ of California Press](#) **Randol Contreras** came of age in the South Bronx during the 1980s, a time when the community was devastated by cuts in social services, a rise in arson and abandonment, and the rise of crack-cocaine. For this riveting book, he returns to the South Bronx with a sociological eye and provides an unprecedented insider's look at the workings of a group of Dominican drug robbers. Known on the streets as "Stickup Kids," these men raided and brutally tortured drug dealers storing large amounts of heroin, cocaine, marijuana, and cash. As a participant observer, Randol Contreras offers both a personal and theoretical account for the rise of the Stickup Kids and their violence. He mainly focuses on the lives of neighborhood friends, who went from being crack dealers to drug robbers once their lucrative crack market opportunities disappeared. The result is a stunning, vivid, on-the-ground ethnographic description of a drug robbery's violence, the drug market high life, the criminal life course, and the eventual pain and suffering experienced by the casualties of the Crack Era. Provocative and eye-opening, *The Stickup Kids* urges us to explore the ravages of the drug trade through weaving history, biography, social structure, and drug market forces. It offers a revelatory explanation for drug market violence by masterfully uncovering the hidden social forces that produce violent and self-destructive individuals. Part memoir, part penetrating analysis, this book is engaging, personal, deeply informed, and entirely absorbing. **Come Find Me Ain't I a Feminist?
