INTRODUCTION TO FINANCIAL ACCOUNTING

YOSEMITE & THE EASTERN SIERRA

In the tradition of California the Beautiful, Galen Rowell's best-selling celebration of the natural beauty of the Golden State, comes Yosemite & the Eastern Sierra, featuring stunning color images by outdoor photographer Gary Crabbe. Here is a fresh look at the wonders of Yosemite National Park (visited by more than three million people each year), as well as the lesser-known vistas of the pristine wilderness that adjoins the eastern slopes of the Sierra Nevada. From the first light of sunrise cascading above an alpine creek to the last glint of sunset reflected on the joyful serenade of a waterfall ballet at Horsetail Falls, the spirit of the land will nourish your soul. The accompanying text of this small but exquisitely printed volume speaks through the voices of our great nature writers, from Ansel Adams and Galen Rowell

to Joan Didion, Wallace Stegner, and Mark Twain. This is the perfect gift for anyone who has ever marveled at the beauty of Yosemite National Park and the glorious gallery of the Eastern Sierra's natural wonders.

THE PALMER PLETSCHE COMPLETE GUIDE TO FITTING

SEW GREAT CLOTHES FOR EVERY BODY. FIT ANY FASHION PATTERN

Sewing for Real People From tissue-fitting pioneers Pati Palmer and Marta Alto comes a new book whose title says it all: The Palmer/Pletsch Complete Guide to Fitting: Sew Great Clothes for Every Body! Fit Any Fashion Pattern. It's been 20 years since their last book about fitting and altering sewing patterns, Fit for Real People. For Palmer and Alto, that

means 20 more years of hands-on learning and experience from fitting more "real people" of all shapes and sizes from around the globe. Having long ago dispensed with tedious measuring or making a muslin to check the fit of a sewing pattern, the authors have mastered the process of tissue-fitting. This means simply "trying on" the pattern's tissue pieces to check systematically for where to alter the pattern for a custom fit. The pattern pieces themselves become the "muslin." "Systematically" means following the tissue-fitting sequence they've developed and refined. It's a no-guess order of fitting that ensures success. The book reinforces this sequence since the alteration chapters themselves are ordered in the same sequence. Readers are instructed to start with length and width, move on to the back, check the neck and shoulders, all before even considering how the pattern fits in the bust. As they work through the pattern, sewers will alter the tissue and try on again until the tissue fits well. The book then instructs how to pin-fit the fabric for a final tweaking before sewing. The book explains all facets of pattern fitting and alteration to give readers the background and guidance they need to achieve a custom fit on any pattern from any company. Instructions include: * Take just one measurement to determine the right pattern size to buy. Find out what to do if you are between sizes or a different size top and bottom. * Make a "body map" with a close-fitting dress pattern to see how you differ from the "standard" on which sewing patterns are based. * Learn from "real people" examples of a variety of bodies and their individual alterations. * Use the book's new "wrinkle dictionary" to identify a needed pattern alteration. "Wrinkles point to the problem," say the authors, and now you can look up the page reference for a solution. * See how age can affect body shape, from preteen to octogenarian. * Take note of the latest sewing techniques for garment details that affect fit, such as darts, zippers and sleeves, for enhancing the look of a well-fitted garment. * Learn basic skills for designing or redesigning for myriad variations using the same pattern. Throughout the book, step-by-step instructions are accompanied by full-color photography and a new style of technical art that is extremely clear. Short captions explain each illustration. As a bonus, the authors detail the evolution of ready-to-wear and pattern sizing over the past century, along with their own history in pioneering the art and practice of tissue-fitting.

FORBIDDEN FRUIT

Welcome to the Sixth Terrace of Dante's tower of Purgatory, serving up sins of gluttony in an eternal banquet. On this carefully curated menu you'll find children stuffing themselves to death, a forgotten saviour gorging on cheeseburgers between bareknuckle rounds on the roadhouse circuit, wealthy socialites revel in an orgiastic alien feast, and the end of days as seen through an apocalyptic carnival of indulgence. Excessive consumption also manifests in darker hungers, for cruelty, for distraction, or possession. A pair of grifters bent on having it all chase a Scottish leprechaun across the English countryside, a newly deceased addict vies for the attention of Heavenly Higher Ups, degenerate poker players gamble with unforeseen currency, and when an old lady swallows a fly, it's just the beginning... Featuring nine stories of grotesque appetite and glorious excess from a gory gaggle of creators, they say too much of anything is poison, yet these condemned swallow each piece of forbidden fruit while reaching for the next, never to be sated. They can't help themselves. Can you? Stories and art by: Mike Thorn (Darkest Hours, Shelter for the Damned) Robin van Eck (Rough) Eddie Generous (Camp Summit, What Lurks Beneath, Behemoth Rising) Julie Hiner (Final Track) Konn Lavery (Mental Damnation Series, Rutherford Manor Series) Cam Hayden (Futility, Red Flag) Sarah L. GALLIPOLI, A BATTLEFIELD GUIDE

THE PILGRIM

Lontar Foundation *The Pilgrim*, first published in 1969, has been hailed as Indonesia's first real modern novel. The main characters are an artist and a cemetery overseer; the former represents emotion and the latter signifies reason and the conflicting aspects of human nature. Despite the characters' antagonistic nature and cruelty, they are---in some ways---very similar. Both represents forms of creativity, philosophy, and art. Both exist outside conventional society. Both are searching for genuine human values and are aware of their shortcomings. In *The Pilgrim*, the chaos of thought and feelings represents life in its chaotic randomness.
