
Read PDF Social Work And Health Care Research Highlights In Social Work

Eventually, you will entirely discover a other experience and talent by spending more cash. still when? complete you admit that you require to get those all needs in the manner of having significantly cash? Why dont you try to get something basic in the beginning? Thats something that will guide you to comprehend even more with reference to the globe, experience, some places, next history, amusement, and a lot more?

It is your categorically own get older to exploit reviewing habit. in the course of guides you could enjoy now is **Social Work And Health Care Research Highlights In Social Work** below.

KEY=IN - TRUJILLO LILIAN

SOCIAL CARE, SERVICE USERS AND USER INVOLVEMENT

Jessica Kingsley Publishers This book provides a definitive critical introduction to service user views and involvement. It addresses both the theoretical and practical issues of service user involvement, and includes initiatives on the impact and outcomes from involvement.

LEADERSHIP IN SOCIAL CARE

Jessica Kingsley Publishers The latest research on leadership issues in social care is drawn together to provide a resource for social care paractitioners & service providers, as well as academics, researchers & students.

DUAL DIAGNOSIS NURSING

John Wiley & Sons The increasing number of individuals with co-existing substance misuse and psychiatric disorders presents a key challenge to mental health and addiction nurses. This practice-based text focuses on the management and intervention strategies to effectively meet the needs of this client group in both community and residential settings. Dual Diagnosis Nursing is a comprehensive text for practitioners on contemporary approaches to working with dual disorder and dual diagnosis patients. It explores both clinical and theoretical perspectives in a variety of different care and treatment settings, addressing key issues such as needs of special populations, multi-dimensional assessment, dealing with emergencies, prescribing and medication management, nursing and psychological interventions, spiritual needs, carers' interventions and professional development.

HEALTH AND SOCIAL WORK

PRACTICE, POLICY, AND RESEARCH

Springer Publishing Company This new text illuminates the essential information about health and social work critical to understanding today's complex health care systems and policies. Chapters highlight current practice, policy, and research in different settings and with special populations. Readers learn how to advocate for the individuals, families, and communities they serve to help improve health and well-being for all. All those interested in micro, mezzo, and macro practices in a healthcare setting will appreciate this rich resource. Highlights include: Each chapter speaks to the interconnections between practice, policy, and research and how they are integrated to inform social work and health. Unique chapters dedicated to special populations such as children and families, older adults, immigrants, persons with HIV/AIDS, LGBTQ individuals, veterans, and people with disabilities provide a deeper understanding of the health care issues specific to these groups. Thorough coverage of the role of social workers in a variety of settings such as substance abuse, correctional systems, public health, and integrated behavioral health care. An in-depth discussion of the values and ethical issues in a health care environment. An intersectionality lens used throughout promotes a greater understanding of a client's multiple status of race, ethnicity, nationality, socioeconomic status, education level, religion, sexual orientation, and gender identification. Detailed case examples developed by professionals in the field in Parts II and III accompanied by discussion questions further enhance an understanding of the issues. Highlights how social workers advocate for social justice to promote good health and well-being for all. On-line instructor's resources including Power Points, how chapter content is tied to the 2015 CSWE Educational Policy Accreditation Standards (EPAS), answers to discussion questions, including approaches that instructors can use with cases and research, as well as a sample syllabus with suggested options for instructors to modify for different courses. Intended as a core text for MSW and advanced BSW courses on health and social work, social work practice in health care, health and wellness, or integrative behavioral health taught in social work, public health, or gerontology programs, this book is also of value in social work practice courses that focus on health care and special populations. Social workers practicing in the health care field will also appreciate this book.

COMMUNITY NURSING AND HEALTH CARE

INSIGHTS AND INNOVATIONS

CRC Press Community Nursing and Health Care brings together the key issues arising from the relationships between community healthcare nurses, their clients, and other health professionals, emphasising how these must develop to enable community care to be 'redesigned around the patient'. This invaluable text: Sets community nursing within its current dynamic context Is written by a variety of professionals, each contributing through their different roles to the development of the field Discusses key themes, such as clinical governance, across chapters Emphasises the importance of collaborative working and how to achieve this Clearly demonstrates the importance of adaptability and responsiveness to change Enables readers to become key players in the direction and practice of community nursing

CARING FOR PEOPLE IN THE COMMUNITY

THE NEW WELFARE

Jessica Kingsley Publishers This book critically examines the new agenda of welfare and assesses the implications for change for policy makers, formal and informal carers and consumers including examinations of key topics such as care planning and case management.

INTERNATIONAL PERSPECTIVES ON SOCIAL WORK IN HEALTH CARE

PAST, PRESENT, AND FUTURE

Routledge In the new health care environment, social workers are being called upon to act as case managers, coordinators, evaluators, therapists, and researchers. International Perspectives on Social Work in Health Care brings together academics and practitioners to discuss what managed care, cost containment, corporatization, and pre-payment portend for social work's survival. Its explanatory pages will help you understand the need for skills in networking, mediation, and advocacy, how to link communities and institutions, and how to conceptualize, quantify, and measure the outcomes of social work interventions. In an effort to transcend traditional organizational and intellectual boundaries, International Perspectives on Social Work in Health Care explores conflicts inherent to social work, the need for new theoretical and practice models, social work administration in changing health care organizations, and developments in health social work research. Seeking to unite policy and practice, this guidebook addresses key issues, trends, and innovations in social work, including: services that enhance community health the transformation of health care in the U.S. into a market commodity a broader approach to health and health care to correct gender biases lifestyle changes and health promotion helping clients overcome patterns of denial, fear, and anger individual casework vs. group/community practice patterns of social work service provision in a rehabilitation hospital environment the effects of heterosexism on health and mental health services to lesbian and gay clients International Perspectives on Social Work in Health Care acts as a forum for contributing authors and readers to exchange and gain information and learn from each others' experiences and expertise. This is the book to help social work academics, educators, and practitioners work together to meet the demands and challenges of the increasingly complex health care environment.

SOCIAL WORK AND HEALTH CARE

Jessica Kingsley Pub

PEOPLE WITH INTELLECTUAL DISABILITIES

TOWARDS A GOOD LIFE?

Policy Press Taking the 'good life' as a starting point, this book explores the current values underpinning discourses on disability, analysing their strengths and limitations and proposing some alternatives to theory and practice.

MANAGING COMMUNITY HEALTH SERVICES

Springer This book was originally conceived in 1987. It was then seen as a contribution towards improved management and policy-making in a diffuse and neglected area of NHS management. The focus of the book is the 'old' Community Health Services: those transferred to Area Health Authorities from local authorities in the 1974 re organization of the NHS. These diverse services, while grouped together, had little objectively in common, occupying, as they do, a hazy middle ground between hospital and Family Practitioner Services. However, since 1974 there have been a number of major developments which have opened opportunities for change and development in these services. These include: the resurrection of concern with 'Public Health'; the attempted closure of large mental illness and mental handicap hospitals and the development of 'Community Care'; the introduction of General Management; and the implication for health and local authorities of the White Papers 'Caring for People', 'Promoting Better Health' and 'Working for Patients'. Traditionally, Community Health Services were seen as low status and a professional dead-end. This, in turn, has led to a rather uneven body of literature. The growth of general management has led to a demand for a more coherent, management-orientated literature. It is our hope that this book will encourage the production of more literature in this area.

RISK ASSESSMENT IN SOCIAL CARE AND SOCIAL WORK

Jessica Kingsley Pub Risk Assessment in Social Care and Social Work outlines the theoretical issues behind the decisions, processes and organisations involved in risk assessment. Written by leading academics and experienced practitioners, it considers implications for future policy, drawing on the full range of perspectives in the most recent research. It considers the following themes: * The concepts of risk and dangerousness, and the ethical questions, which arise when assessments of risk are made. * The wider context of social policy and legislation, and the interaction between rehabilitation and the distribution of risk. * Social services staff and the risks they pose to their clients - the issues of selection, supervision and accountability; and risks to practitioners themselves. Individual chapters describe and compare methods of risk assessment with different client groups, including older people, children, people with mental health problems, and sex offenders. This book will ensure that practitioners, managers and policy makers deepen and coordinate their understanding of the key issues involved in both the initial choices made about the extent of risk, and the stable and productive management of the outcomes of those decisions.

RESEARCH HIGHLIGHTS IN AGING

THE WORK AND FAMILY HANDBOOK

MULTI-DISCIPLINARY PERSPECTIVES AND APPROACHES

Routledge The Work and Family Handbook is a comprehensive edited volume, which reviews a wide range of disciplinary perspectives across the social sciences on the study of work-family relationships, theory, and methods. The changing demographics of the labor force has resulted in an expanded awareness and understanding of the intricate relations between work and family dimensions in people's lives. For the first time, the efforts of scholars working in multiple disciplines are organized together to provide a comprehensive overview of the perspectives and methods that have been applied to the study of work and family. In this book, the leading work-family scholars in the fields of social work, psychology, sociology, organizational behavior, human resource management, business, and other disciplines provide chapters that are both accessible and compelling. This book demonstrates how cross-disciplinary comparisons of perspective and method reveal new insights on the needs of working families, the challenges faced by those who study them, and how to formulate policy on their behalf.

PARTNERSHIPS, NEW LABOUR AND THE GOVERNANCE OF WELFARE

Policy Press Current policy encourages 'partnerships' - between statutory organisations and professionals; public and private sectors; with voluntary organisations and local communities. But is this collaborative discourse really as distinctive as the Labour Government claims? How far do contemporary partnerships exemplify an approach to governing which is based on networks (as distinct from hierarchies and markets)? Partnerships, New Labour and the governance of welfare: provides an up-to-date critical analysis of partnerships; addresses the highly topical theme of 'partnerships' as the means of achieving joined-up government; presents empirical evidence from a wide range of welfare partnerships; examines the relationships between local welfare partnerships and the management of those partnerships by central government; reveals the imbalance of power which characterises many contemporary partnerships. It is essential reading for academics and students of contemporary social and public policy and for those with an interest in networks and other theories of welfare governance.

MANAGEMENT AND ORGANISATIONS IN SOCIAL WORK

Learning Matters This fully revised and updated second edition looks at the study of social work management and organisations, focusing on relationships with crucial partners such as central government agencies, local partners and other social care organisations. Through an examination of current research and practice, the author explores the relationships between ideology, professional and personal values and decision making in organisational culture. Included in the text are case studies, activities and further reading lists to aid learning.

ADULT DAY SERVICES AND SOCIAL INCLUSION

BETTER DAYS

Jessica Kingsley Publishers Placing adult day services within the whole spectrum of social provision, the contributors to this book explore their complementary role alongside field social work, health care, domiciliary services and supported accommodation. Professionals in all sectors of social care will find it an essential guide to the provision of an effective day service.

EVALUATING SOCIAL WORK EFFECTIVENESS

McGraw-Hill Education (UK) Social work has an impact on large numbers of citizens through its services for children and families, elderly people, those with mental or physical health problems and offenders. It also provokes much criticism; its effectiveness is questioned and there are increasing demands for this to be demonstrated. This text discusses how this task may be tackled and explores possibilities for evaluative research in contexts which are often not considered feasible for such enquiry. Paying particular attention to the diverse and complex functions of social work, the book reviews the implications for choosing and adapting research methodologies, emphasizes the importance of identifying the process of social work as well as its outcomes and distinguishes between the identification of effectiveness and its evaluation. It also describes the various means of dissemination which are necessary if research is to influence policy and practice. The book, which gives many examples of research in action, draws on evaluative research in Britain and the US and also on the experience of the Social Work Research Centre. It has been written for researchers, managers, practitioners and students with responsibilities to undertake or to understand the systematic evaluation of social work.

A TEXTBOOK OF COMMUNITY NURSING

CRC Press A Textbook of Community Nursing is a comprehensive and evidence-based introduction covering the full range of professional issues, including community nursing roles, personal safety, public health, and health promotion. This is an essential text for all pre-registration nursing students, students on specialist community nursing courses, and qualified nurses entering community practice for the first time. Completely up-to-date with current theory, policy, and guidelines for practice, all chapters are underpinned by a strong evidence base. User-friendly and accessible, with learning objectives for each chapter, plus exercises and activities to test current understanding, promote reflective practice, and encourage further reading. Case studies and examples from practice draw on all branches of community nursing to illustrate practical application of theory.

MENTAL HEALTH POLICY, PRACTICE, AND SERVICE ACCESSIBILITY IN CONTEMPORARY SOCIETY

IGI Global Mental health and wellbeing has become an increasingly important issue that impacts communities in multiple ways. A critical discussion on the understanding and access of mental health services by people from diverse backgrounds is important to improving global healthcare practices in modern society. Mental Health Policy, Practice, and Service Accessibility in Contemporary Society provides innovative insights into contemporary and future issues within the field of mental healthcare. The content within this publication represents the work of medical funding, social inclusion, and social work education. It is a vital reference source for post-graduate students, medical researchers, psychology professionals, sociologists, and academicians seeking coverage on topics centered on improving future practices in mental health and wellbeing.

PERFORMANCE INDICATORS IN SOCIAL CARE FOR OLDER PEOPLE

Routledge The growing focus on performance review and monitoring means that awareness and use of performance indicators has increased throughout a number of public services. Set within a national context, this book reviews the historical development and measurement issues of performance indicators within social care and the public sector for older people. It then provides an approach to effective local performance measurement in services for older people and an organizing framework within which organizations can arrange their performance appraisal for older people's services. The development of performance review in social care of older people is examined, as is the process of developing local performance measures and engaging staff in enquiry and quality management. The book also reviews the process of developing performance indicators and their utilization at an agency level. Performance Indicators in Social Care for Older People will be of particular interest in the UK for local service providers who are developing approaches for local performance review. It will also be of interest internationally, especially in countries where services for older people are currently developing in a similar direction.

A HANDBOOK OF DEMENTIA CARE

McGraw-Hill Education (UK) This handbook provides a multidisciplinary and critical guide to what we know about dementia and dementia care. It is written by leading academics, practitioners and managers involved in the development of dementia care.

THE CHANGING ROLE OF SOCIAL CARE

Jessica Kingsley Pub Focusing on the enormous organizational and cultural changes that local authority social services have undergone since the 1990 NHS and Community Care Act, this volume provides an overview of the structure and function of social care at practice, management and policy levels. It contains contributions from leading academics, researchers and practitioners in the UK, and also includes chapters on the experiences of the rest of Europe and the US. The contributors examine the impact and effectiveness of key shifts in the weighting of responsibility of central and local government; who the purchasers and providers of social care are; the interaction between social services and other agencies; the relationship between voluntary and statutory sectors; and the involvement of users and carers in service design and provision. They assess the significance of the breakdown of the traditional distinctions and roles underlying social care, and lay the foundations for effective and coordinated future policy, practice and research. With the publication of the Labor Government's White Paper Modernizing Social Services, the future of social care is set for yet more upheaval. This volume will provide an indispensable overview of the evolution and destiny of local authority social services for students, practitioners and managers.

SOCIAL CARE AND HOUSING

Jessica Kingsley Publishers Drawing out the implications for policy and practice from the latest research in housing and social work, this volume illustrates the lack of communication between practitioners that is hindering service provision, and provides suggestions for improving current practice. The contributors examine the relationship of such factors as youth, gender, race, education, poverty, health, social exclusion and housing developments to the provision of housing for those in need. Social workers have many clients - including young people leaving care, offenders, people with disabilities or mental health problems, and those at risk of domestic violence, for example - who require intervention on their behalf to meet their housing needs. Social Care and Housing argues that professionals need to be aware of the role of wider social problems, in particular poor housing, in reinforcing the deprivation of the lowest income groups that form the bulk of service users. The contributors suggest that raising the profile of housing and welfare research within the social services, and encouraging practitioners and educators to introduce a broader social context into practice would improve understanding of the relationship between housing and social care. They also examine strategies for formulating coherent responses to client problems, and explore the development of practice at the boundaries of social care and housing.

THE ESSENTIAL SOCIAL WORKER

AN INTRODUCTION TO PROFESSIONAL PRACTICE IN THE 1990S

Ashgate Publishing, Ltd. This book presents a portrait of social work, not based on what the analyst thinks it should be, but on empirical studies which describe it as it is. It puts social work into a contemporary policy context and argues that the social worker's role remains an essential element in any civilised society preparing to enter the 21st century.

TRANSITION AND CHANGE IN THE LIVES OF PEOPLE WITH INTELLECTUAL DISABILITIES

Jessica Kingsley Publishers One claim made for the policy of care in the community was that it would rescue people with intellectual disabilities from social marginality. To what extent has this promise been fulfilled and their lives transformed? David May presents the lives of people from this group as a series of transitions and offers us a view of the world that is as complex and changeable as any other. Each section covers a different aspect of choice, opportunity and transition on the lifepath, for example, * moving from home to school * leaving school * employment * living independently and * growing old. The contributors have extensive research experience in the field of intellectual disabilities and provide a comprehensive review of this research, drawing out the implications for policy and practice. This book will be an invaluable resource for professionals and carers working with those with intellectual disabilities, as well as their families.

CO-PRODUCTION AND PERSONALISATION IN SOCIAL CARE

CHANGING RELATIONSHIPS IN THE PROVISION OF SOCIAL CARE

Jessica Kingsley Publishers This is a model of practice in which service providers work with service users in the provision of social care services, in effect, a working partnership. This book explores the theory and practice of this developing innovative practice in social work and related fields.

PERFORMANCE REVIEW AND QUALITY IN SOCIAL CARE

Jessica Kingsley Publishers Performance review has become a major topic in social work. As an all-embracing term, it encompasses broad concepts such as 'quality' and 'accountability' and the specific techniques for measuring and managing performance. This volume is divided into four parts to survey the subject in different areas and to examine its implications from the perspectives of the voluntary sector, management, professional practice, the client, and those implementing performance review. The importance of supervision and the need for proper consultation with carers when making policy decisions are also discussed, as well as such areas as quality assurance schemes and the proper implementation of complaints procedures. Also included is an analysis of performance review and quality in General Practice. The final Part provides a general overview of performance and quality review and examines how effective the Citizen's Charter and other quality assurance schemes are and what they mean when put into practice.

SURVIVING FEARS IN HEALTH AND SOCIAL CARE

THE TERRORS OF NIGHT AND THE ARROWS OF DAY

Jessica Kingsley Publishers Fear can have significant and complex effects on the lives of those working in health and social care, yet it is rarely discussed or investigated. Drawing on powerful first-hand accounts, this book explores the fears experienced when working in child protection, mental health, and with marginalized groups of people, and suggests how these fears can be understood and managed. The author provides helpful suggestions for good practice and training and describes the vital roles of supervision, management and workplace culture in helping practitioners cope with their distress. He also looks at how family members, colleagues and the police can provide support and discusses the benefits of recognizing and confronting openly the repercussions of fear, as well as celebrating its potentially positive and life-enhancing impact on practice. Offering innovative new ways of thinking about and coping with fear, this book is essential reading for health and social care professionals, trainers, and managers who need to be aware of issues surrounding fear and anxiety within their organizations.

MANAGING FRONT LINE PRACTICE IN SOCIAL CARE

Jessica Kingsley Publishers Written by key figures in the field of social care training and administration this much-needed volume provides good practice guidance for front line managers. The contributions are based upon recent research into management practice.

SOCIAL CARE, SERVICE USERS AND USER INVOLVEMENT

Jessica Kingsley Publishers Social Care, Service Users and User Involvement provides a definitive introduction to practical, philosophical and theoretical issues at the heart of user involvement. This book provides an accessible account of the latest research findings regarding user involvement on three levels: the delivery and provision of services, practice and practitioners, and research and evaluation. It explores a wide range of service user needs and concerns, including the latest developments in personalisation and the effect of the Equality Act 2010. First-hand accounts illustrate the range of issues and service user needs which could be addressed by increased involvement within and beyond the social care system. The book also distinguishes between user views and user involvement, and addresses their processes outcomes and impact, as well as their measurement. This book will be a key source of information for care workers, service managers, policy makers, researchers, service users and social and health care professionals involved in social care and support service planning.

DEMENTIA

CHALLENGES AND NEW DIRECTIONS

Jessica Kingsley Publishers As a focus for academic and professional study, dementia has moved rapidly from the margin to the mainstream during the last decade. Understanding of this distressing condition, its aetiology and recognition, has become much more widespread and sophisticated. Building on such clinical knowledge, this book challenges the reader - to think ethically and in a person-centred way about the implications of dementia at a personal, planning and service provision level - to consider consumer perspectives, not only those of carers but also the much neglected views of individuals with dementia - to explore less well documented areas such as dementia and Down's Syndrome, depression and early onset dementia. In conclusion, the book illuminates selected topical developments in service provision such as community care, advocacy and aspects of the built and social care environment.

UNDERSTANDING SOCIAL RESEARCH

PERSPECTIVES ON METHODOLOGY AND PRACTICE

Routledge In 1991 the Economic and Social Research Council (ESRC) published "Postgraduate Training Guidelines". Throughout the document emphasis is placed on the need for universities to make postgraduate research students aware of the methodological issues that affect their work.; This text explores the relationship between knowledge, methodology and research practice across the broad spectrum of the social sciences in language that is accessible to researchers at all levels of their research careers. It follows the themes that there is no single practice or correct methodology, and that the diversity and variety in terms of methodology and disciplinary focus are a sign of the sophistication and complexity of the processes of social research. The text examines socio-cultural contexts of social research and relates them to contemporary shifts in focus such as feminism, critical theory and postmodernism. The importance of selecting the research methodology most appropriate to the subject discipline concerned is emphasized.

SUPPORTING PEOPLE WITH DEMENTIA AT HOME

CHALLENGES AND OPPORTUNITIES FOR THE 21ST CENTURY

Routledge Supporting People with Dementia at Home details a groundbreaking study of an intensive care management scheme designed for older people with dementia that are at risk of entry into residential care. The authors use a quasi-experimental approach to compare how the individuals on the mental health team in one community were matched to a similar community without the service. They analyze the evidence focusing on the eventual placement of the individual suffering, the quality of care they receive, and also the needs of their carers. This book offers valuable evidence about the factors which can maximize the independence and well being of older people with dementia, from the perspective of older people and their carers. For those who commission services, it is highly relevant to service models for the National Dementia Strategy in England.

OXFORD TEXTBOOK OF PRIMARY MEDICAL CARE

SECTIONED

SOCIAL SERVICES AND THE 1983 MENTAL HEALTH ACT

Routledge First published in 1990. Routledge is an imprint of Taylor & Francis, an informa company.

THE VIEWS AND EXPERIENCES OF DISABLED CHILDREN AND THEIR SIBLINGS

A POSITIVE OUTLOOK

Jessica Kingsley Publishers The authors explore the implications of their study for a childhood model of social disability. They identify and draw out the significance of their findings for a range of mainstream, specialist and statutory providers. It is an invaluable resource for effective ways of communicating directly with disabled children.

EFFECTIVE WAYS OF WORKING WITH CHILDREN AND THEIR FAMILIES

Jessica Kingsley Publishers This text examines the latest evidence about the most successful forms of intervention when working with children and their families. The book covers a wide range of methods and services with emphasis on helping children with known problems.

SOCIAL WORK

AN INTRODUCTION

SAGE ?Packed full of case studies, activities and tools for real-life practice, this book covers all the main topics in the first year of both the undergraduate and postgraduate degree in social work. To provide a holistic view of the field, it used an integrated approach combining theory, policy and practice.

SOCIAL WORK ADMINISTRATIVE PRACTICE IN HEALTH CARE SETTINGS

Canadian Scholars Press

WOMEN AND AGING INTERNATIONAL

DIVERSITY, CHALLENGES AND CONTRIBUTIONS

Routledge According to a recent population report by the United Nations, "in most countries, older women greatly outnumber older men. In many cases, the difference is so large that the concerns of the older population should in fact be viewed primarily as the concerns of older women." Internationally, the concerns of older women emanate from the unique gendered challenges they experience because they are more likely to be widowed, poor, have lower educational attainment, fewer skills, restricted inheritance and land ownership, and have fewer sexual rights. To add to this negative scenario, ageist and sexist attitudes in both developed and developing societies throughout the world tend to categorize older women as non-contributing burdens even though they are in fact often highly productive and bear most of the burdens of family caregiving responsibilities. In spite of their majority status and list of concerns, older women are less likely to be equally represented in the literature on aging. This edited book introduces the reader to the diversity, challenges and contributions of older women in several of the major regions of the world. This book was originally published as a special issue of the Journal of Ethnic and Cultural Diversity in Social Work.
