SENSE AND NONSENSE ABOUT CRIME, DRUGS, AND COMMUNITIES

Cengage Learning Samuel Walker's SENSE AND NONSENSE ABOUT CRIME, DRUGS, AND COMMUNITIES was one of the first books to challenge common misconceptions about crime, and the new Eighth Edition remains uniquely effective at doing so. Described as a masterful critique of American policies on everything from crime control, to guns, to drugs, this incisive text cuts through popular myths and political rhetoric to confront both conservative and liberal propositions in the context of current research and proven practice. The result is a lucid, research-based work that stimulates critical thinking and enlivens class discussions. This engaging text captures the full complexity of the administration of justice while providing students with a clear sense of its key principles and general patterns. CRIME & POLITICS

BIG GOVERNMENT'S ERRATIC CAMPAIGN FOR LAW AND ORDER

Oxford University Press on Demand Why has America experienced an explosion in crime rates since 1960? Why has the crime rate dropped in recent years? Though politicians are always ready both to take the credit for crime reduction and to exploit grisly headlines for short-term political gain, these questions remain among the most important-and most difficult to answer-in America today. In *Crime & Politics*, award-winning journalist Ted Gest gives readers the inside story of how crime policy is formulated inside the Washington beltway and state capitols, why we've had cycle after cycle of ineffective federal legislation, and where promising reforms might lead us in the future. Gest examines how politicians first made crime a national rather than a local issue, beginning with Lyndon Johnson's crime commission and the landmark anti-crime law of 1968 and continuing right up to such present-day measures as "three strikes" laws, mandatory sentencing, and community policing. Gest exposes a lack of consistent leadership, backroom partisan politics, and the rush to embrace simplistic solutions as the main causes for why Federal and state crime programs have failed to make our streets safe. But he also explores how the media aid and abet this trend by featuring lurid crimes that simultaneously frighten the public and encourage candidates to offer another round of quick-fix solutions. Drawing on extensive research and including interviews with Edwin Meese, Janet Reno, Joseph Biden, Ted Kennedy, and William Webster, *Crime & Politics* uncovers the real reasons why America continues to struggle with the crime problem and shows how we do a better job in the future.

CRIME AND PUBLIC POLICY

Oxford University Press *Crime in the United States* has fluctuated considerably over the past thirty years, as have the policy approaches to deal with it. During this time criminologists and other scholars have helped to shed light on the role of incarceration, prevention, drugs, guns, policing, and numerous other aspects to crime control. Yet the latest research is rarely heard in public discussions and is often missing from the desks of policymakers. This book accessibly summarizes the latest scientific information on the causes of crime and evidence about what does and does not work to control it. Thoroughly revised and updated, this new version of *Crime and Public Policy* will include twenty chapters and five new substantial entries. As with previous editions, each essay reviews the existing literature, discusses the methodological rigor of the studies, identifies what policies and programs the studies suggest, and then points to policies now implemented that fail to reflect the evidence. The chapters cover the principle institutions of the criminal justice system (juvenile justice, police, prisons, probation and parole, sentencing), how broader aspects of social life inhibit or encourage crime (biology, schools, families, communities), and topics currently generating a great deal of attention (criminal activities of gangs, sex offenders, prisoner reentry, changing crime rates). With contributions from trusted, leading scholars, *Crime and Public Policy* offers the most comprehensive and balanced guide to how the latest and best social science research informs the understanding of crime and its control for policymakers, community leaders, and students of crime and criminal justice.

TOWARD A UNIFIED CRIMINOLOGY

INTEGRATING ASSUMPTIONS ABOUT CRIME, PEOPLE AND SOCIETY

NYU Press Why do people commit crimes? How do we control crime? The theories that criminologists use to answer these questions are built on a number of underlying assumptions, including those about the nature of crime, free will, human nature, and society. These assumptions have a fundamental impact on criminology: they largely determine what criminologists study, the causes they examine, the control strategies they recommend, and how they test their theories and evaluate crime-control strategies. In *Toward a Unified Criminology*, noted criminologist Robert Agnew provides a critical examination of these assumptions, drawing on a range of research and perspectives to argue that these assumptions are too restrictive, unduly limiting the types of "crime" that are explored, the causes that are considered, and the methods of data collection and analysis that are employed. As such, they undermine our ability to explain and control crime. Agnew then proposes an alternative set of assumptions, drawing heavily on both mainstream and critical theories of criminology, with the goal of laying the foundation for a unified criminology that is better able to explain a broader range of crimes.

CRIMINAL LAW, PROCEDURE, AND EVIDENCE

CRC Press Constitutional principles are the foundation upon which substantive criminal law, criminal procedure law, and evidence laws rely. The concepts of due process, legality, specificity, notice, equality, and fairness are intrinsic to these three disciplines, and a firm understanding of their implications is necessary for a thorough comprehension of the

MODERN CONTROL THEORY AND THE LIMITS OF CRIMINAL JUSTICE

Oxford University Press, USA "Modern control theory and the limits of the criminal sanction updates and extends the authors' classic

general theory of crime (sometimes referred to as "self-control theory"). In Part I, contemporary evidence about the theory is summarized. Research from criminology, psychology, economics, education and public health substantially supports the life-long influence of self control as a significant cause of problem behaviors, including delinquency and crime, substance abuse, school problems, many forms of accidents, employment instability and many poor health outcomes. Contemporary is supportive of the theory's focus on early socialization for creation of higher levels of self control and other dimensions of the theory, including the roles of self control, age and the generality or versatility of problem behaviors, as well as the connections between self control and later teen and adult problem behaviors. The authors provide methodological assessments of research on the theory, contrasting the control-theory perspective with other developmental perspectives in criminology. The role of opportunity, the relationship between self and social control theory, and the role of motivation, are addressed. In Part II, control theory is taken to be a valid theory and is used to explore the role of criminal sanctions, especially policing and prisons, and policies about immigration, as methods to impact crime. Modern control theory provides an explanation for the general lack of effectiveness of formal, state sanctions on crime and instead provides substantial justification for prevention of delinquency and crime by a focus on childhood"--

DRUGS AND DRUG POLICY

THE CONTROL OF CONSCIOUSNESS ALTERATION

SAGE "...the authors provide a detailed review of existing drug policy in the United States and an excellent and thorough review of the effects of both legal and illegal substances. One of the book's outstanding features is its comprehensive coverage of policy regarding legal and non legal drugs...this book is also extremely thought provoking and challenges readers to consider the foundation of their own perspectives on drugs and drug policies." —PSYCCRITIQUES *Drugs and Drug Policy: The Control of Consciousness Alteration* provides a cross-national perspective on the regulation of drug use by examining and critiquing drug policies in the United States and abroad in terms of their scope, goals, and effectiveness. In this engaging text, authors Clayton J. Mosher and Scott Akins discuss the physiological, psychological, and behavioral effects of legal and illicit drugs; the patterns and correlates of use; and theories of the "causes" of drug use.

THE RELATIVITY OF DEVIANCE

Pine Forge Press In this Second Edition of his investigation into the relative nature of social deviance and how the public perceives it, author John Curra demonstrates that what qualifies as deviance varies from place to place, time to time, and situation to situation. Through thought-provoking examples that include the blue people of Kentucky, a woman who believes she is a vampire, autoerotic asphyxiators, and others, Curra illustrates that deviance cannot be explained in terms of absolutes, nor can it be understood apart from its social setting. This insightful book approaches sex, violence, theft, suicide, drugs, and mental disorders in such a way that definitive or objective judgments become impossible.

HATE CRIMES

CAUSES, CONTROLS, AND CONTROVERSIES

SAGE Publications The Fourth Edition of *Hate Crimes: Causes, Controls, and Controversies* by Phyllis B. Gerstenfeld takes a multidisciplinary approach that allows students to explore a broad scope of hate crimes. Drawing on recent developments, topics, and current research, this book examines the issues that foster hate crimes while demonstrating how these criminal acts impact individuals, as well as communities. Students are introduced to the issue through first-person vignettes—offering a more personalized account of both victims and perpetrators of hate crimes. Packed with the latest court cases, research, and statistics from a variety of scholarly sources, the Fourth Edition is one of the most comprehensive and accessible textbooks in the field.

ENDING THE WAR ON DRUGS

Random House For the last 50 years, drug prohibition laws have put the market for illegal drugs into the hands of organised criminals. Now, it's time to take control. Ending the failed war on drugs will reduce drug-related violence, tackle organised crime, end the needless criminalisation of millions, and will halt the drain on government funds and resources. In this book, global opinion-leaders on the frontline of the drug debate describe their experiences and perspectives on what needs to be done. Highlighting the pitfalls behind drug policy to-date and bringing to light new policies and approaches, which make a clear case for galvanizing governments to end the war on drugs - once and for all.

THE COLOR OF JUSTICE: RACE, ETHNICITY, AND CRIME IN AMERICA

Cengage Learning Comprehensive and balanced, *THE COLOR OF JUSTICE: RACE, ETHNICITY, AND CRIME IN AMERICA* is the definitive introduction to current research and theories of racial and ethnic discrimination within America's criminal justice system. The sixth edition covers the best and the most recent research on patterns of criminal behavior and victimization, immigration and crime, drug use, police practices, court processing and sentencing, unconscious bias, the death penalty, and correctional programs, giving students the facts and theoretical foundation they need to make their own informed decisions about discrimination within the system. Uniquely unbiased, *THE COLOR OF JUSTICE* makes every effort to incorporate discussion of all major race groups found in the United States. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

THE [OXFORD] HANDBOOK OF CRIMINOLOGICAL THEORY

Oxford University Press Criminological theory texts typically follow a conventional format. Diverse writings are neatly packaged into schools of thought, which are given clear labels and conveyed a chapter at a time, with topics like control theory in one chapter and strain theory in another. The Oxford Handbook of Criminological Theory takes a different approach across the criminological landscape. The volume is organized not around schools of thought but around themes that shape much thinking about and research on crime. This more unconventional approach seeks to show that criminological theory is not static but dynamic. In fact, most prominent scholars do not spend their time commenting upon and retesting theoretical propositions that have existed for many years. Rather, they move into more novel areas--areas often located in the interstitial junctures between more traditional theories. This Oxford Handbook presents a series of essays that captures not the past of criminology, but where theoretical explanation is headed. As a result, the volume is replete with new ideas, discussions of substantive topics with salient theoretical implications, and reviews and interpretations of literatures that illuminate promising avenues along which theory and research should evolve. Special attention is paid to how criminal participation is shaped intimately by individual traits, diverse social contexts, the situations in which the choice of crime is made, and exposure to coercive experiences. Each chapter can be read on its own--as furnishing an important analysis of a given theoretical issue--yet read as a whole, The Oxford Handbook of Criminological Theory offers a unique and deep understanding of criminology at its cutting edge.

DRUGS, CRIME AND PUBLIC HEALTH

THE POLITICAL ECONOMY OF DRUG POLICY

Routledge Drugs, Crime and Public Health provides an accessible but critical discussion of recent policy on illicit drugs. Using a comparative approach - centred on the UK, but with insights and complementary data gathered from the USA and other countries - it discusses theoretical perspectives and provides new empirical evidence which challenges prevalent ways of thinking about illicit drugs. It argues that problematic drug use can only be understood in the social context in which it takes place, a context which it shares with other problems of crime and public health. The book demonstrates the social and spatial overlap of these problems, examining the focus of contemporary drug policy on crime reduction. This focus, Alex Stevens contends, has made it less, rather than more, likely that long-term solutions will be produced for drugs, crime and health inequalities. And he concludes, through examining competing visions for the future of drug policy, with an argument for social solutions to these social problems.

DRUGS WITHOUT THE HOT AIR

MAKING SENSE OF LEGAL AND ILLEGAL DRUGS

without the hot air The dangers of illegal drugs are well known and rarely disputed, but how harmful are alcohol and tobacco by comparison? What are we missing by banning medical research into magic mushrooms, LSD and cannabis? Can they be sources of valuable treatments? The second edition of Drugs without the hot air looks at the science to allow anyone to make rational decisions based on objective evidence, asking: *What is addiction? Is there an addictive personality? *What is the role of cannabis in treating epilepsy? *How harmful is vaping? *How can psychedelics treat depression? *Where is the opioid crisis taking us?

JUVENILE JUSTICE

AN INTRODUCTION

Routledge Juvenile Justice: An Introduction, 8th edition, presents a comprehensive picture of juvenile offending, delinquency theories, and how juvenile justice actors and agencies react to delinquency. It covers the history and development of the juvenile justice system and the unique issues related to juveniles, offering evidence-based suggestions for successful interventions and treatment and examining the new balance model of juvenile court. This new edition not only includes the latest available statistics on juvenile crime and victimization, drug use, court processing, and corrections, but provides insightful analysis of recent developments, such as those related to the use of probation supervision fees; responses to gangs and cyber bullying; implementing the deterrence model (Project Hope); the possible impact of drug legalization; the school-to-prison pipeline; the extent of victimization and mental illness in institutions; and implications of major court decisions regarding juveniles, such as Life Without Parole (LWOP) for juveniles. Each chapter enhances student understanding with Key Terms, a "What You Need to Know" section highlighting important points, and Discussion Questions. Links at key points in the text show students where they can go to get the latest information, and a comprehensive glossary aids comprehension.

SNOWBLIND

A BRIEF CAREER IN THE COCAINE TRADE

Open Road + Grove/Atlantic A look at the supercharged life of American drug smuggler Zachary Swan. "An extremely rare cut of dry wit, poetry, rock-hard fact and relentless insight" (Rolling Stone). Robert Sabbag's Snowblind, the true story of an American smuggler whose intricate, ingenious scams made him a legendary figure in the cocaine world of the late sixties and early seventies, is a modern classic. In this "witty, intelligent, fiercely stylish, drug-induced exemplary tale" (Los Angeles Times), Sabbag masterfully traces Zachary Swan's Roman-candle career, from his first forays into smuggling marijuana to his jaunts to Colombia to buy pure cocaine, and his ever more elaborate plans to outwit the police and customs officials. Updated by the author, this captivating portrait of a dashing antihero and enthralling look at a turbulent age is sure to reach a new generation of readers. "A flat-out ball buster. It moves like a threshing machine with a fuel tank of ether." —Hunter S. Thompson

CRIME, SHAME AND REINTEGRATION

Cambridge University Press Braithwaite argues that shame can be used as a constructive way to help criminals.

THE END OF POLICING

Verso Books LOS ANGELES TIMES BESTSELLER The problem is not overpolicing, it is policing itself. Why we need to defund the police and how we get there. Recent weeks have seen an explosion of protest against police brutality and repression. Among activists, journalists and politicians, the conversation about how to respond and improve policing has focused on accountability, diversity, training, and community relations. Unfortunately, these reforms will not produce results, either alone or in combination. The core of the problem must be addressed: the nature of modern policing itself. This book attempts to spark public discussion by revealing the tainted origins of modern policing as a tool of social control. It shows how the expansion of police authority is inconsistent with community empowerment, social justice— even public safety. Drawing on groundbreaking research from across the world, and covering virtually every area in the increasingly broad range of police work, Alex Vitale demonstrates how law enforcement has come to exacerbate the very problems it is supposed to solve. In contrast, there are places where the robust implementation of policing alternatives—such as legalization, restorative justice, and harm reduction—has led to a decrease in crime, spending, and injustice. The best solution to bad policing may be an end to policing.

BETWEEN PRISON AND PROBATION

INTERMEDIATE PUNISHMENTS IN A RATIONAL SENTENCING SYSTEM

Oxford University Press Across the country prisons are jammed to capacity and, in extreme cases, barges and mobile homes are used to stem the overflow. Probation officers in some cities have caseloads of 200 and more—hardly a manageable number of offenders to track and supervise. And with about one million people in prison and jail, and two and a half million on probation, it is clear we are experiencing a crisis in our penal system. In Between Prison and Probation, Norval Morris and Michael Tonry, two of the nation's leading criminologists, offer an important and timely strategy for alleviating these problems. They argue that our overwhelmed corrections system cannot cope with the flow of convicted offenders because the two extremes of punishment—imprisonment and probation—are both used excessively, with a near-vacuum of useful punishments in between. Morris and Tonry propose instead a comprehensive program that relies on a range of punishment including fines and other financial sanctions, community service, house arrest, intensive probation, closely supervised treatment programs for drugs, alcohol and mental illness, and electronic monitoring of movement. Used in rational combinations, these "intermediate" punishments would better serve the community than our present polarized choice. Serious consideration of these punishments has been hindered by the widespread perception that they are therapeutic rather than punitive. The reality, however, Morris and Tonry argue, "is that the American criminal justice system is both too severe and too lenient—almost randomly." Systematically implemented and rigorously enforced, intermediate punishments can "better and more economically serve the community, the victim, and the criminal than the prison terms and probation orders they supplant." Between Prison and Probation goes beyond mere advocacy of an increasing use of intermediate punishments; the book also addresses the difficult task of fitting these punishments into a comprehensive, fair and community-protective sentencing system.

THE YOUNG TEAM

Pan Macmillan The Times top ten bestseller Scots Book of the Year 2021 Winner of the Somerset Maugham Award & Betty Trask Award 2021 'Trainspotting for a new generation' - Independent 'An instant Scottish classic' - The Skinny 2005. Glasgow is named Europe's Murder Capital, driven by a violent territorial gang and knife culture. In the housing schemes of adjacent Lanarkshire, Scotland's former industrial heartland, wee boys become postcode warriors. 2004. Azzy Williams joins the Young Team [YTP]. A brutal gang conflict with their deadly rivals, the Young Toi [YTB] begins. 2012. Azzy dreams of another life. He faces his toughest fight of all - the fight for a different future. Expect Buckfast. Expect bravado. Expect street philosophy. Expect rave culture. Expect anxiety. Expect addiction. Expect a serious facial injury every six hours. Expect murder. Hope for a way out. Inspired by the experiences of its author, Graeme Armstrong, The Young Team is an energetic novel, full of the loyalty, laughs, mischief, boredom, violence and threat of life on these streets. It looks beyond the tabloid stereotypes to tell a powerful story about the realities of life for young people in Britain today. 'A swaggering, incendiary debut' - Guardian 'Dialect that fizzies off the page' - Observer 'One of the most admired young voices in British fiction' - The Times

THE GODMOTHER

A CRIME NOVEL

ECW Press Inspiration for the major motion picture *Mama Weed*; translated from the international bestseller *La Daronne*, winner of the European Crime Fiction Prize and the Grand Prix de Littérature Policière, France's most prestigious prize for crime fiction Meet *Patience Portefeux*, a fifty-three-year-old, underpaid Franco-Arab interpreter for the Ministry of Justice who specializes in phone tapping. Widowed after the sudden death of her husband, Patience is now wedged between university fees for her grown-up daughters and nursing home costs for her aging mother. Happening upon an especially revealing set of police wiretaps ahead of all other authorities, Patience makes a life-altering decision that sees her intervening in — and infiltrating — the machinations of a massive drug deal. She thus embarks on an entirely new career path: Patience becomes *The Godmother*. This is not the French idyll of postcards and stock photos. With a gallery of traffickers, dealers, police officers, and politicians, *The Godmother* casts its sharp and amusing gaze on everyday survival in contemporary France. With an unforgettable woman at its center, *Hannelore Cayre's* bestselling novel reveals a European criminal underground that has rarely been seen.

FUNDAMENTALS OF CRIMINAL JUSTICE

A SOCIOLOGICAL VIEW

Jones & Bartlett Learning Ideal for allied health and pre-nursing students, *Alcamos Fundamentals of Microbiology, Body Systems Edition*, retains the engaging, student-friendly style and active learning approach for which award-winning author and educator *Jeffrey Pommerville* is known. It presents diseases, complete with new content on recent discoveries, in a manner that is directly applicable to students and organized by body system. A captivating art program, learning design format, and numerous case studies draw students into the text and make them eager to learn more about the fascinating world of microbiology.

LEGAL ASPECTS OF CORRECTIONS MANAGEMENT

Jones & Bartlett Publishers This updated third edition of *Legal Aspects of Corrections Management* provides a current, informative, and reader-friendly discussion of the contemporary legal issues impacting corrections management. Through the use of case law, this text provides readers with a practical understanding of how the First, Fourth, Fifth, Eighth and Fourteenth Amendments relate to the day-to-day issues of running a prison, jail, and other corrections programs, such as probation and parole. The authors' combined corrections experience included such positions as General Counsel, Regional Counsel, and Correctional Program Officer, as well as working within corrections facilities. Their work involved advising corrections staff and management on the legal issues associated with policies and procedures. The authors also have extensive teaching experience in corrections law, the criminal justice system, and criminology.

SOU-CCJ230 INTRODUCTION TO THE AMERICAN CRIMINAL JUSTICE SYSTEM

THE BIOLOGY OF DESIRE

WHY ADDICTION IS NOT A DISEASE

Scribe Publications WINNER OF THE 2016 PROSE AWARD IN PSYCHOLOGY Through the vivid, true stories of five people who journeyed into and out of addiction, a renowned neuroscientist explains why the 'disease model' of addiction is wrong, and illuminates the path to recovery. The psychiatric establishment and rehab industry in the Western world have branded addiction a brain disease, based on evidence that brains change with drug use. But in *The Biology of Desire*, cognitive neuroscientist and former addict *Marc Lewis* makes a convincing case that addiction is not a disease, and shows why the disease model has become an obstacle to healing. Lewis reveals addiction as an unintended consequence of the brain doing what it's supposed to do — seek pleasure and relief — in a world that's not cooperating. Brains are designed to restructure themselves with normal learning and development, but this process is accelerated in addiction when highly attractive rewards are pursued repeatedly. Lewis shows why treatment based on the disease model so often fails, and how treatment can be retooled to achieve lasting recovery, given the realities of brain plasticity. Combining intimate human stories with clearly rendered scientific explanation, *The Biology of Desire* is enlightening and optimistic reading for anyone who has wrestled with addiction either personally or professionally. PRAISE FOR MARC LEWIS '[L]ooks at how addiction and brain science collide, and how understanding our brains can help addicts get out of the abyss ... [A] very readable, often touching, gateway into the universe of neuroscience and the shadowland of addiction.' *The Sydney Morning Herald* 'The most important study of addiction to be published for many years.' *The Spectator*

CRIMINAL JUSTICE POLICY AND PLANNING

PLANNED CHANGE

Routledge Unlike other textbooks on the subject, *Criminal Justice Policy and Planning: Planned Change, Fifth Edition*, presents a comprehensive and structured account of the process of administering planned change in the criminal justice system. *Welsh and Harris* detail a simple yet sophisticated seven-stage model, which offers students and practitioners a full account of program and policy development from beginning to end. The authors thoughtfully discuss the steps: analyzing a problem; setting goals and objectives; designing the program or policy; action planning; implementing and monitoring; evaluating outcomes; and reassessing and reviewing. Within these steps, students focus on performing essential procedures, such as conducting a systems analysis, specifying an impact model, identifying target populations, making cost projections, collecting monitoring data, and performing evaluations. In reviewing these steps and procedures, students can develop a full appreciation for the challenges inherent in the process and understand the tools that they require to meet those challenges. To provide for a greater understanding of the material, the text uses a wide array of real-life case studies and examples of programs and policies. Examples include policies such as Restorative Justice,

Justice Reinvestment, Stop-and-Frisk, and the Brady Act, and programs such as drug courts, community-based violence prevention, and halfway houses. By examining the successes and failures of various innovations, the authors demonstrate both the ability of rational planning to make successful improvements and the tendency of unplanned change to result in undesirable outcomes. The result is a powerful argument for the use of logic, deliberation, and collaboration in criminal justice innovations.

IRON ANNIE

Bloomsbury Publishing I still think'a her every day, several times a day. Aoife knows everyone in Dundalk's underworld. Too well, in some cases. But when she meets Annie, a beautiful whirlwind of a woman, and brings her to the Town, she finds that she doesn't know nearly enough about her. Annie is magnetic and wild and Aoife's desire to learn more quickly becomes a need, and then an obsession – to know this dangerous woman, to love her, to keep her. So when Aoife's friend and collaborator the Rat King asks her to help him dispose of ten kilos of cocaine, swiped from a rival, she brings Annie along for a road trip through a Britain that she only knows as a place to be suspicious of. So when Annie decides she doesn't want to return to Ireland, Aoife makes a decision that changes everything. Gritty and yet tender, tragic and yet hopeful, Iron Annie is a breakneck journey that crackles with energy, warmth and heart, and marks the arrival of a fresh and vibrant new voice in literary fiction.

THE ECONOMICS OF CRIME

AN INTRODUCTION TO RATIONAL CRIME ANALYSIS

Routledge Since Gary Becker's seminal article in the late sixties, the economic analysis of crime has blossomed, from an interesting side field within law and economics, into a mature stand-alone sub-discipline that has been embraced by many well-respected academic economists. Wide ranging and accessible, this is the most up-to-date textbook in this area, taking current economic research and making it accessible to undergraduates and other interested readers. Without use of graphs or mathematical equations, Winter combines theory and empirical evidence with controversial examples from the news media. Topics discussed include: the death penalty, racial profiling, rational drug addiction and drug legalization, private crime deterrence, gun control, the privatization of prisons, juvenile crime, alternative social reforms to deter crime By requiring no previous knowledge of economics, not only is this book a perfect choice for students new to the study of economics and public policy, it will also be of interest and accessible to students of criminology, law, political science, and other disciplines interested in the study of crime topics. By emphasizing the benefits and costs of social policy to deter crime, The Economics of Crime can be enjoyed by anyone who follows current public policy debate over one of society's most contentious issues.

DRUGS IN AMERICAN SOCIETY

SERIAL MURDERERS AND THEIR VICTIMS

Cengage Learning This text provides an in-depth, scholarly examination of serial murderers and their victims. Supported by extensive data and research, the book profiles some of the most prominent murderers of our time, addressing the highest-profile serial killer type--the sexual predator--as well as a wide variety of other types (male, female, team, healthcare, and serial killers from outside the U.S.). Author Eric Hickey examines the lives of over 400 serial murderers, analyzing the cultural, historical, and religious factors that influence our myths and stereotypes of these individuals. He describes the biological, psychological, and sociological reasons for serial murder and discusses profiling and other law enforcement issues related to the apprehension and disposition of serial killers. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

KILLER TRIGGERS

Blackstone Publishing The most common triggers for homicide are fear, rage, revenge, money, lust, and, more rarely, sheer madness. This isn't an exact science, of course. Any given murder can have multiple triggers. Sex and revenge seem to be common partners in crime. Rage, money, and revenge make for a dangerous trifecta of triggers, as well. This book offers my memories of homicide cases that I investigated or oversaw. In each case, I examine the trigger that led to death. I chose this theme for the book because even though the why of a murder case may not be critical in an investigation, it can sometimes lead us to the killer. And even if we solve a case without knowing the trigger, the why still intrigues us, disrupting our dreams and lingering in our minds, perhaps because each of us fears the demons that lie within our own psyche—the triggers waiting to be pulled.

SEXUAL ASSAULT

THE VICTIMS, THE PERPETRATORS, AND THE CRIMINAL JUSTICE SYSTEM

Revised edition of Sexual assault, c2009.
