Understanding DC Circuits

Newnes Understanding DC Circuits covers the first half of a basic electronic circuits theory course, integrating theory and laboratory practice into a single text. Several key features in each unit make this an excellent teaching tool: objectives, key terms, self-tests, lab experiments, and a unit exam. Understanding DC Circuits is designed with the electronics beginner and student in mind. The authors use a practical approach, exposing the reader to the systems that are built with DC circuits, making it easy for beginners to master even complex concepts in electronics while gradually building their knowledge base of both theory and applications. Each chapter includes easy-to-read text accompanied by clear and concise graphics fully explaining each concept before moving onto the next. The authors have provided section quizzes and chapter tests so the readers can monitor their progress and review any sections before moving onto the next chapter. Each chapter also includes several electronics experiments, allowing the reader to build small circuits and low-cost projects for the added bonus of hands-on experience in DC electronics. Understanding DC Circuits fully covers dozens of topics including energy and matter; static electricity; electrical current; conductors; insulators; voltage; resistance; schematic diagrams and symbols; wiring diagrams; block diagrams; batteries; tools and equipment; test and measurement; series circuits; parallel circuits; magnetism; electromagnetism; inductance; capacitance; soldering techniques; circuit troubleshooting; basic electrical safety; plus much more. Rusch to Glory

Adventure, Risk & Triumph on the Path Less Traveled

VeloPress Rebecca Rusch is one of the great endurance athletes of our time. Known today as the Queen of Pain for her perseverance as a relentlessly fast runner, paddler, and mountain bike racer, Rusch was a normal kid from Chicago who abandoned a predictable life for one of adventure. In her new book *Rusch to Glory: Adventure, Risk & Triumph on the Path Less Traveled*, Rusch weaves her fascinating life's story among the exotic locales and extreme conditions that forged an extraordinary athlete from ordinary roots. Rusch has run the gauntlet of endurance sports over her career as a professional athlete-- climbing, adventure racing, whitewater rafting, cross-country skiing, and mountain biking--racking up world championships along the way. But while she might seem like just another superhuman playing out a fistful of aces, her empowering story proves that anyone can rise above self-doubt and find their true potential. First turning heads with her rock climbing and paddling skills, Rusch soon found herself spearheading adventure racing teams like Mark Burnett's Eco-Challenge series. As she fought her way through the jungles of Borneo, raced camels across Morocco, threaded the rugged Tian Shan mountains, and river-boarded the Grand Canyon in the dead of winter, she was forced to stare down her own demons. Through it all, Rusch continually redefined her limits, pushing deep into the pain cave and emerging ready for the next great challenge. At age 38, Rusch faced a tough decision: retire or reinvent herself yet again. Determined to go for broke, she shifted her focus to endurance mountain bike racing and rode straight into the record books at a moment when most athletes walk away. *Rusch to Glory* is more than an epic story of adventure; it is a testament to the rewards of hard work, determination, and resilience on the long road to personal and professional triumph.

How to See a Work of Art in Total Darkness

MIT Press *Going beyond the 'blackness' of black art to examine the integrative and interdisciplinary practices of Kara Walker, Fred Wilson, Isaac Julien, Glenn Ligon, and William Pope.L—five contemporary black artists in whose work race plays anything but a defining role. Work by black artists today is almost uniformly understood in terms of its "blackness," with audiences often expecting or requiring it to "represent" the race. In How to See a Work of Art in Total Darkness, Darby English shows how severely such expectations limit the scope of our knowledge about this work and how different it looks when approached on its own terms. Refusing to grant racial blackness—his metaphorical "total darkness"—primacy over his subjects' other concerns and contexts, he brings to light problems and possibilities that arise when questions of artistic priority and freedom come into contact, or even conflict, with those of cultural obligation. English examines the integrative and interdisciplinary strategies of five contemporary artists—Kara Walker, Fred Wilson, Isaac Julien, Glenn Ligon, and William Pope.L—stressing the ways in which this work at once reflects and alters our view of its informing context: the advent of postmodernity in late twentieth-century American art and culture. The necessity for "black art" comes both from antiblack racism and resistances to it, from both segregation and efforts to imagine an autonomous domain of black culture. Yet to judge by the work of many contemporary practitioners, English writes, black art is increasingly less*

able—and black artists less willing—to maintain its standing as a realm apart. Through close examinations of Walker's controversial silhouettes' insubordinate reply to pictorial tradition, Wilson's and Julien's distinct approaches to institutional critique, Ligon's text paintings' struggle with modernisms, and Pope.L's vexing performance interventions, English grounds his contention that to understand this work is to displace race from its central location in our interpretation and to grant right of way to the work's historical, cultural, and aesthetic specificity.

One Perfect Grave: A Gripping and Heart-pounding Crime Thriller

Nikki Hunt She didn't see the patch of black ice until it was too late. The car started to spin, and as it veered off into the deep ditch and the mounds of snow beside the road, she saw him. The little boy frozen in the ice. When the remains of two bodies are found in an open grave along a desolate highway in Stillwater, Minnesota, Special Agent Nikki Hunt knows exactly who they are. The bright blue jacket lying on the frozen earth belongs to Kellan Rhodes, the missing boy she's desperately been trying to find for the last two days. The other body is his mother Dana, who had been Nikki's lead suspect. Although the wounds on Dana's body suggest she murdered her son and took her own life, Nikki finds evidence that suggests she was a victim too. Dana was desperately trying to regain custody of Kellan, and Nikki finds boot prints at the scene that belong to someone else. When another child is reported missing, local journalist Caitlin Newport claims the cases are linked: Zach Reeves was taken away from his own mother in a custody battle, just like Kellan was. Caitlin once helped Nikki find out the truth about her own parents' murders, but her desire for a story nearly cost Nikki her life. Now, Nikki must decide if she can trust Caitlin again, before time runs out to find the killer and bring Zach home alive... An unputdownable thriller that will make your heart pound until its final, shocking conclusion.
