Style Guide

Hachette UK **This expanded twelfth edition of the bestselling guide to style is based on the Economist's own updated house style manual, and is an invaluable companion for everyone who wants to communicate with the clarity, style and precision for which the Economist is renowned. As the introduction says, 'clarity of writing usually follows clarity of thought.' The Economist Style Guide gives general advice on writing, points out common errors and clichés, offers guidance on consistent use of punctuation, abbreviations and capital letters, and contains an exhaustive range of reference material - covering everything from accountancy ratios and stock market indices to laws of nature and science. Some of the numerous useful rules and common mistakes pointed out in the guide include: *Which informs, that defines. This is the house that Jack built. But: This house, which Jack built, is now**

falling down. Discreet means circumspect or prudent; discrete means separate or distinct. Remember that "Questions are never indiscreet. Answers sometimes are" (Oscar Wilde). Flaunt means display, flout means disdain. If you flout this distinction you will flaunt your ignorance Forgo means do without; forego means go before. Fortuitous means accidental, not fortunate or well-timed. Times: Take care. Three times more than X is four times as much as X. Full stops: Use plenty. They keep sentences short. This helps the reader.

Canterbury tales, by Joseph Payne

Meta-Regulation in Practice

Beyond Normative Views of Morality and Rationality

Routledge Meta-regulation presents itself as a progressive policy approach that can manage complexity and conflicting objectives better than traditional command and control regulation. It does this by 'harnessing' markets and enlisting a broad range of stakeholders to reach a more inclusive view of the public interest that a self-regulating business can then respond to. Based on a seventeen year study of the Australian energy industry, and via the lens of Niklas Luhmann's systems theory, Meta-Regulation in Practice argues that normative meta-regulatory theory relies on questionable assumptions of stakeholder morality and rationality. Meta-regulation in practice appears to be most challenged in a complex and contested environment; the very environment it is supposed to serve best. Contending that scholarship must prioritise an understanding of communicative possibilities in practice, this book will be of interest to undergraduate and postgraduate students, as well as postdoctoral researchers interested in subjects such as business regulation, systems theory and corporate social responsibility. Please visit meta-regulation.com for more insightful information on meta-regulation and Meta-Regulation in Practice.

The History of Women's Football

Pen and Sword History **A complete history of women's football, from its Victorian games beginning in 1881, to the plans for England to host the Euro Finals in England 2022, this book demonstrates how women's football began as a professional sport, and has only recently returned to these professional roots in the UK. This is because there was a fifty-year Football Association 'ban' on women playing on pitches affiliated to the governing body in England. The other British associations followed suit. Why was women's football banned in 1921? Why did it take until 1969 for a Women's Football Association to form? Why did it take until 1995 for England to qualify for a Women's World Cup? Answers to these key questions are supplemented across the chapters by personal accounts of the players who defied the ban, at home and abroad, along with the personal costs, and rewards, of being footballing pioneers.**
