PEMBUKA MATA HATI UNTUK PENDIDIKAN JIWA: MUTIARA AL- FATIHAH [Pascal Books](#) Sungguh tiada kata yang paling indah diungkapkan, terbersit dalam hati yang terdalam, seiring dengan denyut nadi dan sirkulasi nafas, kecuali puji dan syukur kepada Allah Swt. Shalawat dan salam semoga tetap dilimpahkan kepada nabi yang dicintai oleh-Nya, Muhammad Saw, kepada keluarga, sahabat, juga penerus ajarannya, dan semoga sampai kepada kita sebagai umatnya. Perjalanan kehidupan manusia pada zaman modern tidak selamanya berjalan mulus. Perkembangan ilmu pengetahuan dan teknologi sebagai semangat zaman pesatnya sains, tidak semuanya berbanding lurus dengan nuansa kejiwaan. Perkembangan produk sains sebagai dorongan kognisi yang dahsyat yang seharusnya membuat manusia tenteram tidak semuanya mengantarkan pada ketenangan jiwa. Malah, sebagian manusia mengalami keresahan, kegalauan, dan kegelisahan. Manusia memiliki ketergantungan pada produk yang diciptakannya. Sehingga kehidupannya cenderung mekanistik, yang kering dari nuansa spiritual. Digital technology has transformed society to serve people from manufacturing needs to smart cities, from network connectivity to people connectivity. The application of information technology has helped in improving live quality and environmental sustainability. Digital transformation is revolutionizing how businesses and workers interconnect to be more productive and efficient. The result is improved collaboration, faster processes and time-to-market, lower costs and better products. Devices are getting smarter, meaning they are able to perform more and more tasks without human intervention; moreover, these devices generate data that provide insights to further improve processes and gain greater efficiencies. Moreover, with the Internet of Things (IoT), all these smart devices are interconnected in ways that not only help make them even smarter, but also enhances the intelligence of the overall system. Digital technology is a formidable driver for the transformation of a highly carbon-dependent world into one that is more ecologically 'smart.' We are entering a new era of environmental innovation that is driving better alignment between technology and environmental goals. Since its first announcement in 2011, industrial revolution 4.0 has dynamically changed and transformed to adjust itself to the human needs and to serve more efficiency and effectiveness of everyday life as well as environmental enhancement. The 7th Bandung Creative Movement has brought forward discussions on dynamic changes, ups and downs, innovations, relations of industrial revolution of the internet of thing, data, automation, to human physical world, new art and aesthetic, business, product innovation, built environment, and education. **Revival of Religion's Sciences (Ihya Ulum ad-din) 1-4 Vol 1 1 ج** [الغزالي 4-1 \(انكليزي\)](#) [Dar Al Kotob Al Ilmiah](#) [دار الكتب العلمية](#) **Sutasoma The Ancient Tale of a Buddha-Prince from 14th Century Java by the Poet Mpu Tantular** The 14th century Javanese epic poem, Sutasoma, relates the life of a prince, born an incarnation of the Jina-Buddha Wairocana. The comprehensive and original coverage of the book will prove useful in understanding business, cultural, and philosophical issues related to the Islamic World."--BOOK JACKET. **Islamic World View** [Routledge](#) The quest for a systematic unity of the universe in all of its manifestations is a common topic in Western thought. In this book the author shows what Islam can bring to this field of human enquiry. Defining a paradigm of Islamic political economy and world systems, he presents a study of epistemology in the light of general systems derived from the Qur'anic premise. The result is an intellectual endeavour without any dogmatic or religious and philosophical enquiry. First published in 2001. Routledge is an imprint of Taylor & Francis, an informa company. **Islam and Muslim Societies** Islam is more than a religion in the strict theological sense. If we confine ourselves to doctrinal normativity and Islamic law to analyse what Muslims motivate and how they build religious landscapes and life worlds, we seriously narrow down our understanding of Islam. Islamic society is a universal society, found at every place, in East and West, in south and north, and found at all time. It was not only found at the time of the Prophet, but also before his time, and at the time of other Messengers from Adam to Jesus (peace be upon them all), and after their time. Koranic teachings promote an ascetic ethic of self-control that bears on virtually all aspects of everyday activity. For Muslims, faith has not merely been a matter of private life and a personal relation with God. It has had pervasive social consequences. The Holy Qur'an and the traditions of the Prophet are concerned about Muslim and Islamic society. In many ways these holy books focuses on the importance of Islamic society. Because Allah and his prophet believes that Muslims Ummah are the best among all Adam's generation. Consequently, Islamic religion takes them out from the darkness into the light in order to achieve happiness, felicity in this world and the Hereafter. This book **Islam and Muslim Societies** consists of studies dealing with political, economic, legal, and social policies that affect every facet of the social life of Muslims. This book is aimed at bridging the gap between the textual and contextual approaches to Islamic Studies; and solving the

dichotomy between 'orthodox' and 'heterodox' Islam. It contains a selection of studies written by scholars and authors dealing with Islam and Muslim societies as its central focus of academic inquiry and to encourage comprehensive consideration of its many facets; to provide an opportunity for the study of Islam and Muslim societies in their global context; to encourage interdisciplinary studies of the Islamic world that are cross-national and comparative; to promote the diffusion, exchange and discussion of research findings; and to encourage interaction among academics from various traditions of learning. Islamic Science Towards a Definition Science was conceived as something absolute by the Positivists; they thus failed to see that it is basically a human activity and that no human phenomenon can be absolute. The discussion in this monograph takes its departure from this point and investigates the epistemological foundations of science. It argues that one such foundation is the worldview of the scientist which reflects his physical-social environment. If this is the case, then it becomes clear why there can be a certain scientific activity that can be identified as Islamic. This is the fundamental theoretical ground upon which Islamic Science: Towards a Definition is based. In order to demonstrate this point, the author attempts to present a historical illustration of how scientific activities gradually emerged in Islam within the first three centuries, i.e. 610-900 AD. The argument developed follows three frameworks that are said to be the foundation of these activities: 1) the Islamic worldview; 2) the Islamic scientific conceptual scheme; and 3) specific terminology of each science. These points are all defined and clarified from an epistemological standpoint.

But there are severe limitations with the concept of CSR and the effectiveness of CSR practices. Addressing such limitations, this volume proposes that the concept of Corporate Social Irresponsibility (CSI) offers a better theoretical platform to avoid the vagueness, ambiguity, arbitrariness and mysticism of CSR. It challenges conventional modes of thinking, unveils the CSR mask of business practices and redirects public attention to the core issues of CSR. This collective work sets up an initial theoretical framework for the subject of CSI and examines the fundamental reasons for irresponsibility in and beyond a corporate context. Rooted in theory and practice it seeks to understand how boundaries of CSR and CSI have been constructed in society, and explores some systemic and structural issues of CSI in practice. **The Dreamer Re-searching Margins Ethics, Social Justice, and Education** [Routledge](#) Identity, power, and positionality play crucial roles in designing and implementing research critically and ethically across marginalized cultures and communities. The surge of new converts on hostile ground proves that Islam is a true religion that needs reckoning by the West. On 7th October 2002, it was reported in St. Petersburg Times that "Every year, about 20 000 people in the United States convert to Islam, according to a study conducted by the Council on American-Islamic Relations." On 22nd February 2004, Nicholas Hellen and Christopher Morgan reported in The Sunday Times that "More than 14 000 white Britons have converted to Islam after becoming disillusioned with western values, according to the first authoritative study of the phenomenon. Some of Britain's top landowners, celebrities and the offspring of senior Establishment figures have embraced the strict tenets of the Muslim faith." The intention of writing this book is not to create enmity or dissension, but to convey the truth about Islam. We pray to Allah that it will benefit everybody, Muslims and non-Muslims alike. He is also the managing director of Danial Zainal Consultancy in Malaysia, a panelist for several TV programs in Malaysia, a columnist and author of 12 books. **Primal Leadership Unleashing the Power of Emotional Intelligence** [Harvard Business Press](#) **Annotation. Footsteps** [Penguin](#) As the world moves into the twentieth century, Minke, one of the few European-educated Javanese, optimistically starts a new life in a new town: Betawi. With his enrollment in medical school and the opportunity to meet new people, there is every reason to believe that he can leave behind the tragedies of the past. But Minke can no more escape his past than he can escape his situation as part of an oppressed people under a foreign power. As his world begins to fall apart, Minke draws a small but fervent group around him to fight back against colonial exploitation. During the struggle, Minke finds love, friendship, and betrayal—with tragic consequences. And he goes from wanting to understand his world to wanting to change it. Pramoedy's full literary genius is again evident in the remarkable characters that populate the novel—and in his depiction of a people's painful emergence from colonial domination and the shackles of tradition. **This Earth of Mankind** [Penguin](#) Minke is a young Javanese student of great intelligence and ambition. Living equally among the colonists and colonized of 19th-century Java, he battles against the confines of colonial strictures. Revised edition: This edition of *The Good Samaritan* includes editorial revisions. **Advancing Family Theories** [SAGE](#) *Advancing Family Theories* explores two contemporary theories of the family - rational choice theory and transition theory. These diametrically different approaches illuminate what differing theories reveal about families. The book also discusses how meta-theories can assist in building and refining theory and offers insight on the "understanding versus explanation" debate. *Advancing Family Theories* gives students a precise notion of what a theory is and how theories work in research. The book not only looks at philosophical realms but also examines particular substantive theory to explain and predict family behaviors. *Advancing Family Theories* is an excellent supplement to *Family Theories, Second Edition* (SAGE, 2002), or is effective on its own. The book helps students with the task of taking abstract and very general theories and reducing them to a level of specific research models and hypotheses. **The Achieving Society** [Pickle Partners Publishing](#) Harvard University Professor David C. McClelland is chiefly known for his work on achievement motivation, but his research interests extended to personality and consciousness. He pioneered workplace motivational thinking, developing achievement-based motivational theory and models, and promoted improvements in employee assessment methods, advocating competency-based assessments and tests, arguing them to be better than traditional IQ and personality-based tests. His ideas have since been widely adopted in many organisations, and relate closely to the theory of Frederick Herzberg. He is most noted for describing three types of motivational need, which he identified in this book, *The Achieving Society*: 1. achievement motivation (n-ach), 2. authority/power motivation (n-pow), 3. affiliation motivation (n-affil). First published in 1961, his classic book provides a factual basis for evaluating economic, historical, and sociological theories that explain the rise and fall of civilizations. **The Formative Period of Islamic Thought** [Oneworld Publications Limited](#) A clear picture of the main lines of philosophical development from the death of Muhammad in 632, to 950. **The Alchemy of Happiness** [Samaira Book Publishers](#) **The Alchemy of Happiness** was an attempt to show ways in which the lives of a Sufi could be based on what is demanded by Islamic law. This book allowed Al Ghazzali to considerably reduce the tensions between the scholars and mystics. The influence of Al-Ghazzali upon both the Christian and Islamic thinkers of the Middle Ages and beyond is being more and more widely documented. **Educational Psychology Developing Learners** [Pearson Higher Ed](#) NOTE: Used books, rentals, and purchases made outside of Pearson If purchasing or renting from companies other than Pearson, the access codes for the Enhanced Pearson eText may not be included, may be incorrect, or may be previously redeemed. From Jail to Jail [Ohio University Press](#) "From Jail to Jail" is the political autobiography of a central though enigmatic figure of the Indonesian Revolution. Variouslly labeled a communist, Trotskyite, and nationalist, Tan Malaka managed, during the several decades of his political activity, to run afoul of nearly every political group and faction involved in the Indonesian struggle for independence. He was elected Chairman of the Indonesian Communist Party (PKI) in 1921 and barely five years later opposed the PKI-led uprising in Indonesia. He openly opposed Sukarno's support for negotiations with the Dutch, yet Sukarno issued a decree in 1963 recognizing Tan Malaka as a hero of national independence. During his several decades of political activity he spent periods of exile and hiding in nearly every country in Southeast Asia. From Jail to Jail is one of the few known autobiographies by an Asian Marxist of the 1930s and 1940s." Islamic Education and Indoctrination The Case in Indonesia [Routledge](#) Islamic schools, especially madrasahs, have been viewed as sites of indoctrination for Muslim students and militants. Some educators and parents in the United States have also regarded introductory courses on Islam in some public schools as indoctrinatory. But what do we mean by "indoctrination"? And is Islamic education indoctrinatory? This book critically discusses the concept of indoctrination in the context of Islamic education. It explains that indoctrination occurs when a person holds to a type of beliefs known as control beliefs that result in ideological totalism. Using Indonesia as an illustrative case study, the book expounds on the conditions for an indoctrinatory tradition to exist and thrive. Examples include the Islamic school co-founded by Abu Bakar Ba'asyir and the militant organisation Jemaah Islamiyah. The book further proposes ways to counter and avoid indoctrination through formal, non-formal, and informal education. It argues for the creation and promotion of educative traditions that are underpinned by religious pluralism, strong rationality, and strong autonomy. Examples of such educative Muslim traditions in Indonesia will be highlighted. Combining philosophical inquiry with empirical research, this book is a timely contribution to the study of contemporary and often controversial issues in Islamic education.
