THE SCHOOL LEADERSHIP SURVIVAL GUIDE

WHAT TO DO WHEN THINGS GO WRONG, HOW TO LEARN FROM MISTAKES, AND WHY YOU SHOULD PREPARE FOR THE WORST

IAP The School Leadership Survival Guide: What to Do When Things Go Wrong, How to Learn from Mistakes, and Why You Should Prepare for the Worst is intended as an uncommon guide for school leaders and a resource they can turn to when confronted with issues they might not normally face in typical practice. In this sense, the book is meant as a "go to" resource for principals, those who train and teach them, and scholars. Although authors recognize the complexity of issues raised in the book, each chapter has a "How to" "What to do" or "Why You Should" ethos in order to give the book a unifying structure and help provide a practical translation of research and theory into practice. Some of the issues addressed include: How to elevate student voice; How to navigate religious conflict in the school and community; How to improve support for LGBTIQ students; Why You Should develop a natural disaster plan; How to work against racism in the school and community; How to practice inclusion in the school; How to make a vision and mission come to life; How to manage relationships with difficult people; What to do when there is racial tension in the community; How to learn the history of your school and community—and why that matters; How to guide and support a leadership team, and; What to do in a school with low trust.

GUIDED REFLECTION

ADVANCING PRACTICE

John Wiley & Sons Reflection is widely recognised as an invaluable tool in health care, providing fresh insights which enable practitioners to develop their own practice and improve the quality of their care. This book introduces the practitioner to the concept of 'Guided reflection', an innovative research process in which the practitioner is assisted by a mentor (or 'guide') in a process of self-enquiry, development, and learning through reflection, in order to become fully effective. Guided reflection is grounded in individual practice, and can provide deeply meaningful insights into self-development and professional care. The process results in a reflexive narrative, which highlights key issues for enhancing health care practice and professional care. This book uses a collection of such narratives from everyday clinical practice in nursing, health visiting and midwifery to demonstrate the theory and practicalities of guided reflection and narrative construction. These narratives portray the values inherent in caring, highlight key issues in clinical practice, reveal the factors that constrain the quest to realise practice, and examine the ways practitioners work towards overcoming these constraints.
