THE 'MADE IN GERMANY' CHAMPION BRANDS

NATION BRANDING, INNOVATION AND WORLD EXPORT LEADERSHIP

Routledge Germany's economic miracle is a widely-known phenomenon, and the world-leading, innovative products and services associated with German companies are something that others seek to imitate. In *The 'Made in Germany' Champion Brands*, Ugesh A. Joseph provides an extensively researched, insightful look at over 200 of Germany's best brands to see what they stand for, what has made them what they are today, and what might be transferable. The way Germany is branded as a nation carries across into the branding of its companies and services, particularly the global superstar brands - truly world-class in size, performance and reputation. Just as important are the medium-sized and small enterprises, known as the 'Mittelstand'. These innovative and successful enterprises from a wide range of industries and product / service categories are amongst the World market leaders in their own niche and play a huge part in making Germany what it is today. The book also focuses on German industrial entrepreneurship and a selection of innovative and emergent stars. All these companies are supported and encouraged by a sophisticated infrastructure of facilitators, influencers and enhancers - the research, industry, trade and standards organizations, the fairs and exhibitions and all the social and cultural factors that influence, enhance and add positive value to the country's image. Professionals or academics interested in business; entrepreneurship; branding and marketing; product or service development; international trade and business development policy, will find fascinating insights in this book; while those with an interest in Germany from emerging industrial economies will learn something of the secrets of German success.

Tricia Mathes, Vice President, NPS Staffing

HOW TO NEGOTIATE A KILLER JOB OFFER

If you want to learn the job offer negotiation secrets that top executives know and use to power your own career and financial future forward, then this is the book for you. Robin Bond is an employment attorney who represents executives in negotiating employment and severance deals. She has seen what works in the real world - and what doesn't. Robin's new book, How to Negotiate a Killer Job Offer, is the timely response we've all been waiting for to the conversation around Lean In: Women, Work, and the Will to Lead, the book by Sheryl Sandberg, COO of Facebook. Based upon the thousands of clients who have learned how to negotiate a job offer using her proactive negotiation process, Attorney Bond has distilled her negotiating secrets into a short, nuts-and-bolts, how-to employment guide that helps employees level the playing field in job offer negotiation. Robin helps answer the questions about how you get the pay you deserve, how you own the power you have and how you leverage it to get what you want in salary negotiations. Bond's strategies for negotiating success can be successfully applied to any situation. For example, readers can and will apply her WIIFM Factors ("what's in it for me") in any kind of interpersonal or commercial interaction. Everything in the book is based upon what has in fact worked in the real world. Robin has created sample negotiation scripts and letters to hiring managers that you won't find elsewhere. She shows you how to build rapport when you negotiate and showcase your executive potential. She has special materials dedicated to the unique and often secretive world of long-term incentives. These are designed to help you learn how to analyze a job offer, make an apples-to-apples comparison between offers, get more money in a deal, and even tackle the tough issues of securing stock options, long-term incentives and severance pay promises in your job offers. How to Negotiate a Killer Job Offer helps you powerfully prepare for job offer negotiations, access the job search strategy secrets used by senior-level executives in the real world, take action to maximize your chances for making the final terms of the job offer the best ones for you, and successfully implement the right negotiation tactics that increase your chances of completing the mission: career success. (Book Foreword by Mark Cuban, media entrepreneur, owner of the Dallas Mavericks and Shark on ABC's "Shark Tank.")

INTRODUCTORY CIRCUIT ANALYSIS

Pearson College Division THE most widely acclaimed introduction to circuit analysis for more than three decades, this book guides readers to a solid foundation in the basics of ac/dc circuits, specific theorems, and currently used analysis software (e.g., PSpice (Windows) Version 8, Addendum-Or CAD PSpice (Windows); BASIC MathCAD TI86 Calculator). It features exceptionally clear explanations and descriptions, step-by-step examples, and practical applications. Current and Voltage. Resistance. Ohm's Law, Power, and Energy. Series Circuits. Parallel Circuits. Series-Parallel Networks. Methods of Analysis and Selected Topics (dc). Network Theorems. Capacitors. Magnetic Circuits. Inductors. Sinusoidal Alternating Waveforms. The Basic Elements and Phasors. Series and Parallel ac Circuits. Series-Parallel ac Networks. Methods of Analysis and Selected Topics (ac). Network Theorems (ac). Power (ac). Resonance. Decibels, Filters, and Bode Plots. Pulse Waveforms and the -R-C Response. Polyphase Systems. Nonsinusoidal Circuits. Transformers. System Analysis—An Introduction.

MISSING DATA IN LONGITUDINAL STUDIES

STRATEGIES FOR BAYESIAN MODELING AND SENSITIVITY ANALYSIS

CRC Press Drawing from the authors' own work and from the most recent developments in the field, Missing Data in Longitudinal Studies: Strategies for Bayesian Modeling and Sensitivity Analysis describes a comprehensive Bayesian approach for drawing inference from incomplete data in longitudinal studies. To illustrate these methods, the authors employ several data sets throughout that cover a range of study designs, variable types, and missing data issues. The book first reviews modern approaches to formulate and interpret regression models for longitudinal data. It then discusses key ideas in Bayesian inference, including specifying prior distributions, computing posterior distribution, and assessing model fit. The book carefully describes the assumptions needed to make inferences about a full-data distribution from incompletely observed data. For settings with ignorable dropout, it emphasizes the importance of covariance models for inference about the mean while for nonignorable dropout, the book studies a variety of models in detail. It concludes with three case studies that highlight important features of the Bayesian approach for handling nonignorable missingness. With suggestions for further reading at the end of most chapters as well as many applications to the health sciences, this resource offers a unified Bayesian approach to handle missing data in longitudinal studies.

A GREAT AND TERRIBLE BEAUTY

Simon and Schuster It's 1895, and after the death of her mother, 16-year-old Gemma Doyle is shipped off from the life she knows in India to Spence, a proper boarding school in England. Lonely, guilt-ridden, and prone to visions of the future that have an uncomfortable habit of coming true, Gemma's reception there is a chilly one. To make things worse, she's being followed by a mysterious young Indian man, a man sent to watch her. But why? What is her destiny? And what will her entanglement with Spence's most powerful girls - and their foray into the spiritual world - lead to?

LET IT GO

MY EXTRAORDINARY STORY - FROM REFUGEE TO ENTREPRENEUR TO PHILANTHROPIST

Penguin UK A moving memoir from a woman who made a fortune in a man's world and then gave it all away...soon to be turned into a film In 1962, Stephanie 'Steve' Shirley created a software company when the concept of software barely existed. Freelance Programmers employed women to work on complex projects such as Concorde's black box recorder from the comfort of their own home. Shirley empowered a generation of women in technology, giving them unheard of freedom to choose their own hours and manage their own workloads. The business thrived and Shirley gradually transferred ownership to her staff, creating 70 millionaires in the process. Let It Go explores Shirley's trail blazing career as an entrepreneur but it also charts her incredible personal story - her dramatic arrival in England as an unaccompanied Kindertransport refugee during World War Two and the tragic loss of her only child who suffered severely from Autism. Today, Dame Stephanie Shirley is one of Britain's leading philanthropists, devoting most of her time, energy and wealth to charities that are close to her heart. In Let It Go, Shirley tells her inspirational story and explains why giving her wealth away - letting it go - has brought her infinitely more happiness and fulfilment than acquiring it in the first place. Co-written with Richard Askwith, the former Executive Editor of The Independent and the award-winning author of seven books in his own name, including biographies of Emil Zátopek and Lata Brandisová. 'An extraordinary tale of creativity and resilience' - Guardian 'This engrossing story of an extraordinary life is filled with lessons in what it means to be human' - Financial Times

METAL TOXICOLOGY

APPROACHES AND METHODS

Elsevier Metal Toxicology addresses the effects of metals on human health, as well as their mechanisms of toxicity. Unlike most books on metal toxicity which are organized by individual metals, this book is arranged in an organ-by-organ basis. It deals with unifying mechanisms of metal toxicity within a given tissue, and with exposure of a tissue to more than one metal at a time. Unique aspect of organ-specific orientation Written by leading authorities in metal toxicology Chapters of special interest include Risk Assessment, Emerging Technologies, and Molecular Biological Techniques Serves as an excellent sourcebook of generalized information on metal toxicology, allowing for specific tissue-system referencing

NONCLINICAL SAFETY ASSESSMENT

A GUIDE TO INTERNATIONAL PHARMACEUTICAL REGULATIONS

John Wiley & Sons Bringing a new drug to market is a costly time-consuming process. Increased regional and international regulation over the last twenty years, while necessary, has only served to amplify these costs. In response to this escalation, developmental strategies have shifted towards a more global approach. In order to create the most cost-effective and safe processes, it is critical for those bringing drugs to market to understand both the globally accepted regulations and the local variations. Nonclinical Safety Assessment: A Guide to International Pharmaceutical Regulations provides a practical description of nonclinical drug development regulations and requirements in the major market regions. It includes: ICH - the International Conference on Harmonisation of Technical Requirements for Registration of Pharmaceuticals for Human Use National regulations, including US FDA, Canada, Mercosur and Brazil, South Africa, China, Japan, India and Australia Repeated dose toxicity studies Carcinogenicity; Genotoxicity; Developmental and reproductive toxicology; Immunotoxicology Biotechnology-derived pharmaceuticals Vaccine development Phototoxicity and photocarcinogenicity Degradants, impurities, excipients and metabolites Primarily intended for those professionals actively involved in the nonclinical and clinical development of a pharmaceutical product, including toxicologists, pharmacologists, clinicians and project managers, this book provides a roadmap for successful new drug approval and marketing.

MAKING SENSE OF WORLD HISTORY

Routledge Making Sense of World History is a comprehensive and accessible textbook that helps students understand the key themes of world history within a chronological framework stretching from ancient times to the present day. To lend coherence to its narrative, the book employs a set of organizing devices that connect times, places, and/or themes. This narrative is supported by: Flowcharts that show how phenomena within diverse broad themes interact in generating key processes and events in world history. A discussion of the common challenges faced by different types of agent, including rulers, merchants, farmers, and parents, and a comparison of how these challenges were addressed in different times and places. An exhaustive and balanced treatment of themes such as culture, politics, and economy, with an emphasis on interaction. Explicit attention to skill acquisition in organizing information, cultural sensitivity, comparison, visual literacy, integration, interrogating primary sources, and critical thinking. A focus on historical "episodes" that are carefully related to each other. Through the use of such devices, the book shows the cumulative effect of thematic interactions through time, communicates the many ways in which societies have influenced each other through history, and allows us to compare and contrast how they have reacted to similar challenges. They also allow the reader to transcend historical controversies and can be used to stimulate class discussions and guide student assignments. With a unified authorial voice and offering a narrative from the ancient to the present, this is the go-to textbook for World History courses and students. The Open Access version of this book, available at <https://www.taylorfrancis.com/books/9781003013518>, has been made available under a Creative Commons Attribution-Non Commercial-No Derivatives 4.0 license.

THE REVIVAL OF TRADITION IN INDONESIAN POLITICS

THE DEPLOYMENT OF ADAT FROM COLONIALISM TO INDIGENISM

Routledge The Indonesian term adat means 'custom' or 'tradition', and carries connotations of sedate order and harmony. Yet in recent years it has suddenly become associated with activism, protest and violence. This book investigates the revival of adat in Indonesian politics, identifying its origins, the historical factors that have conditioned it and the

reasons behind its recent blossoming. It considers whether the adat revival is a constructive contribution to Indonesia's new political pluralism or a divisive, dangerous and reactionary force, and examines the implications for the development of democracy, human rights, civility and political stability. The Revival of Tradition in Indonesian Politics provides detailed coverage of the growing significance of adat in Indonesian politics. It is an important resource for anyone seeking to understand the contemporary Indonesian political landscape.

HEART

AN AMERICAN MEDICAL ODYSSEY

Simon and Schuster Former Vice President Dick Cheney and his longtime cardiologist, Dr. Jonathan Reiner, share the story of Cheney's thirty-five-year battle with heart disease—providing insight into the incredible medical breakthroughs that have changed cardiac care over the last four decades. For as long as he has served at the highest levels of business and government, Vice President Dick Cheney has also been one of the world's most prominent heart patients. Now, for the first time ever, Cheney, together with his longtime cardiologist, Jonathan Reiner, MD, shares the very personal story of his courageous thirty-five-year battle with heart disease, from his first heart attack in 1978 to the heart transplant he received in 2012. In 1978, when Cheney suffered his first heart attack, he received essentially the same treatment President Eisenhower had had in 1955. Since then, cardiac medicine has been revolutionized, and Cheney has benefitted from nearly every medical breakthrough. At each juncture, when Cheney faced a new health challenge, the technology was one step ahead of his disease. Cheney's story is in many ways the story of the evolution of modern cardiac care. Heart is the riveting, singular memoir of both doctor and patient. Like no US politician has before him, Cheney opens up about his health struggles, sharing harrowing, never-before-told stories about the challenges he faced during a perilous time in our nation's history. Dr. Reiner provides his perspective on Cheney's case and also gives readers a fascinating glimpse into his own education as a doctor and the history of our understanding of the human heart. He masterfully chronicles the important discoveries, radical innovations, and cutting-edge science that have changed the face of medicine and saved countless lives. Powerfully braiding science with story and the personal with the political, Heart is a sweeping, inspiring, and ultimately optimistic book that will give hope to the millions of Americans affected by heart disease.

FOOTBALL MANAGER STOLE MY LIFE

20 YEARS OF BEAUTIFUL OBSESSION

BackPage Press Football Manager stole my life reveals the cult behind a computer game that, since its debut in 1992, has sold 20m copies and become a part of football culture.

COLLECTIVE BARGAINING IN EDUCATION

NEGOTIATING CHANGE IN TODAY'S SCHOOLS

Harvard Education Press This timely and comprehensive volume will spur and strengthen public debate over the role of teachers unions in education reform for years to come. Collective bargaining shapes the way public schools are organized, financed, staffed, and operated. Understanding collective bargaining in education and its impact on the day-to-day life of schools is critical to designing and implementing reforms that will successfully raise student achievement. But when it comes to public discussion of school reform, teachers unions are the proverbial elephant in the room. Despite the tremendous influence of teachers unions, there has not been a significant research-based book examining the role of collective bargaining in education in more than two decades. As a result, there is little basis for a constructive, empirically grounded dialogue about the role of teachers unions in education today.

SHUT UP AND SMILE

SUPERMODELS, THE DARK SIDE

OGO Books Presents a portrait of the modeling industry tracing the rise of well-known supermodels, and discusses how many models are misled into a world of drugs, prostitution, violence, and murder.

SUPPLEMENTUM PLANTARUM SUCCULENTARUM

SOCIAL WORK IN EUROPE

RACE AND ETHNIC RELATIONS

Routledge It is an acknowledged if not accepted fact that all European societies are being fundamentally transformed, and indeed perceptively unsettled, by increased migrations across nations and by the asserted presence of established minorities within their borders. The scale and speed at which these transformations have taken place have brought in their wake considerable social impacts and no small measure of fear and anxiety. Encounters with such diversity are part and parcel of the social work task, and learning how to negotiate them should be a de facto aspect of the training and continuous professional development of social workers and other social professions. However, the moral and political dimensions of the role, scope and nature of the social work task in responding appropriately to these changed and changing realities are rather more contested. This volume addresses many dimensions of the response to issues of race and ethnicity in social work practice in Europe. It extends the debates on inter-cultural and race equality practice in social work through a stimulating and innovative collection of contributions. This book was originally published as a special issue of the European Journal of Social Work.

A CRIMINAL AND AN IRISHMAN

THE INSIDE STORY OF THE BOSTON MOB-IRA CONNECTION

Steerforth Former rival and associate of James "Whitey" Bulger tells all. After returning from Vietnam where he served as a combat Marine, Pat Nee fought a gang war against Whitey Bulger. When members of Nee's Mullen gang killed the leader of Bulger's Killeen faction, Nee arranged for the dispute to be mediated by Howie Winter and Patriarca crime family captain Joseph Russo. The two gangs joined forces, with Winter as overall boss. When Winter was convicted of fixing horse races in 1979, Bulger became leader, and Nee responded by concentrating his energy on raising money and smuggling guns to the Provisional IRA. Disgusted by Bulger's brutality, and increasingly focused on the Irish cause, Nee distanced himself from his former ally. Ultimately it was revealed that, for years, Bulger had served as an FBI informant. A Criminal and an Irishman is the story of Pat Nee's life as an Irish immigrant and Southie son, a Marine, a convicted IRA gun smuggler, and a former violent rival and then associate of James "Whitey" Bulger. His narrative transports the reader into the criminal underworld, inside planning and preparation for an armored car heist, inside gang wars and revenge killings. Nee details his evolution from tough street kid to armed robber to dangerous potential killer, and discloses for the first time how he used his underworld connections and know-how as a secret, Boston-based operative for the Irish Republican Army. For years Pat smuggled weapons and money from the United States to Ireland - in the bottoms of coffins, behind false panels of vans - leading up to a

transatlantic shipment of seven and a half tons of munitions aboard the fishing trawler Valhalla. No other Southie underworld figure can match Pat's reputation for resolve and authenticity. From the Trade Paperback edition.

BEGINNERS GUIDE TO AERIAL SILK

Jill Franklin's Beginners Guide to Aerial Silk provides complete easy to follow instruction for the beginning aerialist. In clear concise directions along with beautiful photos, Jill takes you on a lively tour from aerial silk fundamentals to learning how to climb, wrap, invert and spiral your body into and out of an array of positions. The book also includes an at home guide of strength building exercises that will help you excel more rapidly. Safety, clean technique and proper form are all emphasized throughout this guide. Beginners Guide to Aerial Silk is not intended as a sole learning avenue but rather a tool to assist you when taking aerial with a qualified instructor. This guide will help you gain the strength of a cirque performer, the lovely lines of a ballet dancer and the ease of movement like a Pilates pro. For information about Aerial Physique visit www.aerialphysique.com.

THE GEORGIAN NATIONAL MUSEUM

DIRECTOR'S CHOICE

* Professor David Lordkipanidze, Director of the Georgian National Museum (GNM) in Tbilisi, illuminates his personal highlights from the collection with his considerable expertise * The GNM tells the story of Georgia's history from the Bronze Age to the early 20th century * The first Georgian addition to Scala's successful Director's Choice series Established in 2004, the Georgian National Museum (GNM) in Tbilisi encompasses 20 museums and cultural institutions. The main site tells the story of Georgia's history from the Bronze Age to the early 20th century. It's the story of 'The Land of the Golden Fleece' - the ancient Kingdom of Colchis, whose ingenious gold, silver and precious stonework can be seen in the Treasury. The Greek, Ottoman and Iranian Influence visible in many of the treasures is testament to Georgia's role as a crossroads through the centuries. The GNM also records Georgia's modern history, tracing the rise of a united Georgian state, how it resisted Soviet Occupation and survived the Red Terror. However, perhaps most significantly of all, here visitors can come face-to-face with the earliest homonid known to have left Africa - a 1.8 million-year-old discovery made by the GNM's Director, Professor David Lordkipanidze, that has rewritten our understanding of early European humanity. In this beautifully illustrated book, Professor Lordkipanidze illuminates his personal highlights from the collection with his considerable expertise.

CRACKDOWN

Penguin UK The dreams of an idle life in the paradise of the Bahamas are shattered when the discovery of a derelict, bullet-ridden yacht brings in the local police and the drug-runners. Nick Breakspear, desperate to escape his famous parentage, invalided out of the Marines, was heading only for peace, but the quixotic impulse makes him take up a challenge - and a lucrative offer - and he allows himself to be hired, for a private war, by a smooth-talking US presidential candidate. And it is the skills drawn from his deposed father's world that will enable him to survive.

BLACKSMITH'S SONG

Peachtree The son of an enslaved blacksmith learns that his father is using the rhythm of his hammering to communicate with travelers on the Underground Railroad. When Pa falls ill, it's up to his son to help others along the journey-and also lead his family's escape. Pa works hard as a blacksmith. But he's got another important job to do as well: using his anvil to pound out the traveling rhythm-a message to travelers on the Underground Railroad. His son wants to help, but Pa keeps putting him off. Then one day, Pa falls ill, and the boy has to take over.

PROGRAM AND ABSTRACTS BOOK

THE POCKET BAKERY

Beginning as an idea to get her children to earn their pocket money and gain a lifelong skill, Rose Prince, along with daughter Lara and son Jack, began opening up their Battersea home every Saturday morning to sell freshly made bread.
