### A JOURNEY WITH FRANCISCO VÁZQUEZ DE CORONADO

Lerner Publications™ In 1540 Francisco Vázquez de Coronado marched from northern Mexico in search of the Seven Cities of Cibola, reputed to hold great treasures. He found Cibola, but discovered that this Zuni village didn't have the treasures he sought. Coronado kept searching for gold-filled cities but came up empty-handed—though his men became the first Europeans to see the Grand Canyon. By studying maps, quotations, and works of art created in his lifetime, we can learn what the journey was like for Coronado and the Native peoples he encountered. Take an expedition with Coronado and primary sources to learn more about his travels.

### (UN)COMMON GROUND

### CREATIVE ENCOUNTERS ACROSS SECTORS AND DISCIPLINES

BIS Publishers The ubiquitous concept of the interdisciplinary is too narrow a term to capture the intensity and plurality of today's networks of collaboration. Collaborative practice not only extends its reach across all disciplines but across whole sectors and levels of society. There is a gathering recognition that we are witnessing the rise of an era of multidimensional collaboration which is not only leading to significant innovation and commercial advantage but also embodies, in and of itself, a powerful transformation in our

ways of producing, consuming and relating to one another and to our world Uncommon Ground explores a number of case studies (often involving major corporations and Academies) interspersed with reflective essays by some of today's leading thinkers and practitioners. By juxtaposing the concrete and the reflective we have begun a process of mapping the varieties of experimental forms that are emerging as the various actors attempt to navigate the opportunities and balance the contradictory forces and values at work. The result is a range of practical and inspiring examples providing insight into the complex rewards and challenges of cross sector collaboration Book jacket.

#### ALGER HISS, WHITTAKER CHAMBERS, AND THE SCHISM IN THE AMERICAN SOUL

---

Intercollegiate Studies Inst In 1952, Random House published Whittaker Chambers's Witness. Not only did it immediately become a bestseller; it was recognized by many as one of the great spiritual autobiographies of the twentieth century. In Alger Hiss, Whittaker Chambers, and the Schism in the American Soul, editor Patrick Swan marks the fiftieth anniversary of Witness's publication by anthologizing 23 of the best essays ever written on Chambers, Hiss, or both. Essays by literary luminaries such as Leslie Fiedler, Arthur Koestler, Lionel Trilling, Rebecca West, Murray Kempton, and William F. Buckley Jr. tell the story of these two fascinating (and ultimately mysterious) men and of what they and their conflict represented. Sampling the entire spectrum of respectable thought on Hiss and Chambers, these pieces do not, as a rule, trouble themselves much with the facts of the case; Hiss's guilt was not so much in doubt then, and is certainly well documented by now. But the essayists' divergent opinions on the nature of communism (and anticommunism), liberalism, the proper relationship between religion and politics, and many other issues remain provocative -- perhaps even more so now than when they were written.

#### A HANDBOOK FOR NURSE PRACTITIONERS

---

W B Saunders Company This new third edition covers conditions seen in the primary care of children, emphasizing prevention as well as management of problems from the nurse practitioner perspective. It begins with an overview of the status of children in the United States and a review of developmental theory, followed by guidelines on how to assess children and families. A significant portion of the text is devoted to issues of daily living that are a part of every child's growth and issues that could lead to health problems (nutrition, toilet training) unless appropriate guidance is given. Disease processes often encountered by the pediatric primary provider are addressed through discussions of assessment, differential diagnosis, management, and prevention. Written by experienced authors who are familiar with the scope of practice and knowledge base needed by nurse practitioners. Chapters on Complementary Therapies and Environmental Health include content not often found in other pediatric textbooks. Valuable appendices provide information on medications, growth charts, and laboratory values. Informative Resource boxes include websites as well as organizations and printed materials useful to nurse practitioners and their patients. Discussions of cultural factors facilitate a clear understanding of child health. Nursing Diagnosis boxes at the end of most chapters contain the latest (2003-2004) NANDA nursing diagnoses for that chapter. A new chapter on Practice Management covers organization of practice, tips for billing compliance with medical standards, working with other providers, and development of employment contracts. The latest practice guidelines are included from the American Academy of Pediatrics, Agency for Healthcare Policy and Research, and other expert sources. Updated information examines the health status of children in the United States and focuses on the issues of greatest concern for both parents and primary caregivers. More tables and decision-making guidelines throughout focus on differential diagnosis decision-making. Immunization Recommendations have been updated. A revised medication appendix includes newly approved drugs. An updated and revised table on breastfeeding lists contraindicated drugs. A new internal design makes material easier to read.
