STUDY GUIDE

THE LEADER IN ME

HOW SCHOOLS AND PARENTS AROUND THE WORLD ARE INSPIRING GREATNESS, ONE CHILD AT A TIME

Simon and Schuster Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.

PREPARING PRINCIPALS FOR A CHANGING WORLD

LESSONS FROM EFFECTIVE SCHOOL LEADERSHIP PROGRAMS

John Wiley & Sons Preparing Principals for a Changing World provides a hands-on resource for creating and implementing effective policies and programs for developing expert school leaders. Written by acclaimed author and educator Linda Darling-Hammond and experts Debra Meyerson, Michelle LaPointe, and Margaret Terry Orr, this important book examines the characteristics of successful educational leadership programs and offers concrete recommendations to improve programs nationwide. In a study funded by the Wallace Foundation, Darling-Hammond and the team examined eight exemplary principal development programs, as well as state policies and principals' experiences across the country. Using the data from the study, they reveal how successful programs are structured, the skills and knowledge participants gain, and what they are able to do in practice as school leaders as a result. What do these exemplary programs have in common? Aggressive recruitment; close ties with schools in the community; on-the-ground training under the wing of expert principals, and a strong emphasis on the cutting-edge theories of instructional and transformational leadership. In addition to highlighting the programs' similarities, the study also explains the differences among the programs and sheds light on the effectiveness of approaches and models from different states and contexts? East, West, North, and South; urban and rural; pre-service and in-service. The authors analyze program outcomes for principals and their schools, including illustrative case studies and educators' voices on the influence of programs' strategies for recruitment, internships, mentoring, and coursework. The ideas and suggestions outlined in Preparing Principals for a Changing World are presented with the goal of increasing the number of highly qualified, thoughtful, and innovative educational leaders.

THE FUTURE OF NURSING

LEADING CHANGE, ADVANCING HEALTH

National Academies Press *The Future of Nursing* explores how nurses' roles, responsibilities, and education should change significantly to meet the increased demand for care that will be created by health care reform and to advance improvements in America's increasingly complex health system. At more than 3 million in number, nurses make up the single largest segment of the health care work force. They also spend the greatest amount of time in delivering patient care as a profession. Nurses therefore have valuable insights and unique abilities to contribute as partners with other health care professionals in improving the quality and safety of care as envisioned in the Affordable Care Act (ACA) enacted this year. Nurses should be fully engaged with other health professionals and assume leadership roles in redesigning care in the United States. To ensure its members are well-prepared, the profession should institute residency training for nurses, increase the percentage of nurses who attain a bachelor's degree to 80 percent by 2020, and double the number who pursue doctorates. Furthermore, regulatory and institutional obstacles -- including limits on nurses' scope of practice -- should be removed so that the health system can reap the full benefit of nurses' training, skills, and knowledge in patient care. In this book, the Institute of Medicine makes recommendations for an action-oriented blueprint for the future of nursing.

PREPARING TEACHERS AND DEVELOPING SCHOOL LEADERS FOR THE 21ST CENTURY

LESSONS FROM AROUND THE WORLD

OCDE Nations around the world are undertaking wide-ranging reforms to better prepare children for the higher educational demands of life and work in the 21st century. What are the skills that young people will need in a rapidly changing society, and what competencies do teachers need to effectively teach those skills? What can teacher preparation and continuing professional development do to prepare graduates to teach well in tomorrow's classroom? What are the different roles and responsibilities of upcoming school leaders, and how do countries succeed in developing these leaders? To help governments effectively address these and other key issues, the U.S. Department of Education, the OECD, and Education International brought education ministers, union leaders, and other teacher leaders together in the second International Summit on the Teaching Profession in March 2012. This publication summarizes the evidence that underpinned the summit and highlights its conclusions.

RESOLVING ISSUES IN LEADERSHIP THROUGH CASE STUDIES

Rowman & Littlefield This book constitutes a collection of case studies that explore issues faced by school principals as is related to instructional leadership. The scenarios presented here allow students to gain a more thorough understanding of the Professional Standards for Educational Leaders (PSEL, 2015) and their performance competencies. These scenarios are designed to develop new school leaders. These cases provide opportunities to create meaningful learning experiences for courses, professional development programs, and the mentoring of new school principals, giving them exposure to the kinds of dilemmas they will encounter as they take on their leadership roles or start out on supervisory positions. The cases are based on real life dilemmas, reflect contemporary issues in our school buildings, and are designed to be easily used or adapted across all school types. The cases are taken from many years of experience as an educator, administrator consultant and researcher in rural, suburban and urban school districts.
