PRINCE2 FOUNDATION TRAINING MANUAL

Thank you for reading our PRINCE2 Foundation Training Manual. The main objective of this book is to provide an easy-to-read and easy-to-understand PRINCE2(R) Foundation training manual. The official PRINCE2 manual, "Managing Successful Projects with PRINCE2," is an excellent reference manual, but it is not a training manual and should not be used as one, as it is very difficult to comprehend and understand if you are new to project management. The official PRINCE2 manual also covers the complete Practitioner Syllabus, and it's impossible to know which parts are just focused on the PRINCE2 Foundation syllabus, so you have to read everything, which is not good if you are just studying for the foundation exam. Henceforth, this book is meant to be (and is) an easy introduction to PRINCE2 based on the Foundation syllabus, and it's quickly becoming the most read book for people wishing to learn about PRINCE2 and prepare for the foundation exam.

URBAN AFRICA AND VIOLENT CONFLICT

UNDERSTANDING CONFLICT DYNAMICS IN CENTRAL AND EASTERN AFRICA FROM AN URBAN PERSPECTIVE

Urban centres are at the heart of the dynamics of war and peace, of stability and violence: as 'safe havens' for those seeking protection, as concentrations of public administrative and military apparatus, and as symbolic bases of state sovereignty and public authority. Heavy fighting in South Sudan's capital city of Juba, post electoral protests and brutal killings in Bujumbura, Burundi, and violent urban uprisings in Congo's cities of Goma and Kinshasa, all demonstrate that cities represent critical arenas in African conflict and post-conflict dynamics. This comprehensive volume offers a profound analysis of the complex relationship between the dynamics of violent conflict and urbanisation in Central and Eastern Africa. The authors underline the need to look simultaneously at cities to understand ongoing conflict and violence, and at conflict-dynamics to understand current urbanisation processes in this part of the world. Building on empirical and analytical insights from cities in Uganda, Rwanda, Burundi, DR Congo, South Sudan and Kenya, this collection demonstrates how emerging urbanism in the larger Great-Lakes region and its Eastern neighbours presents a fascinating window to investigate the transformative power of protracted violent conflict. This book was originally published as a special issue of the Journal of Eastern African Studies. al insights from cities in Uganda, Rwanda, Burundi, DR Congo, South Sudan and Kenya, this collection demonstrates how emerging urbanism in the larger Great-Lakes region and its Eastern neighbours presents a fascinating window to investigate the transformative power of protracted violent conflict.
