Palestinian Refugee Property and the Arab-Israeli Conflict

Columbia University Press Includes statistics.

Jewish Property Claims Against Arab Countries

Columbia University Press In the twenty years that followed the Arab-Israeli war of 1948, 800,000 Jews left their homes in Syria, Egypt, Iraq, Yemen, Libya, Morocco, and several other Arab countries. Although the causes of this exodus varied, restrictive governmental measures and an outburst of anti-Semitic feeling during and after the war were major factors. Some of these "Mizrahi" Jews, most of whom were not active Zionists, were forced to leave behind property of great financial and ancestral value-property that was sometimes seized by the governments of the countries they fled. In this book, Michael R. Fischbach, who has dedicated years to studying land and property ownership in the context of the Arab-Israeli conflict, reconstructs the circumstances in which Jewish communities left the Arab world. Conducting meticulous and exhaustive research in the archives of Washington D.C., Jerusalem, London, New York, and elsewhere, Fischbach offers the most authoritative estimates to date of the value of the property left behind. He also describes the process by which various actors, most importantly the State of Israel, linked the resolution of Jewish property claims to the fate of Palestinian refugee property claims following the 1948 war. Fischbach considers the implications of contemporary developments, such as America's invasion of Iraq, Israeli-Palestinian negotiations, and Libya's attempt to shed its international pariah status, which have impacted pending claims and will affect claims in the future. Overall, he finds that many international Jewish organizations have supported the link between the claims of Mizrahi Jews and those of Palestinian refugees, hindering serious efforts to obtain restitution or compensation.

The Peace Process and Palestinian Refugee Claims

Addressing Claims for Property Compensation and Restitution

US Institute of Peace Press After sketching the historical background and reviewing conflicting estimates of the amount of property involved, the volume investigates U.S. and UN settlement proposals developed--behind closed doors--in the 1950s and '60s, and explains how the peace process from Camp David I to Camp David II and beyond has actually hindered a settlement of property claims.

Israel and the Palestinian Refugee Issue

The Formulation of a Policy, 1948-1956

Routledge Examining the development of Israel's policy toward the Palestinian refugee issue, this book spans the period following the first Arab-Israeli War until the mid-1950s, when the basic principles of Israel's policy were finalized. Israel and the Palestinian Refugee Issue outlines and analyzes the various aspects that, together, created the mosaic of the "refugee problem" with which Israel has since had to contend. These aspects include issues of repatriation, resettlement, compensation, blocked bank accounts, internal refugees and family reunification. Drawing on extensive archival research, this book uses documents from Israeli government meetings, from the Foreign Affairs and Defense Committee and files from the office of the Prime Minister's advisor on Arab affairs to address the many diverse aspects of this topic, and will be essential reading for academics and researchers with an interest in Israel, the Middle East, and political science more broadly.

Housing and Property Restitution Rights of Refugees and Displaced Persons

Laws, Cases, and Materials

Cambridge University Press The legal recognition of the housing, land, and property rights of refugees and displaced persons has expanded steadily in recent years as the realization has grown that securing these rights will be beneficial to long-term peace, stability, economic vitality and justice. This volume, first published in 2007, contains more than 240 of the laws, cases and materials that have been adopted during the past century, which accord those unjustly and arbitrarily displaced from their homes and lands with rights: not simply to return to their countries or places of origin, but to return to the original home, land or property from which they were initially forced to flee. The breadth of the restitution standards found within this volume, combined with selected examples of case law and other materials, are a clear indication that a right to housing, land, and property restitution for refugees and displaced persons has emerged within the global legal domain.

International Law and the Israeli-Palestinian Conflict

A Rights-Based Approach to Middle East Peace

Routledge Placing a rights-based approach to the Israeli-Palestinian conflict at the centre of discussions over its peaceful resolution, this book provides detailed consideration of international law and its application to political issues. Contributions from leading scholars in their respective fields give an in-depth analysis of key issues, ranging from security, through legal and political frameworks to refugees and Jerusalem.

Zionism and Land Tenure in Mandate Palestine

Routledge A fundamental aspect of the conflict between Palestinians and Israelis is the territorial dispute which began long before the State of Israel was established. Analysing the land tenure system in Palestine under the administration of the British Mandate, this book questions whether, and to what extent, the land tenure system in Palestine facilitated Zionist land acquisition. The research uses benchmarks elaborated in the guidelines of the United Nations Human Settlements Programme as its analytical starting point, and looks at the formation and implementation of the land tenure system in Palestine. It goes on to place the penetration of Zionism into the land tenure system within the theoretical context of a colonial-settler framework, employing information from land registry records located at the Jordanian Department of Lands. Providing a political-historical analysis of the land tenure system from the end of Ottoman Rule until the end of the British Mandate, this book will be of interest to scholars and students of Middle Eastern History, Imperial and Colonial History, and Middle Eastern Politics.

Routledge Companion to the Israeli-Palestinian Conflict

Taylor & Francis This Companion explores the Israeli-Palestinian conflict from its inception to the present day, demonstrating the depth and breadth of the many facets of the conflict, from the historical, political, and diplomatic to the social, economic, and pedagogical aspects. The contributions also engage with notions of objectivity and bias and the difficulties this causes when studying the conflict, in order to reflect the diversity of views and often contentious discussion surrounding this conflict. The volume is organized around six parts, reflecting the core aspects of the conflict: • historical and scholarly context of the competing narratives • contemporary evolution of the conflict and its key diplomatic junctures • key issues of the conflict • its local dimensions • international environment of the conflict • the "other images" of the conflict, as reflected in public opinion, popular culture, the boycott, divestment and sanctions (BDS) movement, and academia and pedagogy. Providing a comprehensive approach to the Israeli-Palestinian conflict, this companion is designed for academics, researchers, and students interested in the key issues and contemporary themes of the conflict.

Palestinian Refugees in International Law

Oxford University Press, USA The Palestinian conflict has produced one of the most tragic refugee crises since World War II, with the number of refugees caused by the violence associated with the creation of the State of Israel numbering around 11 million in 2011. The much lauded first edition, in 1998, of The Status of Palestinian Refugees in International Law was the first book to comprehensively analyse

the legal aspects of the Palestinian refugee crisis, yet the last two decades have seen multiple developments. New waves of conflict and displacement have affected Palestinian refugees in the Middle East, and there has been Israeli encroachment on Palestinian territory. Hamas has grown, and a schism has formed within the first Palestinian government. The so-called "Arab Spring" has impacted the life, fate, and legal status of thousands of Palestinian refugees. In international legal jurisprudence, change has been similarly rapid. In 2004, the International Court of Justice delivered a crucial advisory opinion on the Separation Wall, authoritatively elucidating the international legal framework applicable to the Israeli occupation. Numerous international human rights bodies and UN fact-finding missions have added their analysis to the mix. The possibility of the State of Palestine joining the International Criminal Court has spurred discussion relating to the applicability of international criminal law to Palestinian refugees. Clear, compelling, and authoritative, Lex Takkenberg and Francesca Albanese discuss the status quo both on the ground and in the courts, and pose future scenarios to come.

Palestinian Refugees

Identity, Space and Place in the Levant

Routledge More than four million Palestinian refugees live in protracted exile across the Middle East. Taking a regional approach to Palestinian refugee exile and alienation across the Levant, this book proposes a new understanding of the spatial and political dimensions of refugee camps across the Middle East. Combining critical scholarship with ethnographic insight, the essays uncover host states' marginalisation of stateless refugees and shed light on new terminology on refugees, migration and diaspora studies. The impact on the refugee community is detailed in novel studies of refugee identity, memory and practice and new legal approaches to compensation and "right of return". The book opens a critical debate on key concepts and proposes a new understanding of the spatial and political dimensions of refugee camps, better understood as laboratories of Palestinian society and "state-in-making". This strong collection of original essays is an essential resource for scholars and students in refugee studies, forced migration, disaster studies, legal anthropology, urban studies, international law and Middle East history.

Tackling the Intractable

Palestinian Refugees and the Search for Middle East Peace

Peter Lang Finding a solution to the issue of Palestinian refugees has remained the main hurdle for an Israeli-Palestinian peace settlement. This book represents a comprehensive political analysis of the Palestinian refugee issue. It tackles the matter on four dimensions. First, the historical context of the Palestinian exodus in both 1948 and 1967 is reviewed. Second, the question is traced whether there exists a Palestinian right of return according to international law. Third, an examination is presented regarding how and why the issue of refugees has remained a stumbling block during the Israeli-Palestinian peace talks. Fourth, the main part of the book analyses potential solutions to the refugee question, complementing the existing proposals with models developed by the author. What are their implications for both sides? What are the advantages and disadvantages of each proposal to Israelis and Palestinians, respectively? What is the relevance of each proposal as a mutually acceptable solution? Finally, a set of recommendations and guide-lines for future Israeli-Palestinian negotiations on refugees is presented. Overall, this study constitutes a valuable reference for anyone interested in a solution of the most intractable aspect of the Israeli-Palestinian conflict.

The Oxford Handbook of International Refugee Law

Conflict and Housing, Land and Property Rights

A Handbook on Issues, Frameworks and Solutions

Cambridge University Press Housing, land and property (HLP) rights, as rights, are widely recognized throughout international human rights and humanitarian law and provide a clear and consistent legal normative framework for developing better approaches to the HLP challenges faced by the UN and others seeking to build long-term peace. This book analyses the ubiquitous HLP challenges present in all conflict and post-conflict settings. It will bridge the worlds of the practitioner and the theorist by combining an overview of the international legal and policy frameworks on HLP rights with dozens of detailed case studies demonstrating country experiences from around the world. The book will be of particular interest to professors and students of international relations, law, human rights, and peace and conflict studies but will have a wider readership among practitioners working for international institutions such as the United Nations and the World Bank, non-governmental organizations, and national agencies in the developing world.

Protection Amid Chaos

The Creation of Property Rights in Palestinian Refugee Camps

Columbia University Press The right to own property is something we generally take for granted. For refugees living in camps, in some cases for as long as generations, the link between citizenship and property ownership becomes strained. How do refugees protect these assets and preserve communal ties? How do they maintain a sense of identity and belonging within chaotic settings? Protection Amid Chaos follows people as they develop binding claims on assets and resources in challenging political and economic spaces. Focusing on Palestinians living in refugee camps in Lebanon and Jordan, it shows how the first to arrive developed flexible though legitimate property rights claims based on legal knowledge retained from their homeland, subsequently adapted to the restrictions of refugee life. As camps increased in complexity, refugees merged their informal institutions with the formal rules of political outsiders, devising a broader, stronger system for protecting their assets and culture from predation and state incorporation. For this book, Nadya Hajj conducted interviews with two hundred refugees. She consults memoirs, legal documents, and findings in the United Nations Relief Works Agency archives. Her work reveals the strategies Palestinian refugees have used to navigate their precarious conditions while under continuous assault and situates their struggle within the larger context of communities living in transitional spaces.

The Israeli-Palestinian Conflict

A People's War

Routledge The conflict between Israelis and Palestinians is one of the most enduring and complex in the modern world. But, why did the conflict break out? Who is demanding what, and why is peace so difficult to achieve? The Israeli-Palestinian Conflict tackles the subject and analyses the conflict from its historical roots in the late nineteenth century to the present attempts at conflict resolution in the twenty-first century. Framing the debate and analysis around issues such as Zionism, Palestinian nationalism, international peace efforts, the refugees, state-building, democracy and religious opposition

and highlighted by first hand quotes and sources of the conflict from its major participants, Beverley Milton-Edwards explores the deep impact of the conflict on regional politics in the Middle East and why the enmity between Palestinians and Israelis has become a number one global issue drawing in the world's most important global actors. An essential insight into the complexities of one of the world's most enduring conflicts between Israelis and Palestinians, this textbook is designed to make a complex subject accessible to all. Key features include a chronology of events and annotated further reading at the end of each chapter. *The Israeli-Palestinian Conflict* is an ideal and authoritative introduction into aspects of politics in Israel, among the Palestinians – a vitally important issue for those studying the politics of the Middle East.

Israeli-Palestinian Conflict: from Balfour Promise to Bush Declaration The Complications and the Road for a Lasting Peace

AuthorHouse In the coming five to ten years, the highest number of key global security challenges is likely to be concentrated in the Middle East, or be related to it. And the traditional most significant challenge in the Middle East is the Arab-Israeli conflict and its core, the dispute between Israelis and Palestinians. It is a center of gravity around which the region has revolved, and remains of vast political and symbolic significance. Both in its own right and due to its (positive or negative) signaling effects, reinvigoration of the peace process is a key challenge for regional and international policy-makers in the coming years. So, what is the origin of this Israeli-Palestinian old conflict? Why did we reach this point in that region? Who to blame? How we can find a just solution? What will be the consequences if the conflict is not resolved? Can a viable state be made in the West Bank and the Gaza Strip? Gabriel Tabarani, who is a specialist on Middle East affairs, will try to find the answers in this book where he takes us back to that region through its history and facts, analyzes some turning points in it, which affected that region, discovers the causes and the important aspects of the conflict and the obstacles to peace. He presents all current events details and information from both sides of this conflict. Furthermore this book offers some recommendations on how we can solve this conflict, gives the light on all events and tries to answer all questions in a fair and balanced way.

Surveillance and Control in Israel/Palestine

Population, Territory and Power

Routledge Surveillance is always a means to an end, whether that end is influence, management or entitlement. This book examines the several layers of surveillance that control the Palestinian population in Israel and the Occupied Territories, showing how they operate, how well they work, how they are augmented, and how in the end their chief purpose is population control. Showing how what might be regarded as exceptional elsewhere is here regarded as the norm, the book looks not only at the political economy of surveillance and its technological and military dimensions, but also at the ordinary ways that Palestinians in Israel and the occupied territories are affected in their everyday lives. Written in a clear and accessible style by experts in the field, this book will have large appeal for academic faculty as well as graduate and senior undergraduate students in sociology, political science, international relations, surveillance studies and Middle East studies.

Palestine in EU and Russian Foreign Policy

Statehood and the Peace Process

Taylor & Francis The establishment of a Palestinian state has long been a strategic objective of EU and Russian foreign policy in the Middle East. However, over a decade after the creation of the road-map, the establishment of an independent Palestinian state has still not been achieved. *Palestine in EU and Russian Foreign Policy* uses the school of constructivism to provide a new understanding of EU and Russian foreign policy. It explores the failure of these global actors to speed up the process of establishing a Palestinian state, despite this being a strategic objective and top priority of their involvement in the Middle East peace process. The book then analyses the role of identity and self-other perception in the making of EU and Russian foreign policy towards the Middle East peace process. It is argued that Palestinian statehood provides a telling empirical example of how, and to what extent, the search for global actorhood, as a matter of international identity, informs foreign policy-making by global actors. The book then proceeds to discuss why the EU and Russia are so eager to be involved in initiating a peace settlement. Offering a new understanding of foreign policy-making by global players in Middle Eastern politics, this book will appeal to students, scholars and policymakers working in International Relations and European, Russian and Middle Eastern studies.

Israel and its Palestinian Citizens

Ethnic Privileges in the Jewish State

Cambridge University Press This volume presents new perspectives on Israeli society, Palestinian society, and the Israeli-Palestinian conflict. Based on historical foundations, it examines how Israel institutionalizes ethnic privileging among its nationally diverse citizens. Arab, Israeli, and American contributors discuss the paradoxes of democratic claims in ethnic states, as well as dynamics of social conflict in the absence of equality. This book advances a new understanding of Israel's approach to the Palestinian citizens, covers the broadest range of areas in which Jews and Arabs are institutionally differentiated along ethnic basis, and explicates the psychopolitical foundations of ethnic privileges. It will appeal to students and scholars who seek broader views on Israeli society and its relationship with the Arab citizens, and want to learn more about the status of the Palestinian citizens in Israel and their collective experience as both citizens and settler-colonial subjects.

Land Expropriation in Israel

Law, Culture and Society

Routledge Historically, Israel's Supreme Court has failed to limit the state's powers of expropriation and to protect private property. This book argues that the Court's land expropriation jurisprudence can only be understood against the political, cultural and institutional context in which it was shaped. Security and economic pressures, the precarious status of the Court in the early years, the pervading ethos of collectivism, the cultural symbolism of public land ownership and the perceived strategic and demographic risks posed by the Israeli Arab population – all contributed to the creation of a harsh and arguably undemocratic land expropriation legal philosophy. This philosophy, the book argues, was applied by the Supreme Court to Arabs and Jews alike from the creation of the state in 1948 and until the 1980s. The book concludes with an analysis of the constitutional change of 1992 and its impact on the legal treatment of property rights under Israeli law.

States of Separation

Transfer, Partition, and the Making of the Modern Middle East

[Univ of California Press](#) "In the interwar Eastern Mediterranean, European colonial modes of establishing land claims and controlling populations converged with a recent Ottoman past featuring desperate and violent efforts at nationalization and an increasingly empowered Zionist settler colonialism. *States of Separation* explores how this confluence produced a series of internationally supported plans to move "minority" communities in, around, and out of the newly constituted states of Iraq, Syria, and Palestine under the aegis of the League of Nations - a massive demographic experiment that carried lasting political and social consequences for the twentieth century Middle East and the international order."--Provided by publisher.

The Politics of Mass Violence in the Middle East

[Oxford University Press, USA](#) Laura Robson examines the interactions between international and regional political economies of oil and water, and the increasingly explicit colonial and postcolonial politics of ethno-national identity centered around the question of Palestine, arguing that the Middle East's emergence as a 'zone of violence' only developed over the past century.

Stone Men

The Palestinians Who Built Israel

[Verso Books](#) Winner of the 2019 Palestine Book Awards "They demolish our houses while we build theirs." This is how a Palestinian stonemason, in line at a checkpoint outside a Jerusalem suburb, described his life to Andrew Ross. Palestinian "stone men," using some of the best-quality limestone deposits in the world and drawing on generations of artisanal knowledge, have built almost every state in the Middle East except one of their own. Today the business of quarrying, cutting, fabricating, and dressing is the Occupied Territories' largest private employer and generator of revenue, and supplies the construction industry in Israel, along with other countries in the region and overseas. Ross's engrossing, surprising, and gracefully written story of this fascinating ancient trade shows how the stones of historic Palestine, and Palestinian labor, have been used to build the state of Israel—in the process, constructing "facts on the ground"—even while the industry is central to Palestinians' own efforts to erect bulwarks against the Occupation. For more than a century, the hands that built Israel's houses, schools, offices, bridges, and even its separation barriers have been Palestinian. Looking at the Palestinian-Israeli conflict in a new light, this book, largely based on field interviews in the region, asks how this record of labor and achievement can and should be recognized.

Disappearing Palestine

Israel's Experiments in Human Despair

[Zed Books Ltd.](#) Palestine is fast disappearing. Over many decades Israel has developed and refined policies to disperse, imprison and impoverish the Palestinian people in a relentless effort to destroy them as a nation. It has industrialized Palestinian despair through ever more sophisticated systems of curfews, checkpoints, walls, permits and land grabs. It has transformed the West Bank and Gaza into laboratories for testing the infrastructure of confinement, creating a lucrative 'defence' industry by pioneering the technologies needed for crowd control, surveillance, collective punishment and urban warfare. In this insightful and authoritative new book, leading journalist Jonathan Cook examines the many different guises in which these experiments on the Palestinians are being carried out. Accessible and comprehensive, this is a powerful analysis of one of the most enduring and entrenched conflicts in contemporary world politics.

Exile and Return

Predicaments of Palestinians and Jews

[University of Pennsylvania Press](#) The Israeli, Palestinian, and American contributors to this volume consider the catastrophic failure of the Oslo peace process and the years of bloody violence that ensued.

Divided Environments

An International Political Ecology of Climate Change, Water and Security

[Cambridge University Press](#) What are the implications of climate change for twenty-first-century conflict and security? Rising temperatures, it is often said, will bring increased drought, more famine, heightened social vulnerability, and large-scale political and violent conflict; indeed, many claim that this future is already with us. *Divided Environments*, however, shows that this is mistaken. Focusing especially on the links between climate change, water and security, and drawing on detailed evidence from Israel-Palestine, Syria, Sudan and elsewhere, it shows both that mainstream environmental security narratives are misleading, and that the actual security implications of climate change are very different from how they are often imagined. Addressing themes as wide-ranging as the politics of droughts, the contradictions of capitalist development and the role of racism in environmental change, while simultaneously articulating an original 'international political ecology' approach to the study of socio-environmental conflicts, *Divided Environments* offers a new and important interpretation of our planetary future.

A History of Palestine

From the Ottoman Conquest to the Founding of the State of Israel

[Princeton University Press](#) It is impossible to understand Palestine today without a careful reading of its distant and recent past. But until now there has been no single volume in English that tells the history of the events—from the Ottoman Empire to the mid-twentieth century—that shaped modern Palestine. The first book of its kind, *A History of Palestine* offers a richly detailed interpretation of this critical region's evolution. Starting with the prebiblical and biblical roots of Palestine, noted historian Gudrun Krämer examines the meanings ascribed to the land in the Jewish, Christian, and Muslim traditions. Paying special attention to social and economic factors, she examines the gradual transformation of Palestine, following the history of the region through the Egyptian occupation of the mid-nineteenth century, the Ottoman reform era, and the British Mandate up to the founding of Israel in 1948. Focusing on the interactions of Arabs and Jews, *A History of Palestine* tells how these connections affected the cultural and political evolution of each community and Palestine as a whole.

Land Law and Policy in Israel

A Prism of Identity

Indiana University Press As one of the smallest and most densely populated countries in the world, the State of Israel faces serious land policy challenges and has a national identity laced with enormous internal contradictions. In *Land Law and Policy in Israel*, Haim Sandberg contends that if you really want to know the identity of a state, learn its land law and land policies. Sandberg argues that Israel's identity can best be understood by deciphering the code that lies in the Hebrew secret of Israeli dry land law. According to Sandberg, by examining the complex facets of property law and land policy, one finds a unique prism for comprehending Israel's most pronounced identity problems. *Land Law and Policy in Israel* explores how Israel's modern land system is the product of legislation from the Ottoman period and the British Mandate as well as the seventy-plus years of the State of Israel. The regulation of property and the determination of land usage have been the consequences of explicit choices made in the context of competing and evolving concepts of national identity. *Land Law and Policy in Israel* will prove to be a must-read not only for anyone interested in Israel but also for anyone who wants to understand the importance of land law in a nation's life.
