CHINATOWN FAMILY

Aims to bring humor and wisdom to issues of culture, race, and religion. This work tells the story of an immigrant, working-class Chinese American family that settled in New York City during the 1930s and 1940s. It paints a portrait of the wonder and the woe of settling into a new land.

LIN YUTANG AND CHINA'S SEARCH FOR MODERN REBIRTH

Springer This book provides a comprehensive examination of the socio-cultural and political context of modern China in terms of its interaction with America and the West, focusing on the influence of the well-known Chinese writer and intellectual Lin Yutang (1895-1976). Offering a unique study of the life and works of Lin Yutang, it highlights his intellectual legacy in modern China and considers how his cross-cultural life and ideas embodied the modern Chinese cultural experience. It notably focuses on Lin's reputation as an outspoken critic of the infringement of human rights during the rise of the Communist regime in China, but also on his rediscovery of Chinese cultural resources. At a time when China's cultural contributions are increasingly relevant worldwide, this book contributes to ongoing critical reflections of Chinese modernity, particularly in terms of its intellectual legacies, but also to a renewed understanding of the cross-cultural interactions between China and America and a re-opening the dialogue and search for a new cultural understanding.

THE RED PEONY

Romantic story of a rebellious young Chinese widow who, at the turn of the century, refuses to conform to convention in her search for a new life and love.

THE IMPORTANCE OF LIVING

A wry, witty antidote to the dizzying pace of the modern world. Lin Yutang's prescription is the classic Chinese philosophy of life: revere inaction as much as action, invoke humor to maintain a healthy attitude, and never forget that there will always be plenty of fools around who are willing--indeed, eager--to be busy, to make themselves useful,

and to exercise power while you bask in the simple joy of existence. At a time when we're overwhelmed with wake-up calls, here is a refreshing, playful reminder to savor life's simple pleasures.

MAPPING MODERN BEIJING

SPACE, EMOTION, LITERARY TOPOGRAPHY

Oxford University Press Mapping Modern Beijing investigates the five methods of representing Beijing—a warped hometown, a city of snapshots and manners, an aesthetic city, an imperial capital in comparative and cross-cultural perspective, and a displaced city on the Sinophone and diasporic postmemory—by authors travelling across mainland China, Taiwan, Hong Kong, and overseas Sinophone and non-Chinese communities. The metamorphosis of Beijing's everyday spaces and the structural transformation of private and public emotions unfold Manchu writer Lao She's Beijing complex about a warped native city. Zhang Henshui's popular snapshots of fleeting shocks and everlasting sorrows illustrate his affective mapping of urban transition and human manners in Republican Beijing. Female poet and architect Lin Huiyin captures an aesthetic and picturesque city vis-à-vis the political and ideological urban planning. The imagined imperial capital constructed in bilingual, transcultural, and comparative works by Lin Yutang, Princess Der Ling, and Victor Segalen highlights the pleasures and pitfalls of collecting local knowledge and presenting Orientalist and Cosmopolitan visions. In the shadow of World Wars and Cold War, a multilayered displaced Beijing appears in the Sinophone postmemory by diasporic Beijing native Liang Shiqiu, Taiwan sojourners Zhong Lihe and Lin Haiyin, and émigré martial arts novelist Jin Yong in Hong Kong. Weijie Song situates Beijing in a larger context of modern Chinese-language urban imaginations, and charts the emotional topography of the city against the backdrop of the downfall of the Manchu Empire, the rise of modern nation-state, the 1949 great divide, and the formation of Cold War and globalizing world. Drawing from literary canons to exotic narratives, from modernist poetry to chivalric fantasy, from popular culture to urban planning, Song explores the complex nexus of urban spaces, archives of emotions, and literary topography of Beijing in its long journey from imperial capital to Republican city and to socialist metropolis.

THE FLIGHT OF THE INNOCENTS

MY COUNTRY AND MY PEOPLE

Important Books In this classic book Yutang Ling does a fantastic job of describing Chinese people, customs and culture in an understandable way for the Western reader. This book was the first of its kind, Ling being a rarity as he was fluent in both English and Chinese, having been born in China but growing up in America. This extremely popular book will prove to be a fascinating read, and is highly recommended on the bookshelf of anyone with an interest in different cultures and societies.

ZHUANGZI AND MODERN CHINESE LITERATURE

Oxford University Press, USA This is a powerful account of how the ruin and resurrection of Zhuangzi in modern China's literary history correspond to the rise and fall of modern Chinese individuality. Liu Jianmei highlights two central philosophical themes of Zhuangzi: the absolute spiritual freedom as presented in the chapter of "Free and Easy Wandering" and the rejection of absolute and fixed views on right and wrong as seen in the chapter of "On the Equality of Things." She argues the twentieth century reinterpretation and appropriation of these two important philosophical themes best testify to the dilemma and inner-struggle of modern Chinese intellectuals. In the cultural environment in which Chinese writers and scholars were working, the pursuit of individual freedom as well as the more tolerant and multifaceted cultural mentality has constantly been downplayed, suppressed, or criticized. By addressing a large number of modern Chinese writers, including Guo Moruo, Hu Shi, Lu Xun, Zhou Zuoren, Lin Yutang, Fei Ming, Liu Xiaofeng, Wang Zengqi, Han Shaogong, Ah Cheng, Yan Lianke, and Gao Xingjian, the author provides an insightful and engaging study of how they have embraced, rejected, and returned to ancient thought and how the spirit of Zhuangzi has illuminated their writing and thinking through the turbulent eras of modern China. This book not only explores modern Chinese writers' complicated relationship with "tradition," but also sheds light on if the freedom of independence, non-participation, and roaming and the more encompassing cultural space inspired by Zhuangzi's spirit were allowed to exist in the modern Chinese literary context. Involving the interplay between philosophy, literature, and history, Liu delineates a neglected literary tradition influenced by Zhuangzi and Daoism and traces its struggles to survive in modern and contemporary Chinese culture.

SOCRATES IN SICHUAN

CHINESE STUDENTS SEARCH FOR TRUTH, JUSTICE, AND THE (CHINESE) WAY

Potomac Books, Inc. When Peter J. Vernezze took a leave of absence from his position as a philosophy professor to serve as a Peace Corps volunteer in China, he supplemented his main task—teaching English—with leading a weekly philosophical discussion group with Chinese undergraduate and graduate students at Sichuan Normal University in Chengdu. In each session the students debated topics as diverse as the status of truth, the meaning of life, the reality of fate, the definition of sanity, the necessity of religion, and the value of romantic love. Each of the twenty-five chapters focuses on the topic of one evening's discussion, which was always in the form of a question: How are ancient conceptions of virtue holding up in a society overrun by capitalism? Are traditionally conservative sexual values going the way of the rickshaw? Can an atheistic country even have a sense of morality? This unprecedented portrait of the

Chinese mind allows the up-and-coming generation—known as the ba ling hou, or “post-1980s generation”—to express its unique perspective on China—and America. In addition, the book provides the reader with a crash course in Chinese culture, both ancient and modern, as students discuss everything from Confucius to the Edison Chen scandal (a Chinese pop star whose sexually explicit pictures found their way onto the Internet), from classical Chinese poetry to the Super Boy and Super Girl competitions (Chinese versions of American Idol). Throughout, the author provides the intellectual and historical context necessary to appreciate and understand today's China.

CULTURAL RECONSTRUCTION

LAP Lambert Academic Publishing In translation between Chinese and English, there exists a special phenomenon. When English literary works about "Chinese stories" are translated back into Chinese again, it has something to do with cultural reconstruction, or a sort of back-translation. "Moment in Peking," one of Dr. Lin Yutang's representatives, is a typical example of such writings. This book is intended to probe the cultural aspects of "Moment in Peking" and the reconstruction issue in its two Chinese versions. Based on Peter Newmark's cultural categories model, this book makes a detailed comparative study of the two translators' different versions in terms of the same categories of cultural elements from the perspective of the translators' subjectivity. It hopes to cast light on improving the back-translation of cultural elements in this kind of special literary works, and builds a more systematic model of assessing the translation of cultural elements of literary works in general.

THE WISDOM OF LAOTSE

DEEPLY READ THE TAO TE CHING AND TAO, TAOISM BOOKS

Laotse's real name is Lao Tan, who is great thinker and sage. In China, "Lao Tse" called "Tao Te Ching" too, as it is Laotse's only book and include his main thought. Lao Tse (Tao Te Ching) contain two parts, one part (chapter 1 to chapter 37) is Tao Ching, another part (chapter 38 to chapter 81) is Te Ching. Laotse's greatness is that his thought never constrained people's minds, and all people can learn new ideas from it and discover the essence of all things. The essence is Nature or Truth (Tao). Laotse said: When the highest type of men hear the Tao (truth), They try hard to live in accordance with it, When the mediocre hear the Tao, They seem to be aware and yet unaware of it. When the lowest type hear of Tao, They break into loud laughter, If it were not laughed at, it would not be Tao. I am quite sure that the reaction of the majority of readers on first looking into Laotse's book will be to laugh. I say this without any disrespect, for I did that myself. The highest type of scholars end by laughing with Laotse at the preoccupations of the philosophers of the day. After that, Laotse becomes a lifelon

WEALTH AND POWER

CHINA'S LONG MARCH TO THE TWENTY-FIRST CENTURY

Hachette UK By now everyone knows the basic facts of China's rise to pre-eminence over the past three decades. But how did this erstwhile sleeping giant finally manage to arrive at its current phase of dynamic growth? How did a century-long succession of failures to change somehow culminate in the extraordinary dynamism of China today? By examining the lives of eleven influential officials, writers, activists and leaders whose contributions helped create modern China, Wealth and Power addresses these questions. This fascinating survey moves from the lead-up to the first Opium War through to contemporary opposition to single-party rule. Along the way, we meet titans of Chinese history, intellectuals and political figures. By unwrapping the intellectual antecedents of today's resurgent China, Orville Schell and John Delury supply much-needed insight into the country's tortured progression from nineteenth-century decline to twenty-first-century boom. By looking backward into the past to understand forces at work for hundreds of years, they help us understand China today and the future that this singular country is helping shape for all of us.

LIFESTYLE AND ENTERTAINMENT IN YANGZHOU

NIAS Press The Chinese city of Yangzhou has been of great cultural significance for many centuries, despite its destruction by invaders in the 17th and 19th centuries. It was a site of virtual pilgrimage for aspiring members of the Chinese educated class during the Ming and Qing periods. Moreover, because it was one of the foremost commercial centres during the late imperial period, it was the place where the merchant and scholarly classes merged to set new standards of taste and to create a cultural milieu quite unlike that of other cities, even other major centres in the region. The luxurious elegance of its gardens and the eminence of its artistic traditions meant that Yangzhou set aesthetic standards for the entire realm for much of the late imperial age. Over the years, particular regional forms of art and entertainment arose here, too, some surviving into the present time.

CHINA AND THE WORLD

Oxford University Press, USA As the world evolves in increasingly unpredictable directions, one of the key determinants of the future global order will surely be the impact of China. No country and no society can escape China's reach—indeed many seek its embrace. China brings benefits to many—but it's also a problematic interlocutor for others. In *China and the World*, one of the world's leading China specialists David Shambaugh has assembled fifteen leading international authorities on China to create the most comprehensive and up-to-date scholarly assessment of China's foreign relations and roles in international affairs. The volume covers China's contemporary position in all regions of the world, with all major powers, and across multiple arenas of China's international interactions. It also explores the sources of China's grand strategy, how the past shapes the present, and the impact of domestic factors that shape China's external behavior. *China and the World* is a uniquely focused and well-organized volume that provides many insights into China's calculations and behavior, and identifies a number of challenges China will face in the future.

THE MAN WHO ENDED HISTORY

A DOCUMENTARY

WSFA Press *The Man Who Ended History: A Documentary* is a science fictional tale that examines a branch of science rarely encountered in genre fiction: historiography. How and why should our understanding of history change if eyewitness accounts by observers sent from the future are prioritized over contemporaneous documents? A finalist for the Hugo, Nebula, and Sturgeon awards, this story also won the Ignotus Award for Best Foreign Story in Spain. Ken Liu has called it the story he's most proud of having written.

THE CHINESE PEOPLE AT WAR

HUMAN SUFFERING AND SOCIAL TRANSFORMATION, 1937-1945

Cambridge University Press Diana Lary, one of the foremost historians of the period, tells the tragic history of China's War of Resistance and its consequences from the perspective of those who went through it. Using archival evidence only recently made available, interviews with survivors, and extracts from literature, she creates a vivid and highly disturbing picture of the havoc created by the war, the destruction of towns and villages, the displacement of peoples, and the accompanying economic and social disintegration. As the author suggests in a new interpretation of modern Chinese history, far from stemming the spread of communism from the USSR, which was the Japanese pretext for invasion, the horrors of the war, and the damage it created, nurtured the Chinese Communist Party and helped it to win power in 1949.

TRAVEL, TRANSLATION AND TRANSMEDIA AESTHETICS

FRANCO-CHINESE LITERATURE AND VISUAL ARTS IN A GLOBAL AGE

Springer Nature This book examines the works of four contemporary first-generation Chinese migrant writer-artists in France: François CHENG, GAO Xingjian, DAI Sijie, and SHAN Sa. They were all born in China, moved to France in their adulthood to pursue their literary and artistic ambitions, and have enjoyed the highest French and Western institutional recognitions, from the Grand Prix de la Francophonie to the Nobel Prize in Literature. They have established themselves not only as writers, but also as translators, calligraphers, painters, playwrights, and filmmakers mainly in their host country. French has become their dominant—but not only—language of literary creation (except for Gao); yet, linguistic idioms, poetic imagery, and classical thought from Chinese cultural heritage permeate their French texts and visual artworks, reflecting a strong translingual and transmedial sensibility. The book provides not only distinctive literary and artistic examples beyond existing studies of intercultural encounter, French postcolonial, and Chinese diasporic enquiries; more importantly, it formulates a theoretical model that captures the creative dynamics between the French/francophone and Chinese/sinophone spaces of articulation, thereby contributing to contemporary debates about literary and artistic production, interpretation, and circulation in the global development of comparative/world literature, as well as intermediality studies.

CONFUCIUS' COURTYARD

ARCHITECTURE, PHILOSOPHY AND THE GOOD LIFE IN CHINA

Bloomsbury Publishing For more than three thousand years, Chinese life - from the city and the imperial palace, to the temple, the market and the family home - was configured around the courtyard. So too were the accomplishments of China's artistic, philosophical and institutional classes. Confucius' Courtyard tells the story of how the courtyard - that most singular and persistent architectural form - holds the key to understanding, even today, much of Chinese society and culture. Part architectural history, and part introduction to the cultural and philosophical history of China, the book explores the Chinese view of the world, and reveals the extent to which this is inextricably intertwined with the ancient concept of the courtyard, a place and a way of life which, it appears, has been almost entirely overlooked in China since the middle of the 20th century, and in the West for centuries. Along the way, it provides an accessible introduction to the Confucian idea of zhongyong ('the Middle Way'), the Chinese moral universe and the virtuous good life in the absence of an awesome God, and shows how these can only be fully understood through the humble courtyard - a space which is grounded in the earth, yet open to the heavens. Erudite, elegant and illustrated throughout by the author's own architectural drawings and sketches, Confucius' Courtyard weaves together architecture, philosophy and cultural history to explore what lies at the very heart of Chinese civilization.

THE MAKING AND SELLING OF POST-MAO BEIJING

Routledge Describes the changing life of the city and its inhabitants during the final decades of the twentieth century and examines the complex forces at play in the search for modernity. The author presents us with four case studies of how the city is marketing and selling itself (including its refurbishment for the 2008 Olympic bid) and concludes that Beijing's urban image construction may provide an avenue for opposition groups to challenge the hegemony of those

in power.

ENCYCLOPEDIA OF CHINESE HISTORY

Taylor & Francis China has become accessible to the west in the last twenty years in a way that was not possible in the previous thirty. The number of westerners travelling to China to study, for business or for tourism has increased dramatically and there has been a corresponding increase in interest in Chinese culture, society and economy and increasing coverage of contemporary China in the media. Our understanding of China's history has also been evolving. The study of history in the People's Republic of China during the Mao Zedong period was strictly regulated and primary sources were rarely available to westerners or even to most Chinese historians. Now that the Chinese archives are open to researchers, there is a growing body of academic expertise on history in China that is open to western analysis and historical methods. This has in many ways changed the way that Chinese history, particularly the modern period, is viewed. The Encyclopedia of Chinese History covers the entire span of Chinese history from the period known primarily through archaeology to the present day. Treating Chinese history in the broadest sense, the Encyclopedia includes coverage of the frontier regions of Manchuria, Mongolia, Xinjiang and Tibet that have played such an important role in the history of China Proper and will also include material on Taiwan, and on the Chinese diaspora. In A-Z format with entries written by experts in the field of Chinese Studies, the Encyclopedia will be an invaluable resource for students of Chinese history, politics and culture.
